The Weekly Enterprise.

TOWN AND COUNTY.

☞ Many of our readers this week get more margin with their paper than is either useful or ornamental. Others will get but half a sheet. This is provoking, and worries our good temper—but it is wholly unavoidable. We had a supply of paper on hand that would have kept us through until the Clackamas mill starts, but we loaned it to the *Oregonian*, and Mr. Pittock has been disappointed in not procuring stock for his own use, and the use of others we presume. It is hoped that the mill will be able to meet the demand next week.

—Mr. J. D. Dement, an old time resident of Oregon City, is now on a visit to his friends here from San Francisco.

—The parties who agreed to deliver wood at this office in payment of subscription, are reminded that "time's up" next week.

—Persons who subscribe for the ENTERPRISE, to be sent East, may rest assured that we shall not send it in such wrappers as that used by the Washington *Chronicle*.

—Elder G. W. Richardson, and Elder G. O. Burnet, will preach at the Court House in this city, on the fifth Sabbath of this month, August 30th, 1868.

—Rev. J. W. Sellwood returned from California by the last steamer, and will hold service as usual at St. Paul's Church in this city to-morrow.

—A lady could cross the river on the falls at this city now, if she wore the latest style of heels to her gaiters, and not wet her stockings. The water is low, and the grass very verdant.

—The *Success* belongs in the line of the Canemah Transportation Co. She has much more than filled the bill already. Has reduced freights considerably, and gone up to bring down more.

—The track of our city street railway is about obliterated. Let it oblit—the owners of it ought to be compelled to pay taxes on it—then maybe they'd move it out of the corporation.

—The coach of Monday last was packed full and running over at the top. Mr. Chas. Cartwright, Hon. I. R. Moores, Dr. Benson, Chas. Uzanovage, and others were amongst the sixteen.

—There is a man living in this city who will more than reach his three score and ten, at the rate he walks and works. There is no use in a man hurrying through the world so fast—all will reach the end of it sooner than they expect.

—Our correspondent, A. A. S., need have no fears of New York losing anything material just at present, even by a prejudiced statement by a web-foot, of ladies and things there. The letter would be published, but we have no room for it.

—Judge Matlock was taken suddenly ill on the 17th, soon after reaching his home from this city, and his friends felt quite alarmed about him. We are glad to learn that he is improving.

—Rev. Mr. Todd has been appointed by the general M. E. Conference of Oregon to preach in Oregon City for the ensuing year. Rev. Mr. Cosper, who has occupied the pulpit here for the year past, goes to Milwaukie.

—It will be seen that Mr. Selling wishes the old accounts upon his books closed; this is only an earnest of his intention to continue trade on a cash basis, giving his customers more goods for the same money than ever before. He will also exchange goods for produce as in times past.

CALIFORNIA MEDICAL GAZETTE.—We have received the August number of this periodical, published by A. Roman & Co. It contains articles on the miasmatic diseases of California, on Chopart's operation, the modern treatment of dysentery, rheumatic iritis, and on a remedy for smallpox.

—Boys who are in the practice of firing their artillery on the bluff should be reminded that an existing ordinance recognizes no excuse for such amusements. There is danger at all times of injury resulting from the discharge of a loaded gun or pistol in that part of the city. Some one is always around, up there.

—The Paris Exposition Circus performed in this city on Saturday evening last to a $300.00 house. This circus is decidedly the best that has traveled in Oregon since we were an emigrant. The muscular exercises and leaping were alone worth the price of admission. We hope they may come again.

—The case of J. C. Trullinger *vs.* the Oswego Iron Works Co., was decided at Chambers, on the 17th, by Judge Upton. We think neither party made anything by going to law unless it was the Plaintiff. Both pay, each one half the costs. Now if they will take our advice, they will go about an amicable adjustment of affairs—revive business, and stop residents from leaving the place. The building up of Oswego is "busted," unless they do.

—We invite the attention of our readers this week to the advertisement of Messrs J. W. Lewis & Wolgamot, respecting plows. No farmer should buy a plow from anyone, until he has seen the Pfeil or Web-Foot. The former swept everything in the States. It took the first premium at Mattoon, when exhibited alongside of plows on exhibition by the famous old St. Joseph Iron Company, an incorporation which has manufactured and sold more plows in the United States for the last thirty years, than any other two companies in the country. The Web-foot is a plow invented by Mr. Lewis, and its destiny is to govern the plow trade.

—The suit against Geo. W. Walling, Supervisor, was decided last week, but as Justice Bacon is absent we have only flying reports of what it was. Mr Walling was discharged, and we lost a subscriber by the action. Some men imagine that there is a powerful "clique" in this city, and that we belong to it—There may be a dozen "cliques" here for all we know, but not one that we know of, and so far as our connection with any of them is concerned, when so charged it is false. It is often the case when adverse opinions are held by parties that this "clique" is brought to our notice—but no clique work is ever done here to our knowledge.

—Intelligence reached this city on Wednesday of the loss of an infant daughter of Mr. S. Ackerman, at Eugene City. The parents had left here on Monday for a visit.

—The Pioneer and the Clackamas Base Ball Clubs meet again once more in contest to-day on the field of the latter, in this city. The first nines of these clubs are the choice players of the State, and a fine time may be expected on this occasion.

—There will be a quarterly meeting at the M. E. Church in this place, on the 22d and 23d inst., commencing on Saturday at 2 o'clock P. M. Services to be conducted by Rev. J. F. DeVore, P. E., and Rev. C. H. Todd, preacher in charge.

—On Wednesday last the steamer *Alert*, of the P. T. Co.'s line, was hauled out for a thorough refitting, in this city. The *Senator* has taken her place, and thus we have but two steamers daily at present between here and Portland. The *Wenat* is running in connection with the *Success*; the *Ann* is undergoing repairs.

—Trees grow remarkably fast in Oregon. Just below this city is a dense thicket of fir trees, where ten or fifteen years ago was almost a prairie. Fences, built there by the pioneers, are now so nearly hid by the forest that they can with difficulty be seen, and to get to them one must cut his way through.

—Heavy fires are now raging in the forests of Oregon. The very air seems suffocating with smoke at night. The hugest one that we have witnessed is that in this county below the Clackamas, near the Rincarson farm. On Sunday night the region thereabouts seemed to be "red hot."

—If every tannery in Oregon would do as good work as that of Mr. Armstrong, at Milwaukie, there would be fewer shipments of hides to California. There is not, nor can there be, any better quality of leather made, than that produced by Mr. Armstrong. We wish our exchanges would note this fact, and let makers of harness, saddlery, etc., know that Clackamas county defies competition in this line.

—We have received the minutes of the annual meeting of Congregational Convocation, held at Forest Grove in June. This church at Oregon City is without regular ministrations by any minister of the order, but the members sustain weekly prayer meetings, and keep up their Sabbath School so efficiently that other schools have been established in neighboring settlements.

—Several of our fellow townsmen took their departure for Victoria on Saturday last. Among them were J. L. Barlow, J. M. Bacon, and C. Greenman. They went by the Oregon steamer of Jacob Kamm, Esq., the *Geo. S. Wright*. If they ascend Mount Baker during their tour, or catch any codfish, we shall hope to give an account of the proceeding.

—Mr. Benj. E. Hancock, superintendent of the Portland and Milwaukie McAdamized road, informs us that no person is overcharged at the ferry at Milwaukie, unless they come after the boat has stopped running for the night, and then only a slight advance is added to the regular rates. At present the boat runs from 6 A. M. until 8 P. M. The ferry is no trouble to us; if it is to any other person, they can make complaint to Mr. Hancock.

—An analysis of water brought to this city by Judge Caufield, from springs on the place of Mr. Wilholt, about 20 miles distant, has attracted our attention. The water was thought to be soda. Dr. Parclay's analysis shows the principal constituents to be chloride of sodium, and chloride of calcium, constituting a healthy tonic. Mr. J. G. Campbell, of this city, who has been to Saratoga Springs, has tasted it, and he says that he doubts whether any person, with their eyes shut, could distinguish between it and the water of the celebrated Congress Springs at Saratoga. People spend a great deal of money in the East for the privilege of procuring this elixir—here it costs nothing.

—When receiving packages by express, the thought seldom enters the mind of anyone that Wells, Fargo & Co. have a heart. But they are not soulless—their heart is a large one; and it is in the right place. We had occasion recently, in this city, to know of the fact. A man came here from the East with his family. Soon after his arrival his wife was taken sick; then a child; and he was almost driven to want. His clothing, bedding, etc., followed him by express—and in due time was here ready for delivery, but the charges were far in advance of his ability to pay, and Messrs. Charman & Bro., agents of the company, ventured to inform the chief officers of the fact. This information was well received, and the poor man's effects were delivered to him free of any expense whatever, the company having paid all advance charges, to the amount of perhaps $40 or $50. It was a very kind act.

DYE COLORS.—One of the most useful and economical productions of the present age is Howe & Stevens' system of Family Dye Colors, comprising all the staple colors and the most exquisite shades, and so simple that any one can use them with perfect success.

AN OREGON JOURNAL.—Thousands of letters are written annually, to parties on the Pacific Coast, asking for information concerning that region. The *Oregon City Enterprise*, a weekly journal of 32 columns—28 are contemplated—was established by D. C. Ireland in 1866, for the purpose of paying special attention to the resources of Oregon. It is published at Oregon City, a town of 1200 inhabitants, situated on the Willamette river, destined to become a second Lowell, or Lawrence, on account of its natural water power, which is unequalled in America. Is but ten miles from the commercial metropolis of the State (Portland), 36 miles from the State Capital (Salem), and but four miles from Oswego, one of the finest iron regions in the known world. This Journal costs but $3 per annum, or $2 for six months, and to any person wanting a knowledge of Oregon, it is invaluable. Try it.

PAIN KILLER—
MANHATTAN, Kansas, April 17.
Messrs. Perry Davis & son:
Gentlemen—I want to say a little more about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I have traveled a great deal since I have been in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera in 1849, and with better success than with any other medicine. I also used it here for Cholera in 1855, with the same good results.
A. HUNTING, M. D.
* * * "I regret to say that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer sent recently from the Mission House, has been used with considerable success during this epidemic. If taken it season, it is generally effectual in checking the disease.
Rev CHAS. HARDING, Sholapore, India.
