Departed This Life.

Mrs. Martha M. Hanley, wife of M. Hanley of this precinct, died at the family residence last Friday afternoon after a protracted illness. She was one of the pioneer residents of southern Oregon and universally esteemed for her many good qualities. Her funeral took place on Sunday and was attended by a very large concourse of friends, the services being conducted by Rev. M. A. Williams, who preached an impressive sermon. Mrs. M. leaves a husband and several grown up sons and daughters, who mourn the loss of faithful wife and loving mother.

The death of Mrs. Jas. G. Birdsey, who had also been ill for sometime, occurred soon after that of Mrs. Hanley. She was a native of this county and highly respected by all those who knew her. A husband and three small children are thus cruelly bereft, who have the sympathy of all in their bereavement. A large number of friends and acquaintances followed the mortal remains to their last resting-place on Monday. Requiescat in pace.

The community was also shocked to learn of the demise of Miss Mammie Brentano, daughter of M. A. Brentano of Eden precinct, which took place on Sunday in New York, whither she had gone for medical treatment. An obituary notice will appear in our next issue.

Important Notice.

Dr. Forden and wife will be in Ashland from Saturday the 23d until Friday the 30th of October. All who are afflicted should consult the doctor, as he carries with him credentials that entitle him to respectful consideration. Chronic diseases of all kinds are the specialties upon which they can be consulted. Consultations free. All ruptured persons should consult Dr. Forden, as he carries the best trusses made; fits guaranteed. Cures are guaranteed in many cases.

When Connection Will be Made.

It now appears that the date when the Southern Pacific railroad officials hope all the tunnels through the Siskiyou mountains will be completed is about November 25th. At as early a date as possible after the completion of rail connection, probably December 1, the Southern Pacific will commence to operate the line its entire length. A time-table will then be inaugurated by which the trip between San Francisco and Portland will be made in less than 36 hours.

It Pays to Advertise.

It has a SWORN TO circulation of 2100, which is more than double that enjoyed by any journal published in southern Oregon. Notwithstanding these facts our rates are quite reasonable. Business men should remember that.

There is a striking peculiarity in the treatment that "only an advertising agent" invariably receives at Frank Siddall's office. He is welcomed with open hands; is treated courteously and even if he should not receive a good fat advertising contract, he always goes away with good impression of Philadelphia and Philadelphia advertisers, and generally makes up his mind that the next cake of soap he buys will be Frank Siddall's.—[Texas Siftings.

J. H. Thompson, of the Third National Bank, New York, writes: "I jumped from a railroad car and sprained my knee very badly. After trying the best remedies without relief, and expecting to be confined in the house for weeks, a friend suggested Pond's Extract. It will sound incredible to people who have had bad sprains, but I walked, without pain, to business next day, a distance of over a mile. The effect was truly magical." Millions of Acres Open to Settlement.

The land department at Washington has given notice that millions of acres of railroad indemnity land will be open to settlement by homesteaders and pre-emptors within a few months. These lands are among the best land ever offered west of Mississippi river and in the Gulf States. Such an opportunity for the young people of this nation to acquire real-estate for the mere taking will never occur again, as the public lands will by another year be practically exhausted. Thereafter the struggle for homes and land will resemble Europe. All who are about to start for the West or locate on southern railroad lands will find Copp's Settler's Guide of special service—published by Henry N. Copp, Washington, D. C.; and for sale at the TIMES office. It tells all about the homestead, pre-emption timber-culture and other land laws; how to decipher surveyed township, section, and quarter-section corners; how long residence must be continued; what settlement and improvements must be shown; how and on what grounds contests against abandoned and illegal entries can be commenced; location of government land offices and names of land officers; and it will doubtless save many settlers from the loss of their land and improvements, as designing people often mislead uninformed settlers as to the requirements of the settlement laws.

TO ADVERTISERS.

The TIMES has a circulation of 2,200 the largest enjoyed by any newspaper published between Portland and Red Bluff, Cal.—a distance of 600 miles. It therefore offers the best inducements to advertisers. Our list is principally confined to Jackson, Josephine and Klamath counties. Business men should take note of this.

Nipped in the Bud.

Is it not better to nip consumption, the greatest scourge of humanity, in the bud, than to try to stay its progress on the brink of the grave. A few doses of California's most useful production, Santa Abie, the king of Consumption, will relieve and a thorough treatment will cure. Nasal Catarrh, too often the forerunner of consumption, can be cured by California Cat-R-Cure. These remedies are sold and fully warranted by City Drug Store at $1, or three for $2 50.
