More about the Cayuses.

We publish the following statements and commend them to the notice of the public. We are convinced that the world does not know all about this matter yet.

Perine Whitman says that Wm. Craig, who resides among the Indians in the upper country, says that he gave Governor Lane the names of eight other Indians, who were equally guilty with the five who have been executed, but that the Gov. only insisted on the delivery of the five. Mr. Whitman reports Mr. Craig as further saying that the understanding among the Cayuses is that the other eight are by the treaty which the Governor made with them, exempt from inquiry or prosecution. How is this? Are guilty murderers to be screened? We have more to say on this subject hereafter, so we leave the above to the reflections of the reader.

☞In consequence of having no paper we are obliged to issue a half sheet; and also to omit much interesting matter which we have in type. We hope to receive more paper before the time for issuing the next number.

☞We have nothing farther in the way of authentic intelligence from the Spokan or Rogue river gold mines.
