ROSEBURG REVIEW

THURSDAY, SEPTEMBER 5, 1889

WASHINGTON LETTER.

(From our regular correspondent.)

The Navy Department has received a cablegram from Rear Admiral Gherardi, commanding the North Atlantic squadron, asking that the new American minister to Hayti be sent immediately as Legitine had abdicated and Hippolyte is now on top in that changeable little island. The French and English captains have placed themselves under Admiral Gherari's orders in case of trouble at Port-an-Prince. Fred Douglass is the new mimister. It is expected that he will start this week. It is said that the Haytians object to Douglass as minister; they want a white man.

Permission has been granted by the Agricultural department to some of the Knights Templar who will attend the Conclave in this city next October to pitch their tents in the department grounds.

The Postmaster General is all alone in his glory this morning and he only arrived in town to-day, and it is doubtful whether he will remain. No member of the cabinet is expected before next week.

A special train left this city Saturday night with a large crowd bound for this lakes to attend the G. A. R. encampment. The business men of Washington have invited the organization to hold their next annual encampment here.

Arrangements have been completed for a grand excursion, extending from October 3d, to November 14th, and taking in every place of interest from Omaha to Massachusetts, to be given by the state department to the delegates to the Three America's Congress which meets here October 2. Some unfavorable comment has been made here because the South is not to be visited by the excursionists. It hardly seems fair to leave that section out long as it is on a trip which has to be paid for by the Government.

"Mahone's nomination by the Republicans" said a Virginia Democrat prominence, "has made the fight in Virginia a serious thing for us. Mahone, as an organizer, has few equals and no superiors and we have got a hard fight on hand to hold the State." The same views are expressed by many Democrats here. They believe they can win but only by the hardest kind of work.

To think of the International Exposition of 1892, being held in any other city than Washington is out of the question. The Government owns ample grounds here right down in the heart of the city to erect all the necessary buildings upon. Four-fifths of the Congressmen heard from on the subject favor Washington and there is not the slightest doubt that the Exposition will be held here as it should.

Civil Service Commissioner Lyman says that the report sent out from here saying that the Commissioners had talked with President Harrison about the proposed extension of the rules to cover the chiefs of divisions in the departments is an error. The subject has not been called to the President's attention, but will be, when he returns to this city as the Commissioners are unanimously in favor of its adoption. An open rupture between the Commission and one of the Cabinet is said to be one of the probabilities of the near future.

The navy department has had to issue new proposals for building the five new cruisers provided for at the last session of Congress, because the bids received for those first issued were all in excess of the amount appropriated. It is feared that vessels of the class desired cannot be built for the amounts stipulated by Congress, and that the matter will have to be referred back to that body for further action. We seem to have all sorts of drawbacks in the building of our new navy.

Representative Breckenridge of Kentucky was in this city last week. He does not think the Republicans will have any trouble to organize the House, nor does he think there will be any serious contentions over the contested election cases unless the Republicans attempted to seat men not legally entitled to the seats. Personally Mr. Breckenridge is opposed to an extra session of Congress but from a political standpoint he hopes one will be called. He said: "to have discordant elements together is an element of weakness."

Frank Hatton has "set up" on the Civil Service Commission. Perhaps he is waiting for Mr. Roosevelt to return, and perhaps—he has been "fixed."

A new Democratic Weekly paper is to be issued here in a few days. It is understood that the principal stockholders are New Yorkers.

If Republicans here know anything of the President's intentions in the matter, the idea of calling an extra session of Congress has been abandoned.

The Ohio Republican office holders are already being notified that their presence at home at the coming state election is an imperative necessity, and that if they stay away they do so at their own risk.

Some men who would never set a river afire make pretty good husbands, after all. The average wife doesn't care so much for a husband who would set the river afire as she does for one who will start the fire regularly in the kitchen stove.—*Somerville Journal.*

Consumption Surely Cured.

TO THE EDITOR—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send trial bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and post office address. Respectfully,

T. A. SLOCUM, M. C., 181 Pearl st., N. Y.

Children Cry for Pitcher's Castoria.

SPARE THE TREES.

The following remarks clipped from a California paper apply with even greater force to Oregon, for here not alone the fertility of the soil, but our glorious climate itself is dependent upon preservation of the forests: "No one can ever foresee the consequences of a blunder. Many years ago, when lumbermen were sweeping the Adirondack mountains of New York of their trees to sell them for lumber, it was pointed out that the denudation of the hillsides would inevitably lead to a drying up of the water courses, and that tree-cutting ought to be regulated by law. No attention was paid to the warning. The mountains were laid bare, and the stumps in many cases were burned to complete the clearing. It is now discovered that the springs and streams which feed the Erie Canal and the Hudson river are running dry, and that if the present condition of things lasts, the canal will shoal so as to become useless for purposes of navigation. As a remedy it is proposed that the state buy the Adirondack mountain-sides from their owners, and replant them so as to woo the waters back to their original cradle.

"There is a lesson here which should not be thrown away by the people of this state. The lumberman is slowly but surely destroying the future prospects of Calfornia. Every hillside which is shaved bare to furnish firewood insures the conversion of some fertile field into a desert hereafter. We are all discussing schemes of irrigation by which arid plains are to be turned into gardens through the beneficent application of water; but simultaneously, we are doing our best to cut off our supply of water. If the lumberman is let alone, he will defeat the best-laid plan for irrigating the dry country, for he will leave no water to irrigate with. It is not alone the native lumberman who is engaged in the destructive work. Vast tracks of timber land have passed into the hands of Michigan and Wisconsin lumbermen, and they are preparing to cut down trees by the wholesale.

"A due regard for the future productiveness of the state should insist on the passage of a forestry law, limiting the extent of destruction to be allowed. A moderate thinning of the forests does no harm; indeed, it may be rather beneficial than otherwise; but no one should be allowed to denude the soil of all its forest covering, under which the soil fattens and springs bubble up in the shade. Such vandalism cannot be tolerated in any state which expects in the future to be able to raise food for the support of its people."

The organs give the assuming information that one Hon. Matt Quay has signified his intention of "helping" Wm Mahone in his race for Governor of Virginia. If Virginia is to be "saved" to the plutocrats Matt Quay is the one man capable of achieving it. Mr. Quay is a very smart man in his line; but for him one B. Harrison would to day be conducting a small law practice in Indiana.

Now that David Terry is dead the subsidized organs are pouncing upon him with both feet. In their denunciation of Terry for killing Broderick they neglect to mention that it takes two to fight a duel, also that twice during his early California career that Judge Field was a principal in duels—though each time the affair of honor was amicably settled.

The Democrats of Washington are more hopeful of the favorable result of the coming struggle. They are working quietly and persistly and are firmly united. What is more they are right; and there is every reason to expect that our neighboring territory will place herself in the column of Democratic States where she rightfully belongs.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home,"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly. Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine,

Hood's Sarsaparilla — Is Peculiar to Itself
