CHURCH DIRECTORY.

EPISCOPAL CHURCH.—Services in the Episcopal Church on the second and fourth Sundays in the morning; on the third Sunday in the evening. All are cordially invited to attend these services.

METHODIST CHURCH.—Preaching 1st and 3d Sundays of each month; Sunday school at 10 o'clock; prayer meeting Wednesday evening. Strangers made welcome. J. C. KIRKMAN, Pastor.

BAPTIST CHURCH.—Preaching at First Baptist Church every second and fourth Sunday in each month at 11 a. m. and 7 p. m., by Rev. W. H. Pruett pastor. Sunday School every Sunday morning at 10 o'clock. Prayer meeting every Thursday at 7 p. m.

LOCAL AND OTHER INTELLIGENCE.

FESTIVAL.—We visited the Methodist Church last Friday evening to attend the festival which we saw advertised in the *Independent*. Found the house full of old and young. 'Twas a hard matter to decide for a while who was master of ceremonies, Rev. Kirkman or Brother Sargent; but at last the preacher assumed complete command and we were entertained with reading, rehersals and singing. The reading of Miss Daughtry was good; the selection might have been bettered and more appropriate for the occasion. Miss Viola Despain rendered her piece well; Miss Junkins also recited a piece entitled "No Seats in Heaven," which was well received by the audience. The singing by the choir was excellent, but we being at the back part of the house could only distinguish two voices, Mrs. Kirkman's soprano and Mr. Kelling's bass. After the exercises at about 9 o'clock tables were spread with cakes, coffee, ice cream, etc., in abundance. The net receipts were $50. The thanks of the committee are tendered by Rev. Kirkman to the public, who so liberally patronized them. P. S.—We forgot to give the amount of credit due all the little children who took part in the exercises; all of them deserved and received of the audience the greatest credit.

JEWELL ESTATE.—It will be remembered that Chas. Jewell was shot and died from the wound by the hostile Indians in the summer of 1878. Samuel Anderson was executor of the estate, which was appraised at about $32,000. Monday last the homestead was sold to pay the debts of the deceased; it brought a little over $8,000 and the sales were enough to cover all the indebtedness of the estate. What may be left to the heirs no one knows. But that the assets were well handled no one will deny. Mr. Anderson is entitled to great credit for the manner in which he has brought the matter to an end. Thompson & Barnhart were the purchasers, and now they may well declare that they have the very best place in Umatilla county.

WELLS! WELLS!—The enterprising men who have settled the country between here and the Columbia, are having a hard time of it, in many instances to obtain water, wells are sunk to the depth of from 30 to 80 feet, some find plenty of water while others do not. The old superstition of hunting water with a witch stick is revived; sometimes water is found as the stick indicates but oftener not. Nearly all have come to the conclusion that the only way, practical way, to do is to find a good location and then bore the earth 'till water comes. The cost of sinking the wells is said to average about $8 per foot.

The Weston *Leader* prints a nice little story about our former assessor being unable to find the county corner in the northeast part of the county. It could not be that the editors of the *Leader* were the men because they were not here, had they been no one would have hesitated to say "thou art the men," as we know that one of them can't follow a plain stage road from Pendleton to Heppner. We would not have any one infer from this that *Nabob* whisky was at the bottom of it.

CARD.—MR. EDITOR,—I want to denounce I. Hathaway in public, because he has more money than we have he has bought up the right to sell all kinds of Musical Instruments for this city, from a penny whistle to a church organ. I am as good a man as he is if he has more money and if he don't like it, he is another and can go there himself. Just go and look at him on the corner.

PERSONAL.—George Swaggart, one of Heppners solid men, was in town with his family this week, visiting his numerous friends. From here he goes to Centerville and Weston to visit his old stamping ground. George will find the county about there dotted with farms where he used to follow the sedate sheep and frolicsome lambs. A happy time old boy.

It was supposed at one time that the Canuck breed were thoroughbreds but by the way the editors of the *Leader* dish up editorials, bouncing everyone who don't think as they do, we have come to the conclusion the stock has deteriorated or that the editors of the *Leader* do not belong to the thoroughbred stock.

Intelligence office at the Bon Ton Hotel.

See "ad." of H. Jacobs.

March winds are all the go at present.

Pendleton is full of strangers; hotels both crowded.

The weather has been disagreeably equally for some days past.

Church Festival and Entertainment at Milarkey's Hall next Thursday evening at usual hour.

General Sanford, we understand, intends erecting a fine two story building adjoining the main building of the Bon Ton.

Teamsters and travelers will do well to notice the "ad" of F. A. Foster, of Lee's Encampment on the Blue Mountains.

Marriage and death notices inserted free, but long obituaries and marriage puffs will be charged for at the rate of 20cts a line.

We insert communications from all correspondents on proper subjects, but are not responsible for the views contained therein.

Don't fail to call at the *Leader* office when at Weston and get a dose of the splendid Nabob kept there for family use. Its nice.

Sign the pledge to vote for no man for office unless he favors division, and then go to the *Leader* office and get a d—d—dose of Nabob.

The Rice & Wilton combination gave one of their fascinating exhibitions last night. Will perform again to-night. Entire new programme.

Take Dr. Hyde's Golden Blood Syrup to purify the blood and purge out the humors, pimples, boils and sores which are merely emblems of the rottenness within.

Mr. Oliver Hoyt, of Stamford, Conn., has given $15,000 to Wesleyan University, at Middleton, Conn., in addition to $25,000 previously given.

Mrs. LaDow, we understand, sold two lots, with little or no improvement, in the upper part of town, for $600. J. W. Ellis was the purchaser, and will soon erect a neat residence thereon.

S. Anderson, Executor of the Jewell estate, sold the real property belonging to said estate on Monday last. Proceeds, $8,220. This secures the payment of all the claims against the estate in full.

The cow boys are getting uneasy. Their nightly dreams are of bucking broncos, queer quirts, bitonte hackamores, Sity Ann saddles, contrting calves, slow corn steer, yellow yearlings, I resume travels, bachelor looks, etc., etc.

PENDLETON BASE BALL CLUB—Was organized this week, and there are members in that club that do declare that as soon as they learn the game they can beat any organized club in Umatilla county; yes, or in the State of Oregon. They are now ready to receive banters.

A wretch who gave his name as John Lane entered the room of a lady at one of the hotels at Junction, and while in the act of administering chloroform, the lady woke and by her screams aroused the house. The fellow jumped, but was arrested soon after and on the examination was held to bail in the sum of $300.

MORE OF THE MONUMENTAL.—Sam Parrish arrived last Sunday with two silver bricks, and worth respectively $1336 50 and $1337 09. Reports lots of snow at Granite, but roads in good order. The mill works all right at present and he does not fear more break downs. We may expect him in about once in two weeks. He returned on Monday.

RESTORED TO REASON.—Mrs. Johnson, the lady arriving from Ohio a few days ago and found near the upper boneyard in a demented condition and sent to the asylum, has fully recovered. Her husband has arrived from Centerville, Umatilla county, and hastened to the asylum found his wife fully recovered. He brought her to this city, and will leave for their home East of the Mountains.—*Oregonian.*

Among the most valuable publications received at this office is the Weston *Leader*. It always contains interesting articles "On the Fence," "No Fence," "Under the Fence," "Over the Fence," "Straddle the Fence," "Nabob For Family Use," (nice to have in a family of small children where there's no milk) "Nabob for Medical Use," "Temperance," "Report of Division Club," "Report of Blue Ribbon Club," "Dreams," "Visions" and "Die-Visions."—*Independent.*

Come boys, you hadn't ought to gore the little *Leader* this way; you are liable to cause a *division* of their stomach, for their Nabob may run short (for family use) and they may be compelled to call on some of the other places where beverages are kept.

Of the one hundred and fifty Supervisors to take the census of the United States this year, only thirty-eight are Democrats. The importance of the work, in connection with the apportionment of Representatives in Congress to be based upon it, can be readily estimated. It is not a difficult matter for the Supervisors of any given State to so return the population as to increase or decrease the representation of the State in the House of Representatives and also in the Electoral College, and with the Supervisors thus apportioned, it is safe to venture that every Republican State will be fully counted up to the utmost, while the Democratic States may expect the minimum return to be made. But with all the finesse of Mr. Hayes and his Cabinet the appointments have so much displeased the Republicans in Congress that some of them express their opinion of the slight or wrong done them in terms more energetic than courteous. It is a a family wrangle, and they must settle it after their own mode. Democrats expect neither right or courtesy from Hayes or his party, and therefore they will not be disappointed.—*Ex.*

FEBRUARY 21st, 1880.

ED. "E. O."—Allow me to give a view of what I think best in regard to the "no-fence law" question that is now agitating the minds of the citizens of our county. Feeling an interest in the welfare of our people, I take my stand in favor of the law of good fences, believeing that this is the only safe-guard to make farming a success. It guarantees to us value received for our labor and interest on money so invested. With good fencing we are protected in what we plant, and if Providence smiles on us and gives us a bountiful harvest it is well. We are now secure from the ravages of bands of stock, with no-fence and a herd law we are not, and our grain is at the mercies of stock at many times in spite of the herder, say nothing about the bands of stock that may be driven through our county from time to time; how are we to prevent them from running over and tramping our grain down. Law suits will be the chief watchword with such a law, and if put in force in less than five years the majority of our farmers will lose twice what it will cost to build a good fence. Besides it will cripple one of our best interests, that is stock raising. It is a well known fact that this country is one of the best stock raising countries under the sun. Men that settled here 15 years ago have found more made in raising stock than in raising grain. There are a great many throughout our county that are engaged in both farming and raising stock. You will find that a no-fence law will make the rich richer and the poor poorer. This has proven itself to be the case in every locality where it has been in force. The emigrant can better afford to day to fence his land than we could ten years ago, and if a large majority have to suffer to benefit a few emigrants, we had better not have any at all, especially those that are in favor of farming out on the commons. You cannot find any that have ever lived where the law has ever been in force that wish to have it again. We have a good country, good rich lands that will pay to fence. Farming without fencing is like living out of doors, it wont pay, and that all will soon find out if this law is forced upon us. Such a law would drive capital from amongst us, and will lessen the valuation of our land at least 25 per cent and make stock fully that much higher. Our farming lands are so situated throughout our country, with grazing lands mixed up, that it would be useless to undertake to have a herd law. The adjacent Blue Mountains are the best ranges for stock to be found in the world and those that settled here in the valley, near the foot hills have all good fences, and more or less stock running at large on said mountains. What will those farmers do with their stock with a herd law; they will have to sell it against their will to gratify the few that may come and settle amongst us. This is injustice to all the old settlers who faced the dangers in early settlements and should be scorned by all honest men.

SCHOLARER.

Mr. Jacob Heird, one of the hands at the Pendleton Planing Mill, met with a painful accident on Thursday last. He was at work at the buzz saw where he got his hand too near the saw, and had it dreadfully mangled. All the fingers and the thumb on the right hand were torn to pieces. Dr. Pruett was called and amputated the index finger. The Dr. thinks he can save the others.

BORN.

DIED.

BARKER—On the 23rd of January, 1880, at his residence near Keosauqua, Van Buren county, Iowa, Mr. Benjamin Barker, of Lung Fever, in the 77th year of his age.

By request we publish the following:

Thus has passed away one of the old pioneers of Van Buren county. He was born in Monongalia county, Virginia. In 1834 he was married to Margaret McCoy. In 1841 they emigrated to Iowa where they have since lived. They raised a family of eight children, four of whom live in Oregon. Mr. Barker, or "Uncle Ben," as he was known far and near, was an old Jacksonian Democrat, never voting for any other party nor swerving from the true principles. United with Masonic order when a young man, he was a good neighbor, a loving father, affectionate husband, and a man of strong prejudices, a strong and reliable friend and one of God's noblemen. N.
