SALMON PACK OF 1900.

"The Columbia river salmon pack this season was approximately 290,000 cases," said an Astorian the other day. "The biggest year was in 1894, when the pack amounted to 600,000 cases. Notwithstanding the small pack this year the canneries paid out much more money this season than in 1894, when they had the big year. As a consequence, money has been as plentiful this year as when the pack was 600,000, greatly to the satisfaction of both fishermen and business houses.

An average of 7 cents a pound was paid for fish this season. A higher price was paid at times, but the average amounts to seven cents per pound. The quality made up for the quantity of fish.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentary in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs Geo F Burdick, Liberty, R. I. For sale by All Druggists.
