MAY WHEAT IS 5 1-2 LOWER

(Wednesday's Market.)

CHICAGO.—Wheat closed 1 1-2@5 1-2c lower. Higher prices ruled in the grain pit at the opening today except for May. Early in the trading the advance was lost and values dropped.

July wheat started strong, opening with an advance of 1-2, while September was up 3-8. May wheat was 1-4 lower at the outset with the demand nil.

Great interest is being shown in crop reports. Traders are apprehensive of crop damage as the situation in that respect is fast reaching the critical stage.

After going 1-8 to 1-4 higher, corn prices sagged in the later trading. Oats were unchanged at the outset. Provisions were higher.

PUT STOMACH IN FINE CONDITION

SAYS INDIGESTION RESULTS FROM AN EXCESS OF HYDROCHLORIC ACID.

Undigested food delayed in the stomach decays or rather ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acrid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.
