OLD SAYINGS IN RHYME.

The following lines entitled "Old Sayings in Rhyme" will be found both instructive and amusing:

As poor as a church mouse,
As thin as a rail;
As fat as a porpoise,
As rough as a gale;
As brave as a lion,
As spry as a cat;
As bright as a sixpence,
As weak as a rat.

As proud as a peacock,
As sly as a fox;
As mad as a March hare,
As strong as an ox;
As fair as a lily,
As empty as air;
As rich as Crœsus,
As cross as a bear.

As pure as an angel,
As neat as a pin;
As smart as a steel-trap,
As ugly as sin;
As dead as a door-nail,
As white as a sheet;
As flat as a pancake,
As red as a beet.

ALL SORTS.

On April 19th New York city had a fire 300 feet wide and a quarter of a mile long, which destroyed property to the value of $5,500,000. The largest fire for many years.

George Francis Train has a new idea. He proposes to abolish poverty and death by showing a man can live on ten cents' worth of potatoes and one cup of coffee daily, provided he takes a Turkish bath.

All the guns in American arsenals sink into insignificance in comparison with a monster cannon now being made at the Woolwich arsenal in England. It will weigh 200 tons, and is expected to throw a ball weighing two tons, fifteen miles. A six-inch rifle is a mere pocket pistol to this weapon.

When you throw a stone among a lot of dogs, the one that howls the most generally gets hit. So it is when an item appears and no names are mentioned, the ones that kick are generally the ones that get hit the hardest. If a man is guilty the best thing he can do is to keep his mouth shut.

During the last voyage of the American ship *Southern Cross*, from New York to Sidney, Australia, the Chinese cook became insane. He barricaded himself in the galley and opened on the crew with a fusilade of bullets. The fire was returned, and after a sharp battle the captain succeeded in shooting the crazy celestial.

The *Coast Mail* says that there still 320,000 acres of government land open to settlement in Coos county. The immigration boom has not yet set that way to a very large extent, but it is evident that it should do so. When the resources of Coos county are properly developed there will be some fortunes made and many prosperous homes located there.

A Philadelphia clergyman preached recently on the question, "What is a woman? Just what answer he made himself has not transpired. A woman with $20,000,000 is a "pretty good catch," even for a clergyman; and a woman with a red head and "fire in her eye" is a thing to be avoided. A Massachusetts jurist said not long ago that a woman was "a thing."

Claus Spreckles has offered to establish a sugar-beet factory any place on the Pacific coast where 5000 acres will be devoted to the cultivation of the sugar beet. The proposition is receiving some attention from eastern Oregon farmers. A considerable amount of sugar beets has been raised in various portions of Linn county, from seed furnished by Mr. Spreckles. They are said to grow to perfection in that locality.

In addition to supplying crops with necessary moisture, rain has a distinct manurial value. At Rothamstead it has been shown that, with an annual rainfall of a little less than thirty-two inches, each acre of land receives every year in the rain water over fourteen pounds of pure chlorine; seventeen pounds of sulphuric acid, and between two and three pounds of ammonia.

Ohio has a negro population of 100,000, and gave Harrison a majority of 19,599; New York, nearly 100,000, and her majority for Harrison was 13,000; Illinois, 68,624, and majority for Governor Fifer 12,574; Indiana, 48,000, though Harrison's majority was but 3,348. The negroes plainly held the balance of power. To them Mr. Harrison owes his election. Will he give them a few fat offices?

According to the railroad records of America, the fastest single mile is said to have been made in 1879, in 50¼ seconds; the fastest 10 miles in 1874 in 8 minutes. According to English records, the Duke of Wellington's train ran from Paddington to Slough, 18 miles, in 15 minutes. That is about the best English record. The average is 50 seconds to the mile, and both starting and stopping are included.

The Poland China is the best one for the practical farmer.

Claus Spreckle's beet-sugar factory at Watsonville, Cal., was in operation sixty-one days last year, consuming 14,077 tons of beets, and producing 1640 tons of sugar. It paid an average price of $5 04 per ton for beets; the cost of manufacturing the 1640 tons of sugar was $148,247, and the sale of the product brought $172,817, making a net profit of $24,570, or 5 per cent. on the capital invested. The factory, during its operation, gave employment to 135 men. Its capacity has since been doubled. The farmers who sold the beets are reported to have cleared from $40 to $45 an acre for their crop.

The great world's exposition at Paris opened last week. It is a stupendous affair, and the opening ceremonies have stirred to their depths the Parisian resources of enthusiam and display. President Carnot made the opening speech, and then pressed the electric buttons which set the brilliant fountains flowing and sparkling and put in motion the vast aggregation of machinery.

W. S. Hobart, the owner of "Stamboul," has been guaranteed a book full of mares at a service fee of $750 each, if he will send the horse East next season. The promised fee is the largest ever paid for the services of a horse in the United States. Rysdyk's "Hambletonian" stood at $500, and "Nutwood" and "Bell Boy" are doing duty at the same figure. The value of "Stamboul" as a stock horse lies in the fact that he comes from speed-producing lines on both sides, and that he belongs to a new family of trotters which is sparely represented in the East.

BURLINGHAM, N. Y., May 31, 1887.
G. G. GREEN, Dear Sir:—I am frequently troubled with severe colds, and the only remedy that will relieve me of them is your Boschee's German Syrup. I have used it for more than twelve years. It is a constant household companion with me. Our merchant here procured it first at my solicitation, and says he has sold a great many bottles. It is a very popular remedy in this section. Every person who has used it speaks in the highest terms of its merits. I do not know of a single case it has not cured. I first used it in Vermont, where I lived before coming here. I advise everyone to use it, as it is certainly the best cough medicine I have ever known. I have tried nearly all of them at different times.
Yours respectfully,
MOSES GRAY,
Proprietor Grist Mill.
