THE OREGON SENTINEL.

SATURDAY, - - - JAN. 11, 1862.

Meteorological Table.

The following is an abstract from a meteorological table, observed at sunrise and at seven and one-half o'clock, P. M., at Mount Vernon Ranch, Jackson county, Oregon, by Nathaniel Myer, Esq.:

Years.	Thermometer, yearly mean.		Thermometer extreme.		Inches Rain.
1853					6.37
1854	57.05	21	104		14.79
1855	55.25	16	100		15.64
1856	54.56	26	100		11.89
1857	52.33	9	100		17.94
1858	51.12	19	100		20.08
1859	52.16	14	105		18.60
1860	51.54	19	98		19.06
1861	52.39	24	102		26.37

In 1854 it rained 77 days; 35 successive days without rain; latest frost in Spring, May 28th; earliest frost in Autumn, October 30th; period without frost, 154 days.

In 1855 it rained 81 days; 47 successive days without rain; latest frost in Spring, May 4th; earliest frost in Autumn, October 26th; period without frost, 174 days.

In 1856 it rained 43 days from May to December; 66 successive days without rain; latest frost in April; earliest frost, October 8th; period without rain, 160 days.

1857 it rained 69 days; 68 successive days without rain; latest frost in Spring, May 15th; earliest frost in Autumn, October 10; period without frost, 147 days.

In 1858 it rained 79 days; 53 successive days without rain; latest frost in Spring, May 30th; earliest frost in Autumn, October 31; period without frost, 152 days.

In 1859 it rained 65 days; 66 successive days without rain; latest frost in Spring, May 25th; earliest frost in Autumn, October 17th; period without frost, 144 days.

In 1860 it rained 71 days; 35 successive days without rain; latest frost in Spring, May 17; earliest frost in Autumn, October 31st; period without frost, 172 days.

In 1861 it rained 91 days; 126 successive days without rain; latest frost in Spring, May 19th; earliest frost in Autumn, October 24; period without, frost 156 days.

[In each of the above years some snow fell, which melted in from six to thirty-six hours after it fell. The days it snowed are included in the days it rained.]

INDIAN BATTLE-AX.—Mr. Jno. N. Durham has shown us a beautiful relic of the aboriginal tribes of Indians. It is a battle-ax, 10 inches long, and four wide, of convex form, and is what we suppose geologists would call either silex flint or a volcanic formation. When held up by a string, it rings clear to the tone of letter D. In mining it was washed from an ancient Indian burial ground near Willow Springs. The relic can be seen at the drug store of Dr. Greer.

Mr. Durham also found a piece of metal, 60 feet below the surface, which we take to be an aerolite. It weighs about half a pound, and a file will scarcely affect it.

MESSRS. BRUNNER & BRO.—A rare chance for bargains is now offered at the store of Messrs. Brunner & Bro. They are, unfortunately, compelled to sell off their stock at a great sacrifice and also to place their book accounts and notes in the hands of an attorney, for action in the District Court, if not paid on or before the 25th inst. Between 11 and 12 o'clock to-day (Saturday), the household furniture, etc., of J. A. Brunner, will be sold at auction.

FRANCO-AMERICAN RESTAURANT.—We commend to the attention of epicurian wayfarers and residents, the advertisement of Madame De Roboam. It will be seen that the Madame has made very material reductions in the prices of board and lodging; but is determined that the low prices shall make no change in her table, which will continue to be supplied with all the choicest delicacies, as well as substantials, to be found in the market.

BUTTER.—This necessary article for table use, has become very scarce lately, the only kind in market, (that we know of,) is some that came by way of Cape Horn, two or three years ago. The citizens of Jacksonville are willing to pay a fair price for good butter, and it is something strange to us, that farmers will complain of hard times when they can get fifty cents per pound for butter.

HORSES FOR CALIFORNIA.—James Clingrage, Esq., started for Sacramento from this place on Thursday last, with twenty-one fine American horses, among which were several beautiful carriage teams. Such horses always meet ready sale at good prices in California. The famous racer Black Safin was among the number.

KILLED.—Joseph G. Spear, while engaged in mining in Allen Gulch, near Waldo, Josephine county, on the 6th inst., was killed by being caught under a cave of earth. He was buried by the Masonic Fraternity, being a respected member of Western Star Lodge, of Kerbyville.

SALUTE.—The troops stationed at "Camp Baker" fired a salute on the 8th inst., in commemoration of the battle of New Orleans. They used the cannon recently received from the State by the county authorities.

PERSONAL.—Mr. Thomas Ryan, formerly of the firm of P. J. & T. Ryan, paid our town a short visit on business, remaining but a few days, evidently not wishing to "stay in this wilderness." He left on Tuesday for home.

NEAR THE MAXIMUM.—The two companies now at Camp Baker number about 85 men each. Enlistments will be continued until the maximum is reached—92 men. Hurry up if you wish to join either of these companies.

THE MANLY ART.—By the Yreka *Union* we understand Prof. Storms and Billy Wilson will shortly visit our town, for the purpose of teaching the "manly art of self defence," and giving sparring exhibitions. Who is on it?

GOOD APPOINTMENT.—Rev. S. C. Taylor is now Postmaster at Phœnix.

☞ Mechanics and Teamsters, see advertisement of D. Wm. Doubitt, Esq.

THE STAGES.—The stages from the North and the South, arrive every other day.

THE NEWS.—No Atlantic news has been received of later dates than that published in extra form on Monday last, which we republish in this issue. Through the kindness of Dr. Wadsworth, of Yreka, who furnished us the news contained in the *only* three copies of the Sacramento *Union*, of 26th ult, that have been received up to date, we have been enabled to furnish readers with the latest intelligence several days in advance of all other publications. The streams in California are again overflowing, and Sacramento, it is thought, is overflowed. Our dates from the Atlantic States are to December 24th ultimo, Sacramento to the 26th, San Francisco to the 30th and Portland to the 3d inst.

By last night's stage we received the Sacramento *Union* of December 28th, it says the Sacramento river the evening before at sunset, reached a higher point than was ever before experienced, viz: 22 feet 7 inches above low water mark, one inch higher than at any former period. The river remained at about that height. No Overland mail was received at Sacramento on the 27th ult.

Captain Brooks, of Colonel Forman's regiment, was violently assaulted in San Francisco December 26th, and seriously injured.

The telegraph lines are out of order.

WAR BONDS.—Major C. S. Drew, who is now in Salem, has informed our Northern cotemporaries that all the accounts received at the Third Auditors Office up to the 6th of April, had been reviewed and awards specified, that a quarter of a million dollars of Oregon War Bonds had been issued; that on all bonds of less denomination than $500, the interest is payable annually, and of $500 and upwards, semi-annually.

We learn by Mr. A. Taylor, of Kerbyville, that some of the bonds have been received in that place, and were readily sold at ninety-two cents on the dollar.

FLOOD AT STOCKTON.—The *Bulletin*, of the 29th ult., has the following in relation to the flood at Stockton.

STOCKTON, Dec. 28—2:30 P. M.

The alarm bells were rung the most of last night; the water was unprecedently high. The city generally has been overflowed. Several blocks on low ground have been flooded in the business portion, owing to imperfect drainage. A few stores have been flooded on the south side of Main street. A great many dwelling houses are flooded, and families have had to seek other quarters. The water is now fast running out of the city.

The main body of the water came from the Calaveras river. The country for miles around presents one vast sheet of water.

GOOD NEWS FOR CONSUMPTIVES.—If there be truth in the following statement, clipped from the New York *Evening Post*, consumption may be made a less terrible scourge of humanity than it has been in past time: "Recent experiments made by the French physician, Dr. Carier, reveal a very powerful new remedy, and a remarkable illustration of the cardinal principle of homœopathy. The plant called 'sundew,' (*drosera rotundifolia*,) will develop tubercles in the lungs of a cat, and cause other phthisical symptoms of lymphatic degeneration in the most marked degree, if admin stered freely for a short period. At the same time regular doses of from four to twenty drops of the alcoholic tincture of the same plant will infallibly cure tubercles in a human patient, if begun in the earlier stages of pulmonary consumption. Cut this out for your pocket book."

THE PICTURES OF THE NATIONAL CAPITOL. The Butte *Record* reveals the outlines of a grand picture in thus alluding to the meeting of the thirty-seventh congress:

"In the midst of a stupendous rebellion, with ten of the thirty-four States unrepresented, surrounded by military camps, batteries of death-dealing ordinance, and bristling bayonets in the hands of at least two hundred thousand true and devoted men, the National Congress meets in the Capitol—of late used as barracks for soldiers called to defend it against the threatened attack of fratricides and traitors, and thus, surrounded by all the pomp and circumstance of grim visaged war, the legislative branch of our Constitutional government assembles, as it never assembled before, to make laws for the nation, now peril led by the unnatural treason of a part of her own people.

FOR THE NORTH VIA THE LAKES.—A train of seventy-five mules, belonging to a man lately returned from the Carriboo country, left this city last Wednesday, by way of the Klamath Lakes, for the Dalles. We understand the owner expects to load his train at the Dalles, for the Carriboo mines, and go through as early in the spring as possible.—He will no doubt realize handsomely from the speculation. Mr. Henry Greathouse, of this city, also left on Wednesday, for the North by the same route. If the first party get through safely, during this, the most inclement and unpropitious season of the year, the route will be found entirely practicable.—*Yreka Union, Jan. 4th.*

OBLIGATIONS OF RECRUITS.—There are numerous instances where men have signed their names on enlistment rolls, and afterwards failed to go into the service of the several companies they had pledged themselves to. It has been decided by competent authority, after a very careful investigation, that a soldier is held from the time of signing his name to the enlistment roll, just as truly as though he were "sworn in;" and persons who have enlisted and left the service without a proper discharge, are to be considered deserters, whether they have been "sworn in" or not.—*Eastern Paper.*

NOAH'S ARK.—In Grafton's *Chronicle*, published in England by Richard Grafton, in the year 1569, the dimensions of Noah's ark are given as follows; Length, 2,700 feet; breadth, 450. These dimensions, supposing her to have been a double decker, and taking half the beam for the depth, would make her 2,586 868 tons.

ANSWERED.—The question, "why printers did not succeed as well as brewers?" was thus answered: "Because printers work for the head, and brewers for the stomach; and where twenty men have stomachs, but one has brains."

A farmer of Scott Valley says he has had everything washed off his farm but the mortgage.

THE Presidents Message was issued from the office of the San Francisco *Alta*, forty-three and one-half hours after being read in Congress.

S. J. McCormick of Portland, has been awarded the contract for supplying the State with Stationery.

JAS. T. GLENN, Sec'y. dec8:47

Sand's Sarsaparilla is an excellent alterative and tonic. Delicate females of irregular habits, or at the turning period of life, find it the best and safest remedy that can be used. It is also peculiarly beneficial for purifying the blood, expelling obstructions, strumous and scrofulous humors, pustules, pimples, and all disfiguring eruptions upon the surface of the skin. 50m1

To Persons whose Health is Broken Down.—Every disease might unquestionably be prevented if nature were assisted to rally with that most wonderful of all invigorators, DR. HOSTETTER'S STOMACH BITTERS. When the flame of life wanes and quivers from exhaustion, administer this famous restorative. It will once more become steady and strong. In the debility which follows violent fever—in diarrhœa, dysentery, dyspeptic complaints and cholic—in the weakness consequent upon natural decay, or resulting from free living or over exertion, and also in those painful and too much neglected ailments to which ladies are exclusively subject—the Bitters *never fail* to give permanent relief. Sold by all Druggists and dealers everywhere. 4m4
