MEDICAL.

ITCHING AGONIES.
Every Night I Scratched until the Skin was Raw.

Body covered with Scales like spots of mortar. An awful Spectacle. Doctors useless. Cure hopeless. Entirely cured by the Cuticura Remedies in five weeks.

I am going to tell you of the extraordinary change your Cuticura Remedies performed on me. About the 1st of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until sometime later on, when it began to look like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night until I was raw, then the next the scales, being formed meanwhile, were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your Cuticura Remedies, and purchased them from my druggist and obtained almost immediate relief. I began to notice that the scaly eruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the Cuticura Remedies, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommended the Cuticura Remedies to all in my vicinity, and I know of a great many who have taken them, and thank me for the knowledge of them, especially mothers who have babes with scaly eruptions on their heads and bodies. I cannot express in words the thanks to you for what the Cuticura Remedies have been to me. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as nice and clear as a baby's. GEO. COTEY.
Sept. 27, 1887. Merrill, Wis.

Feb. 7, 1888.—No trace of the disease from which I suffered has shown itself since my cure. G. C.

Cuticura Remedies
Cure every species of agonizing, humiliating, itching, burning, scaly and pimply diseases of the skin, scalp and blood, with loss of hair, and all humors, blotches, eruptions, sores, scales and crusts, whether simple, scrofulous or contagious, when physicians and all other remedies fail.
Sold everywhere. Price, Cuticura, 50c; Resolvent, $1; Soap, 25c. Prepared by the Potter Drug and Chemical Corporation, Boston.
☞ Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped and oily skin prevented by Cuticura Soap.

Sanford's Radical Cure For Catarrh.
Relief Instantaneous. Cure Rapid, Radical and Permanent.
No single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and injures the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling, and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell and taste, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.
Sanford's Radical Cure for Catarrh
Consists of one bottle of the Radical Cure, one box of Catarrhal Solvent, and one Improved Inhaler, neatly wrapped in one package, with full directions; price, $1.00. Sold everywhere.
POTTER DRUG & CHEMICAL CORPORATION, BOSTON, MASS.

ACHING SIDES AND BACK,
Hip, kidney and uterine pains and weaknesses relieved in one minute by the Cuticura Anti-Pain Plaster, the first and only instantaneous pain-killing, strengthening plaster.

Ask For Ayer's
Sarsaparilla, and be sure you get it, when you want the best blood-purifier.

With its forty years of unexampled success in the cure of Blood Diseases, you can make no mistake in preferring Ayer's
Sarsaparilla
to any other. The fore-runner of modern blood medicines, Ayer's Sarsaparilla is still the most popular, being in greater demand than all others combined.

"Ayer's Sarsaparilla is selling faster than ever before. I never hesitate to recommend it."—George W. Whitman, Druggist, Albany, Ind.

"I am safe in saying that my sales of Ayer's Sarsaparilla far excel those of any other, and it gives thorough satisfaction."—L. H. Bush, Des Moines, Iowa.

"Ayer's Sarsaparilla and Ayer's Pills are the best selling medicines in my store. I can recommend them conscientiously."—C. Bickhaus, Pharmacist, Roseland, Ill.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

"I have sold your medicines for the last seventeen years, and always keep them in stock, as they are staples. 'There is nothing so good for the youthful blood' as Ayer's Sarsaparilla."—R. L. Parker, Fox Lake, Wis.

"Ayer's Sarsaparilla gives the best satisfaction of any medicine I have in stock. I recommend it, or, as the Doctors say, 'I prescribe it over the counter.' It never fails to meet the cases for which I recommend it, even where the doctors' prescriptions have been of no avail."—C. F. Calhoun, Monmouth, Kansas.

Ayer's Sarsaparilla,
PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Price $1; six bottles, $5. Worth $5 a bottle.

Religious News.

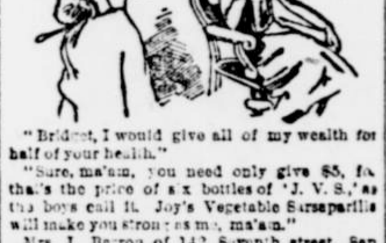
Liberal Sunday-school and Bible class meets every Sunday at 11 o'clock A. M. at the U. M. L. Hall, Talent.

Rev. E. Wood will hold a basket meeting at the Devinger schoolhouse in Table Rock precinct on the third Sunday in August, and there will also be preaching at Antioch schoolhouse in the evening of the same day. This will end the conference year. He will not preach but once this month, on account of ill health.

The following are Rev. F. B. Tickner's appointments: Services will be held in St. Mark's Episcopal church, Medford, until further notice, as follows: Third Sunday in the month, morning prayer and holy communion at 11 A. M.; evening prayer at 8 P. M. Second and fourth Sundays, evening prayer at 8 P. M. Every Wednesday evening at 8, evening prayer and choir practice. Services at Ashland on the second and fourth Sundays in the Baptist church at 3 P. M. Services at Grant's Pass on the first Sunday in the M. E. Church, South, at 11 A. M. and 8 P. M.

A Sad Accident.

Chas. Hargrave and John R. Stearns were digging a well at the former's place near Talent last week. Mr. Hargrave was in the well Saturday morning and had got his tools ready to come out. He got into the bucket and told John to pull away, which Mr. Stearns did, but when he had the bucket up about ten feet he noticed it was rather light, and on looking down saw the bucket was empty. The foul air had overcome Mr. Hargrave and being unable to hold himself in the bucket he fell, striking his head on a rock in the well. He died from his injuries the next day and was buried Monday in the Purvis cemetery. Deceased has been a resident of this valley a year or more, and came here from Kansas. He leaves a wife and a small family and was a member of the G. A. R. Dr. J. B. Newman of Ashland attended him, but his injuries were too serious to any prospect of recovery.—[Ashland Record.

ADVICE FROM BELOW STAIRS.


"Bridget, I would give all of my wealth for half of your health."
"Sure, ma'am, you need only give $5, fo that's the price of six bottles of 'J. V. S.,' as the boys call it. Joy's Vegetable Sarsaparilla will make you strong as me, ma'am."
Mrs. J. Barron of 142 Seventh street, San Francisco, writes: "I have been taking the California Remedy (Joy's Vegetable Sarsaparilla) with immense benefit. It is perfectly splendid to build up nervous, run-down and worn out women." Mrs. Fred Loy of 327 Ellis street, Mrs. G. Werner of 235 Berry street, San Francisco and hundreds of others relate the same experience with the pure vegetable juices of this California compound.

Oregon Fruit Crop.

The "Oregonian" of one day last week gives the following crop estimate of a Portland dealer, who had just returned to the city after having taken a good view of the fruit crop throughout the state, beginning at Jackson county. He says the crop promises fair, considering the exceeding dry weather. A large portion of the peaches, particularly the early varieties, are small and not of as good quality as might be expected. The prune crop will be about one half that of last year. A few orchards are well loaded, but they are exceptions. The same will apply to plums. A fair crop of apples may be looked for. Jackson county will come with the usual growth of melons about five days earlier than last year.

Ladies' Beware

Of those cosmetics which give to the face a ghastly (yes, ghostly) whiteness. Such preparations contain lead or some other equally injurious and dangerous substances, the use of which, if long continued will, besides giving the skin a tough and leathery appearance, ultimately produce paralysis of the nerves. This statement is no "bug-a-boo," but facts, well-known to chemists and physicians, based on the well-known physiological effects of such substances whose presence in preparations for the complexion are indicated by such outward signs as before stated. If you would use an article which will at once produce natural activity and beautiful complexion try Wisdom's Robertine, which is guaranteed under a forfeiture of $1000 to be absolutely free from all poisonous and injurious substances. Pronounced by leading ladies of society and the stage superior to anything ever produced for beautifying and preserving the complexion.

A Brave Engineer.

The death of engineer Jack Miller, Big Jack, as he was familiarly called, resulting from injuries received from the train wreck at this city Sunday night, is a case where a brave engineer gave his life to save his train load of passengers. After he saw the open switch he could have leaped from the train and saved himself by allowing the train to dash full speed into the open switch, but he set the air brakes, reversed the engine and checked the speed sufficiently to prevent injury to a single passenger but met death himself, after one day of torture from his frightful scalding beneath the wrecked engine. He was one of the most popular men on the line and his memory will be cherished by his fellow workmen on the road and by his train load of passengers whose lives he saved.—Albany Herald.

Why Women Fade.

Women lose their beauty because colds undermine their life. Dr. Acker's English Remedy for Consumption is an absolute cure for colds. Sold by E. C. Brooks.

Children Cry for Pitcher's Castoria

TILDEN WAS ELECTED.

George W. Childs, of the Philadelphia *Ledger*, in an article in the current number of *Lippincott*, gives some interesting reminiscences of Gen. Grant. It seems Gen. Grant suggested and favored the Electoral Commission in 1876. "The people, said Grant, will not be satisfied unless something is done that looks like justice."

The Electoral Commission was at first received with disfavor by both sides, but the Republicans were soon won over, and convinced of its advantages. Mr. Conkling was selected as Grant's representative in the senate, and in the house the agent of the Grant plan was Samuel J. Randall, of whom Mr. Childs says, that he is "a man of great influence and integrity of character."

It was on the suggestion of Mr. Childs, that Mr. Randall was called in to cooperate with Grant. When Grant's plan was stated to Mr. Randall, "the answer at once was," says Mr. Childs with admirable candor, "that the Democrats would favor it, and it was through that gentleman (Mr. Randall) and Gen. Grant that the plan was carried through."

It is well known that Mr. Tilden was bitter against certain Democrats whom he wrongly suspected of responsibility, for what Mr. Childs now shows to have been brought about by Grant and Randall, in combination.

Mr. Childs, who is a warm admirer of Gen. Grant, claims that Grant expected that Tilden's election would be declared by the commission; that he announced before the commission was appointed that Tilden was elected, and that he held to his belief after the decision of the commission was declared, and, before starting on his trip around the world, he reviewed the result and spoke of Louisiana as for Tilden.

Slowly but surely, the facts in this great conspiracy for stealing the Presidency in 1876 are coming to light. Tilden is dead, and his individual rights in the matter died with him, but the responsibility for defrauding a majority of 5,000,000 people out of the benefit of their vote should be fixed, and like the conspiracy to destroy the Union in 1860, there should be some assurance that it will not be repeated.

How to Make a Cool Cellar.—A great mistake is sometimes made in ventilating cellar and milk houses. The object of ventilation is to keep the cellars cool and dry, but this object often fails of being accomplished by a common mistake, and instead the cellar is made both warm and damp. A cool place should never be ventilated unless the air admitted is cooler than the air within, or at least as cool as that or a very little warmer. The warmer the air the more moisture it holds in suspension. Necessarily, the cooler the air the more the moisture is condensed and precipitated. When a cool cellar is aired on a warm day, the entering air being in motion appears cool, but as it fills the cellar the cooler air with which it becomes mixed chills it, the moisture is condensed, and dew is deposited on the cold walls and may often be seen running down them in streams. Then the cellar is damp and soon becomes moudly. To avoid this the windows should only be opened at night, and late—the last thing before retiring. There is no need to fear that the night air is unhealthful, it is as pure as the air of midday, and really drier. The cool air enters the apartment during the night and circulates through it. The windows should be closed before sunrise in the morning and kept closed and shaded during the day. If the air in the cellar is damp, it may be thoroughly dried by placing in it a peck of fresh lime in an open box. A peck of lime will absorb about seven pounds, or more than three quarts of water, and in this way a cellar or milk-room may soon be dried even in the hottest weather. If a cellar has a damp smell and cannot be thoroughly ventilated, a few trays of charcoal set around on the floor, shelves and ledges will make the air pure and sweet. If a large basket of charcoal be placed in a dairy cellar where milk is kept, there will be no danger of its becoming tainted.—*Rural World.*

British Free Trade.—The deplorable tendency of the Republican party toward British Free Trade is shown in the dispatch below. Nothing quite so sad-tening is known unless it be the record of a Republican of national reputation, Mr. Blaine, who brought 42 trunks into his own dear, native land:

San Francisco, July 24.—A dispatch from Pittsburg says: At the suggestion of the surveyor of port of Philadelphia, the Pittsburg appraisers have decided to admit English wool at 10 cents per pound, instead of 30 to 60 cents according to classification, as heretofore. This will make English wool cheaper than American and raises fears that the local wool industry will be ruined.

Penalties to be Enforced.—The law passed by the last legislature, to regulate the practice of medicine and surgery will go into effect on August 23 that is, on and after that date the penalties provided by this law can be enforced. The state board of medical examiners have had a conference with District Attorney McGinn, says the *Oregonian*, in regard to prosecuting persons practicing medicine without a proper certificate. He informed them that they were state officers, and when they recommended any case for prosecution he would take the matter up. It is probable that steps will be taken immediately after the 23d proximo to begin suits against all persons practicing medicine illegally.

How to pack prunes for market is a question that affects many who are now producing them. The best way is to produce them in good shape and put them away in bins or boxes and wait for a customer. Some will pack prunes one way and some another. A heavy prune grower who was in Chicago last year found a wholesale dealer who did not buy of him because all his prunes were packed in twenty-five pound boxes, and they wanted them merely sacked in cheap cotton cloth, so that they could repack to suit themselves. So it will be advisable to put the cured fruit in bins or large boxes or barrels, and wait for further information.

ADVERTISING AND JOB WORK.

Advertisements will be inserted in the Times at the following rates:
Ten lines, one insertion...................$2 50
" " each subsequent insertion...... 1 00
☞ Local advertisements inserted reasonable.
A fair reduction from the above rates made to yearly and time advertisers.

THE TIMES JOB OFFICE
is more complete by far than any other in Southern Oregon, and compares favorably with any in the State. Job Printing of every imaginable description done at San Francisco rates, and in a prompt and first-class manner.

THE RECENT WRECK.

A remarkable confession was made at Albany, Or., one day last week, which reveals beyond question the identity of three men who wrecked the overland train at Lebanon Junction switch on Sunday night, and has led to the arrest of all the three on a charge of murder.

On Monday morning after the accident, William A. Hill, who has been working in the harvest field for Thomas Froman, four miles from this city, at Froman's station on the Lebanon branch, called at the office of Dr. W. H. Davis to have a dislocated arm set. While under the influence of chloroform he talked about the wreck, and said he did not open the switch, but knew who did, and would die rather than give them away. His mutterings were at the time supposed to be only ravings resulting from chloroform, but on returning to the doctor to-day to have his arm dressed he appeared uneasy, and asked the doctor if he had heard anything about who broke open the switch. The doctor said: "Nothing, except what you told me while under the influence of chloroform." This frightened him, and he made a clean confession. He said himself and two brothers, Fred and Herbert Rolf, left Albany partially intoxicated for Froman's. On passing the Lebanon switch the younger Rolf brother stopped and tried to break the lock on the switch. Failing to do this he unscrewed the bolt and removed the switch-bar. Hill said he and the elder Rolf endeavored to dissuade him, and went off and left him at work. He afterwards overtook them, and showed the bolt taken out. The three men, Hill said, then went on to Fromans' leaving the switch open.

A constable went into the country that afternoon and arrested the Rolf brothers where they were at work, at a place indicated by Hill. These two were taken to the city that evening, on a charge of murder. They tell conflicting stories, the elder denying the story, and the younger saying that they stopped at the switch and were cracking hazelnuts with rocks. Hill says his parents live at Astoria, and the Rolf boys live at Sweet Home. Hill looks like a tramp.

Much excitement prevails over the arrests, and railroad employees and others talk openly of lynching the men.

Swindlers.—Fruit tree swindlers are again infesting the country. The scheme now in hand is to furnish a farmer with so many hundred dollars' worth of trees—say $500—free of charge. The farmer is to plant and take proper care of these trees and to deliver to the agent one half their profits for ten or twelve years. But if the farm is sold during this time, the trees are to be paid for at the price agreed upon; and as evidence of good faith, the farmer gives his bond to this effect for the amount. So far there is no fraud, but in a short time a man comes along, admires the appearance of the farm and offers to buy it. The price is finally agreed upon, and the farmer is to furnish a clear title to the land. Of course the bond has been recorded, and to secure the sale is promptly paid. And after the fruit tree agent has been dispensed with Mr. Farmer turns to his supposed purchaser, but, alas! the bird has flown, and he sees he is a sadder if not a wiser man.—*Rural Spirit and Willamette Farmer.*

It Died With Him.—Fred J. Seymour, who died at Findlay, Ohio, last week, from a paralytic stroke, was the discoverer of a process of manufacturing aluminum by which the precious metal could be extracted from common clay, and so carefully did he keep his knowledge to himself that no one living is believed to possess the secret. Seymour organized the American Aluminum company, of which Gen. Russel A. Alger is president. The company employed a large number of chemists, but when all the preliminary processes of manufacture had been completed it was Seymour's invariable custom to lock himself in his laboratory and add an unknown chemical by which the valuable metal was separated. His sudden death places the American Aluminum company in a very embarrassing position.

Within a few weeks past the press has been full of notices all over the Union, of the movements of an English syndicate that was engaged at buying up all the leading American breweries, and it has been reported that even our Portland breweries were to be also gobbled. The English brewery trust in the United States was thought to be the speculation of "bloated capitalists;" but it appears that the stock is mainly held by the comparatively poor, as preferable to the savings bank system in Great Britain, where the interest upon savings depositors are investing as a preference over savings banks. If properly managed, this stock will give at least double the returns of British savings banks, which is only about two per cent.

A Business Girl.—There is a young girl in Walla Walla who is destined to make her mark. Some one gave her ten cents one day. She bought a yard of calico, made it into a sunbonnet and sold the bonnet for forty cents. She invested the forty cents in more calico, made more bonnets, sold them and pretty soon had $10. With this $10 she bought potatoes, planted them and came out with a clear profit of $40. Most girls would have bought chewing gum and chewed and then called for more, and the majority of boys invest their money in cigarettes and wouldn't save $40 in a hundred years.

The Governor Objects.—Governor Pennoyer duly took Secretary of State McBride to task for issuing warrants for the pay of the railroad commissioners last month. The governor didn't know it until his return to Salem. He told McBride that these would be the last he would issue until the case was decided; that he (the governor) would obtain an injunction. McBride replied that he would issue them until restrained by a court of competent jurisdiction; that he considered the case settled by the recent decision of the supreme court.

Sensible Advice.
Farmers, orchardists and fruit-growers, protect yourselves from insect pests by spraying your fruit trees. A. H. Carson & Son of Rolland nursery, (Josephine County) have secured the agency of the P. C. Lewis combination force and spray pump, which in trained hands is equal to spraying an acres of orchard in one day. It is equally well adapted to extinguishing a fire, and a steady stream can be instantly changed to a fine spray, an advantage which no other hand pump possesses. A full line of recipes for spraying compounds will be furnished with the pump, and for the low price of $6 00. Buy one; it may save your residence or barn from destruction as well as enable you to successfully combat insect pests.

Piles! Piles! Itching Piles!
Symptoms—Moisture, intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Jars and Glassware.
The undersigned has a large assortment of Mason's and Perfection fruit jars, half gallon and pint measure, also jelly glasses, for sale at the lowest rates.
J. Nunan, Jacksonville.

For Sale.
The undersigned has 20 head of young stock hogs which he offers for sale at a reasonable figure. For further particulars inquire of JOHN LELLINGER, Jacksonville, Or.
