THE DRIFT SETTING IN.

The drift of popular opinion is unmistakable. It is in the direction of Democratic principles. The bitter fruits of the departure of the Government from those principles, says the Sonoma *Democrat*, have been tasted, and the people everywhere exhibit a disposition to follow no longer the delusions which have led them from the paths. While walking in those old paths in which their fathers trod, they had justice, light taxation, honesty in the administration of the Government and equality in sharing both its burdens and blessings. Since making the "new departures," what have they had? Monopolies that grind the life out of the country—Credit Mobiliers and "Contract and Finance" robberies—Salary Grabs, high tariffs that plunder the toiling many for the scheming few—a moneyed power, fortified at the national capital, controlling legislation, and leaving only the name of representative government, the substance having been swallowed up in a sea of political corruption. This is the necessary fruit of anti-democratic ideas and measures. The fathers of the Democratic party predicted all that has come to pass. Their prophecies have become history. They predicted that unless the Government adhered to the rule of strict construction of the Constitution and opposition to class legislation, general corruption would ensue and the liberties of the people be lost. And so it is to-day. Corruption has poisoned every department of the Government, and almost the only rights the people have left to them are right to be taxed and to impotently denounce the villainies they are unable to prevent or to punish. Groaning and smarting under these burdens and aggravations, they are looking about for the remedy. And where should they look but to the Democratic party, the party of Jefferson, the party of Jackson, and the party of the people—the party whose principles ruled the republic in the day of its prosperity and glory? The errors of the Democratic party have been incidental; its principles are sound and imperishable, being founded on the rights of man and the true philosophy of free Government. The errors of its opponents are inherent and ineradicable, and the present misgovernment and spoliation under which the nation "bleeds" and groans are legitimate fruits of their principles.

The drift is towards Democratic principles and the Democratic party, and with Thurman, or Hendricks, or Allen, or some such representative of old-fashioned "Old Hickory" Democracy, we will sweep the nation from the forests of Maine to the valleys of California.

Vermont and Wyoming.

Step by step we are progressing to the choice of a Democratic National Administration, and from all sides we see the masses rallying around the standard of the "Old Guard." Even Vermont, which usually gives a larger Republican majority than there are Democratic votes in the State, cannot but encourage the cause, as evinced at the late election, where not only the Radical candidates received smaller majorities, but sections which have not gone Democratic for years, return Democratic Senators and Representatives. Luke P. Poland, the Congressman that introduced the infamous press gag law, is defeated, even though he received over 8,000 majority at the last election. The Democracy may well rejoice over this great gain.

Wyoming, which lately voted for Delegate to Congress, has returned Steele by over double the majority he received at the last election. The Legislature is strongly Democratic.

Goldsmith Maid Trots a Mile in 2:14.

A dispatch dated Boston Sept. 2d, says that at Mystic Park, to-day, Goldsmith Maid trotted against her own record for a purse of $2,500. She was allowed three trials, and was accompanied by a running horse driven to buggy. On the second trial the track was scraped close to the pole and there was not a breath of wind. She went to the quarter in 33½, to the half in 1:06¾, lifted her head slightly as she reached it, but trotted the last half without a break, and made the mile in 2:14.

PACIFIC COAST NEWS.

Hon. Geo. A. LaDow is at Portland.

Another fire occurred at Portland on the 6th. Loss, $15,000, mostly insured.

A petition praying the Legislature to abolish the present liquor law is in circulation in Lafayette.

The assessed value of property in California is over sixty million dollars more this year than last. An excellent showing.

Dallas, Polk county, comes proudly to the front, and with unction claims the champion wood-chopper. He cut, piled five cords of oak wood and walked back to town, (a distance three miles) arriving at four o'clock.

The town of Mokelumne, Calaveras Co., Cal., was almost totally destroyed by fire on the 4th. Loss about $175,000, with but a light insurance. The fire started in a China wash house. A strong wind was blowing at the time.

Hon. H. S. Smith, of Clatsop, joint Senator, is unquestionably entitled to the honor of being the oldest white resident in Oregon, the first pioneer of the State, being a resident of Clatsop since 1832. He was born in New Hampshire, and studied at an Eastern academy.

Every capitalist, mechanic, stockman, and agriculturist will consult their *best* interests by giving all possible encouragement to *every* effort put forth in the establishment of manufactories in the State, however small and insignificant they may appear at first. So says the *Record*, and we concur.

A new enterprise has been started on Long Tom, which is nothing more nor less than an elk hide harness shop. The main feature in this kind of harness is that it will fit the smallest jackass rabbit, or the largest elephant, equally well, according to whether the atmosphere happens to be dry or moist.

Wednesday in State Fair week, all children under 15 years of age that have a mind to come, belonging to public or Sabbath Schools in the State, will be admitted to the State Fair free. Their teachers or Superintendents can get admission tickets by applying to the Secretary of the Agricultural Society, Mr. E. M. Waite.

Parties who have returned from Union County, Oregon, says the *Bulletin*, state that the race between the Ross mare "Trifle" and Alex. Labuff's horse "Buckskin" was won by the former in 1:42½, 1:43 and 1:44¾, the track being 112 yards short. Very little betting took place—not over $300 in pools were sold—and perhaps not more than $3,000 bet altogether. "Trifle" belongs to Geo. Ross, formerly of this place.

His Excellency Gov. Grover has received the following letter, and as the readiest way to meet the wishes of his correspondent, has ordered its publication: "Sir: A lady unacquainted in your State wishes an acquaintance with some respectable gentleman by correspondence—a bachelor preferred. Please, sir, if you can, inform this lady of such an acquaintance, and you will have her sincere thanks. Address, M. K. S. R., Wolcotsville, Indiana—Box 30."

GENERAL NOTES AND NEWS.

It is said Gen. Butler is touching up Moulton's forthcoming statement, and that it will be a stunner.

A thousand Granges, with sixty thousand members, are the figures of the Patrons of Husbandry in Ohio.

The members of Plymouth Church are contributing toward a fund for the relief of Mrs. Tilton. Already $17,000 have been collected.

Rev. H. W. Beecher is still sojourning at the Twin Mountain House, and in conversation announced his intention of remaining until the last of the month.

The other day, in the great swimming race at Long Branch, the winner swam the three miles, from out at sea to shore, in one hour and ten minutes.

Some German workmen have written to Bismarck that for every bullet shot at him which misses him they will kill a Roman Catholic bishop; for every one that hits him two bishops; while if he is killed they will kill the Pope.

Governor Osborne of Kansas wants Federal arms to protect the citizens of that State against Indians. He says 16 men have been murdered since June 16th, and not one of the murderers has been punished by the United States authorities.

It is rumored in Europe that one of the motives of the German intervention in Spain is that Germany wishes to reopen to Herr Krupp, the gunmaker, a famous iron mine in Spain, access to which is closed because the district in which it is situated is held by the Carlists.

The Delavan, (Minn.) *Bee*, says the New York *Herald* is for sale at $8,000,000 to Belmont and other capitalists who have just taken the American loan, and to nobody else. There will be a new organ started, but not a third term organ. The *Herald* is to be the Grant organ for a third term.

The estimated annual butter product of the United States at the present time is 700,000,000 pounds. In 1850 the production of butter was over 313,000,000 pounds, increasing to 500,000,000 in 1860. In 1880 it is estimated the country will require 600,000,000 pounds for our own consumption alone.

The dispatches bring the significant information that Attorney-General Williams has "designated to the Secretary of War the localities in which troops are most needed to suppress outrages, and Gen. McDowell has been ordered to distribute his forces as to protect the localities designated." The President's man Friday has an eye to business. He is looking out for the interest of his master and the republican party at the South, and what the cause lacks in popularity he intends to make up in bristling bayonets.

The Height of Absurdity.

Some journals are making themselves ridiculous by asserting that Grant will be the Democratic standard-bearer in 1876. Could anything be more absurd? The Democracy have learned a bitter lesson by the Greeley disaster and do not propose going outside of their ranks for material again. There are a large number of eminent and pure men in our ranks, and we propose to run the next Presidential campaign with Democratic candidates, platforms, etc. Grant, with his most damnable record, would be the last man the Democracy would choose to bear their banners, not excepting the Devil.

Radical Vengeance.

Another victim to Custom House vengeance has fallen in the person of Dr. Johnson of McMinnville, Yamhill Co. He is accused by the *Bulletin* of voting for Gov. Grover, (if so, he never did a more sensible thing in his life,) and Senator Mitchipple has had him removed as Postmaster. Sich are Radical tactics.

Judgment Reversed.

The judgment of the Circuit Court in the case of Thos. Gerrand, convicted of murder in the first degree, has been reversed by the Supreme Court, Judge McArthur rendering the opinion. Gerrand will have a new trial.

This space is reserved for BEN SACHS, who will next week receive a complete and elegant stock of dry-goods, groceries, etc.
