DEMOCRATIC TIMES.

Official Paper for Jackson, Josephine & Lake.

FRIDAY,.....DECEMBER 17, 1880.

No member of the Poland Committee need expect any favors from Garfield.

THE Jackson (Ohio) *Herald* is one of the best exchanges that come to our table. Bro. Gould is a wheel-horse of the Democratic party of Ohio and renders able service.

THE TIMES closes the tenth year of its existence with the next issue. It has grown stronger as time progressed, and now ranks second to no interior paper on the Pacific Coast.

THERE will be an honest count of the electoral vote this time. The Democrats are in the majority in both houses of Congress, which is why the scenes of 1876-7 will not be re-enacted.

JOHN KELLY has been given "French leave" by Mayor Cooper of New York city and Allen Campbell succeeds him as Comptroller. Democratic tears over the event are at a premium.

IN 1863, under Republican rule, our total exports of breadstuffs, provisions and animals were $178,973,000; in 1880, under Democratic policy, they were $430,962,000. Quite a difference.

IF the thousands of Christian men who went zealously into the late political campaign would give the same time, attention and sympathy, zeal and labor in the cause of religion, what a revival there would be.

DAVID DAVIS, of Illinois, says he is a Democrat, and will vote with that party in the Senate on all questions when he thinks it right. This destroys all Republican hope of controlling the next U. S. Senate. *Hinc illae lacrimae.*

GARFIELD'S plurality in Oregon is 664, but his majority is only about 430. It is evident Oregon isn't so reliable a Republican State but what a popular candidate for a State office on the Democratic ticket can be elected frequently.

FIFTEEN of the 45 collieries of the Philadelphia and Reading company have suspended for December, and 3,000 men are out of work. Is this the first wave of the grand business boom our Republican friends promised us before the Presidential election?

THE *Sentinel's* vulgar attack this week on Judge Hanna is on a par with its insulting reflections last week on the jurors and witnesses in the first trial of Dr. Covert. The source being considered, it will hardly receive even passing attention, as it is entirely too contemptible.

SCHRŒDER, son-in-law of Rev. Horatio Stebbins, who was tried at Oakland, Cal., last week for the killing of Dr. Lefevre, was acquitted. The jury was out 69 hours This is another instance where the killing of a man for debauching another's wife is considered justifiable homicide.

DELESSEPS' Panama canal will no doubt be constructed, as subscriptions to the enterprise are large and increasing. American capitalists are investing liberally. The success of the canal would be a great scientific triumph, as well as being the inauguration of a new era of transportation.

THE eternal fitness of things will be consummated when Colfax, the smiler, is invited to take a seat in Gen. Garfield's Cabinet. There would also be much consistency mingled with the transaction. Schuyler will now consider his exile from public service at an end, since his colleague has been so highly honored.

ARRANGEMENTS are in progress at Washington to discharge every department clerk who declared for Hancock or intimated an admiration for the late Democratic candidate. Republican organs say that John Sherman repeatedly committed the awful heresy of awarding clerkships in his Department to doubtful Republicans.

THE situation in Ireland continues threatening. Evictions of Irish tenants in portions of Ireland regularly go on, notwithstanding the intense cold and very inclement weather, and the Government protects the evicting officers with troops. The inhuman conduct of some of the landlords causes great suffering and often deaths, and the people are growing more desperate.

MR. HAYES, in his message to Congress, has a kind word to say in behalf of the harbor of refuge, which fell to Port Orford. He calls the attention of Congress to the fact that a larger appropriation is necessary to commence the enterprise, as natural facilities are few. It is to be hoped that Congress will attend to this matter promptly, so that 1881 may witness at least a commencement of this important work.

THE *New Northwest* plumes itself on the passage of the woman suffrage resolution by the late lamented Legislature. We wish that journal all the joy possible. It will prove ephemeral at most. While our legislators were tickling Madame Duniway with this little straw they well knew that the people would consign the proposed amendment to the Constitution to a haven of rest when the proper time came.

THE name of our fellow townsman, C. C. Beckman, is again prominently mentioned in connection with the Republican nomination for Governor in 1882. 'Tis rather early for political incubation, but the wires are already being laid by the Portland ring. As the Republicans have a better show for success than when Beck. ran before, we fear he is not on the slate. No man from Southern Oregon need apply, only when there is a good chance to be beaten.

Injured Innocence.

The *Sentinel*, smarting under the general rebuke of the public for its wanton interference with an important criminal case while on trial, seeks to palliate its crime by further abusing the officers of the Court, the Judge himself not escaping the mud showered. This organ of contempt finds fault with His Honor for forbidding the jury from reading its contemptible article of last week, and indulges in an extravagant burlesque on American freedom and journalistic privileges, neither of which, he confesses, he appreciates or comprehends. As the aforesaid article was written with prejudicial intent alone, it is not to be wondered that its author is nettled because of its condemnation by the Court and its failure to reach the jury. The only thing for which the Judge is to be blamed is his extreme graciousness. Any other magistrate would have cited the *Sentinel* man to appear and punished him for contempt. This "organ-grinder" may persist in the course he has chosen. His utter insignificance is his safety.

About Forgery.

The Republican press has still much to say about the Morey letter, the writing of which it is endeavoring to lay at the door of the Democratic managers. The forgery was perpetrated by the *Truth* newspaper, and the only connection the Democratic National Committee had with it was that, believing in its authenticity, they circulated it as an electioneering card. They conveniently lose sight of the fact that all the Republican newspapers in the land published a dispatch from Cardinal McCloskey in the beginning of the campaign, to Gen. Hancock, congratulating him on his nomination. The dispatch was a wicked forgery, intended to excite the religious prejudices of Protestants against Hancock, by making it appear that he was a Catholic. Cardinal McCloskey denied writing any such dispatch and it afterwards appeared that Hancock was an Episcopalian. Thus the Republican campaign was inaugurated by lies and forgery.

Eternal and Right.

The grand old Democratic party controlled the affairs of this country for upwards of sixty years, and has had an existence for over a hundred. To-day there are a quarter of a million more Democratic voters in the United States than belong to any other party. The funeral of the party has been preached for the past twenty years, and the supposed corpse laid low under the clods of the valley—but it will not stay dead. The eternal principles of Jefferson and Jackson will live so long as there is a democratic form of government. When that perishes and a "strong government" is established, the country will have no need of a Democratic party—its mission will be at an end. Until then, the principles of Democracy will be found in the fore ranks contesting for supremacy.

Railroad Matters.

The Roseburg *Independent* has it from reliable and in every way trustworthy sources that the Oregon and California Railroad Company's managers are now engaged in figuring upon the cost of building fifteen miles of new road, commencing next Spring. Whether the road will go directly south and toward Jacksonville we are not altogether advised; but our information and opinion leads us to believe that fifteen miles of new road will be constructed in Douglas county next year. We also learn, from the same source, that the company is ready and willing to construct a line of railroad to any permanent coal vein, the value of the product of which will command a general demand and will supply that demand.

Forney on the Situation.

Colonel J. W. Forney, who has been Grant's staunchest friend, and one of his most ardent admirers till the interviews in which he endeavored to defame General Hancock, thus speaks now of the ex-President in his Philadelphia *Progress:*

"But let the past go. Let the dead past bury the dead. We now face the Empire, and there is but one great force to meet it, the Democratic party. Garfield only fills the gap for Grant. I write this name with a new feeling, that of profound regret that one I loved so well should sink so low. First the defender of the forgiven South, then its defamer; first eager to honor Hancock for his virtues, then to hound him as an enemy. And this is the man who wants to play the part of king hereafter."

Complimentary.

The *East Oregonian*, published in Umatilla county, which challenged Jackson county for the first position in the Democratic column of Oregon, says: Jackson county wears the laurels again for the good work done for Hancock and English at the late election, giving a Democratic majority of 322. Umatilla carries the standard on this side of the mountains, however, with 285 to her credit. We greet our sister county in all friendship and generous rivalry, challenging her to a contest at the next election. Our majority was increased 137 over the June election. By-the-way, who beats Pendleton precinct with its 147 majority?

Old Issues Revived.

Abraham & Willis of Roseburg have brought the Canyon road case into Court again, although it has been decided against them in different phases. This time they wish a decision that Fink & Gazley have no right to collect toll on the same. They evidently intend to carry it to the Supreme Court, hoping that while this body seems unwilling to review the decision of its predecessor in the former case, they will act favorably on this in appreciation of services rendered during the canvass last Spring.

Tammany on the Warpath.

The following report was issued from Tammany Hall on the 26th ult.:

A sub-committee of the Committee on Organization of the Tammany Hall Democratic Central Committee appointed to investigate fraud, corruption and intimidation practiced at the late election, is in possession of evidence which clearly demonstrates that the Republican vote was enormously increased by reason of systematic colonization, unblushing bribery and most cowardly intimidation of working men by their employers. At the proper time and places these proofs will be made public.

The sub-committee believing that a great deal of valuable information can be secured through the co-operation of the public to this end, invite all persons in possession of any evidence of illegal registration or voting, bribery or intimidation, to communicate the particulars to the Chairman of the sub-committee at Tammany Hall without delay, and in this way expose those who have violated the purity of the elective franchise in order that deserved punishment may be enforced. EDWARD GILLON, Chairman,

T. F. Grady and M. H. Segorson, Secy's.

Tit for Tat.

The Protectionists in this country profess to be delighted when any report comes from England that there is talk there of abandoning a tariff for revenue. During the eight months ending August 31st, our exports of breadstuffs and provisions to England amounted to $282,507,707. Suppose England had levied retaliatory and prohibitory duties on breadstuffs to "protect home industry," where would our Protectionists stand? A little taste of something of that kind would open the eyes of the people and sicken them of Protection.

The Message.

R. B. Hayes' last message has been submitted to the country and is gotten up on the same plan as his former efforts in this line. There is nothing startling or brilliant about it. Mr. Hayes does not rise far above mediocrity, but he has proven himself a good, harmless sort of a man. His administration could have been much worse. We shall refer to the message at greater length hereafter.

Facts and Figures.

From 1871 to 1875—five years inclusive—the reduction of the public debt was $156,953,000; from 1876 to 1879—four years—the reduction was $170,615,000—a difference of $13,762,000. And this greater reduction of debt was affected at a time when the Democratic Congress had reduced the taxes $219,615,000.

NOW WELL AND STRONG.

SHIPMAN, Illinois.

DR. R. V. PIERCE, Buffalo, N. Y.:

I obtained a half dozen bottles of your Discovery for her and she commenced improving at once, and is now well and strong. She took the Discovery last Fall. Very truly yours,

REV. I. N. AUGUSTIN.
