DAYLIGHT SAVING IS WANTED IN SPOKANE

SPOKANE, Wash., Feb. 26.—An effort will be made to inaugurate the daylight saving plan in Spokane this year by means of local arrangements. A committee is to be appointed by the chamber of commerce which will deal with the question, having as its chairman, T. P. Brewer. As soon as this committee is named the daylight saving problem will be taken up. Other cities are already planning to observe the light economy plan which was authorized by congress during the war, but which was repealed as a law by the present law.

"As soon as the railroads are returned to private ownership I hope to confer with them relative to having their change of time from mountain to Pacific made at Spokane instead of farther east," said Mr. Brewer.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.
