Appointment of committees on orchard fruits, small fruits, vegetables, flowers, ornamentals, entomology, botany, exhibits, nomenclature, new fruits, legislation.

New business.

Papers for this session have been requested, but as parties have not responded we cannot give subjects.

Railroads and hotels will give reduced rates. A goodly number have already signified their intention of attending. This promises to be one of our best meetings, and you are earnestly requested to be present, also to bring your friends. The State Horticultural Board will also hold its regular quarterly meeting at this place at the time.

The horticultural interests of Oregon, and how best to give them a prominence at Chicago—the world's fair—is a question that we can discuss none too soon.

Come prepared to add some new or useful matter to Oregon's horticultural interests. Join the society by paying to the secretary $1.00, and help by your presence and knowledge one of our foremost state interests.

E. R. LAKE, Secretary.

Crop Weather Bulletin No. 16.

The following crop-weather bulletin of the Oregon Weather Bureau, co-operating with U. S. Signal Service at Portland, was issued for week ending Saturday, June 28, 1890: The cool, cloudy and showery weather of the previous week continued up to to-day. It is now clear and very warm. The weather that has prevailed has been worth untold wealth to the producers of Oregon, and from every section come the most flattering and encouraging reports. The rains were especially copious in the Willamette valley and along the coast, where from one to three inches fell. In southern Oregon over one inch fell at Roseburg, but decreased southward to Jackson county where less than one-half inch fell. In eastern Oregon more than the average June rainfall has fallen, varying from one to two inches. The rains were most opportune and have given new life to all growing vegetation.

Fall and early sown wheat is now thought to be past any harm from atmospheric causes. It is filling well and of good quality, stools large and stand very good. The crop will be, from present appearance, more than an average one; from Umatilla come reports that it will be the large crop ever harvested in the county.

Late sown spring wheat is coming up and fair yields of good hay crop will be obtained from it. From every section of the Willamette valley reports are enthusiastic, showing an enthusiastic feeling among the farmers. Some clover hay was down when the rains began, and was slightly damaged. Timothy hay has been greatly improved. Oats are doing well. Corn is thriving, but in sections of eastern Oregon the weather is too cool. Hops are growing finely and give promise of a good yield. In Gilliam and Morrow counties fine harvest is in progress and yields very good.

Codlin moths have not done any damage yet. Spraying is, however, recommended as a preventative. Peaches and apples short crop in southern Oregon, other fruits very plentiful. The potato yield promises to be the largest in the history of the state. Every section reports them doing finely. Through the stock country grass on the range is good and cattle are in prime condition. The rain extended through Crook, Grant and other interior counties, insuring the hay and grain crop.

The week closes with the most flattering outlook for Oregon crops.

B. S. PAGUE,
Observer U. S. Signal Service.

Put a Stop to It.

Owners of vacant property in Jacksonville are complaining bitterly of the depredations of hoodlums, who tear off posts, break window lights, almost ruin fruit trees in the endeavor to filch the unripe fruit, and even wrench open doors and windows to gain access to the interior of houses. The unfortunate predilection of Jacksonville boys to do mischief of this character is ruinous to the character of the town and disastrous to its future prospects. The individual loss is not of so much consequence as the unfavorable impression such a state of affairs creates in the mind of an intending purchaser or renter. Certainly as things are now, a non-resident could not be expected to purchase even the most desirable property in town as an investment, with the knowledge that the premises would be the prey of vandalism whenever vacant. The result is that property-owners are loth to expend money in making needed repairs, and the untenanted houses in town present an unnecessarily dilapidated appearance. The fault primarily lies with the parents of thoughtless boys, whose carelessness in the use of their "twenty shots," resulting in many a broken pane of glass, is passed by so often that the boy develops into the impudent hoodlum who will wantonly crash great boulders through the front windows of an unoccupied residence under the mistaken idea that he is doing something heroic. One of the best vacant houses in town was wantonly damaged in this way some weeks ago. It is quite probable that the young rascals who perpetrated the outrage will be prosecuted for malicious mischief at the next term of circuit court. If hoodlumism cannot be restrained by parental influence, it is high time for the officers of the law to interfere. The public demands that steps be taken to bring the offenders to merited punishment.

Land Cruising.

Last Thursday's "Oregonian" contained the following suggestive advertisement: "A lady and her brother, having claims in the best part of southern Oregon, which they will visit July 6, would locate three or four other parties adjoining them, on fine open land, worth $5 an acre cash when proved up on; cost of locating, $50 each; fine hunting and fishing. Address etc." There is very little of the foot-hill land lying vacant in southern Oregon that is not worth $5 an acre "when proved up on." This enterprising lady and her brother—why not gentleman and his sister?—can "locate" people who do not know enough to locate themselves, for the balance of their natural lives, at $50 per head and still find some open land, with fine hunting and fishing. Intending locators should come to this county to get posted on desirable claims, and not throw away their money on persons whose ability to give the desired information is at least questionable.

He Sheds His Horns.

The mooted question as to whether or not the male elk sheds his horns each spring, after the manner of deer, was discussed by the press throughout the state a few years ago, without being definitely settled, pro or con. The buck elk at Dr. DeBar's ranch near Medford settled the question satisfactorily so far as his case was concerned, by shedding his antlers in the most approved fashion both last season and this, and now has his third set rapidly shooting heavenward.

Ho, for Medford.

The undersigned has fitted up a stage, which will make regular trips between Jacksonville and Medford, connecting with all trains and carrying the U. S. mails.

There will be a celebration of our national holiday at Lake creek, and a good time is anticipated. A programme of literary exercises, announcements for the young folks, horse races, etc., has been arranged, all of which will conclude with a party at Mason's hall in the evening. A large attendance is assured.

The present board of county commissioners held their last meeting on Tuesday and Wednesday, adjourning one-fourth of the afternoon of the latter day. The gentlemen composing it have proved efficient, economical and painstaking, and deserve a great deal of credit for the good service they have rendered their constituents.

There will be considerable of a surplusage in the fruit crops in the valley this year, especially peaches and pears, but the apple crop will be very short except in a few limited sections. The quality, however, promises to be excellent, and it may be that many young orchards just coming into bearing will bring the yield up to the normal.

A fine rain prevailed for about two hours last Monday evening on the big desert, and though it did not extend to Ashland, the upper Table Rock to Fourmile Rock, along the river. There was also a fine rain at Eagle Point, on Applegate, about Uniontown, and at Ashland that evening. It was exceedingly welcome, and will bring some of still further showers.

The leading question now is: "Are you provided with a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy, as a safeguard against an attack of bowel complaint during the summer months?" Experience has proved that no family where this invaluable medicine during the hot weather. It is almost certain to be needed, and is a friend indeed when required, as it never fails and is pleasant and safe to take. For sale by all druggists. Price 25 cents a bottle. Sold by Ashland drug store, Jacksonville, Engel Bros., Phœnix.

The hay crop of the valley will be much better than expected a few weeks ago. The weather during the early part of June was not been favorable to late-sown grain, and much of it will be cut for hay. Farmers in the lower valley find that land that will yield two cuttings of alfalfa hay year after year without irrigation is far and away the most valuable land we have, possibly excepting the foot-hill fruit land. One year with another, hay is a much better paying crop than grain in this section.

Several months ago Mr. Henry Plummer, of Clemens, Cal., who is subject to cramps, was taken with a severe attack. He had been accustomed to get relief by taking morphine; but the disagreeable effect that followed would make him miserable for hours after the cramp had been relieved. I persuaded him to try Chamberlain's colic, cholera and diarrhœa remedy. He was much pleased with it, as its effect was almost instantaneous, and no disagreeable after-effects accompanied its use. Chas. Bassett, manager Farmers' Trade Union, Clements, Cal. For sale by all druggists. Jacksonville, Engel Bros., Phœnix.

The following corps of teachers of Ashland's public schools were selected by the directors of that district last week: Prof. P. A. Getz, principal of high school and superintendent; Edgar R. Smith, in charge of grammar school; Misses A. L. Faber of Pennsylvania, and Kate Coburn of Wisconsin, intermediate departments; Misses Bertha Colton and Alice Bonine—the latter of Pennsylvania—primary departments; Misses Nellie Evan and Miss Mollie McKinley, primary departments.

An Old Soldier's Story: In the war I was a soldier in the First Maryland Volunteers, Company G. During my term of service I contracted chronic diarrhœa; since then I have used a great amount of medicine, but when I found any that would give me relief they would injure my stomach, until Chamberlain's colic, cholera and diarrhœa remedy was brought to my notice. I use it now and say it is the only remedy that gave me permanent relief and no bad results follow. I take pleasure in recommending this preparation to all of my old comrades who, while giving their services to their country, contracted this dreadful disease as I did, from eating unwholesome and uncooked food. Yours truly, A. E. Bendlot, Tolsey, Ore. For sale by City drug store, Jacksonville, and Engel Bros., Phœnix.
