ABOUT THE KAISER.

The visit of Prince Henry to America at this time newed interest in his royal brother, Emperor William, of Germany, who we are reminded is the most paternal and truly royal of the great monarchs reigning today. He has a longer head for higher politics than many give him credit for. He has gone out of his way to be neighborly to Sultan Abdul Hamid of Turkey, when every other government was backbiting him, and this policy has earned a German railway from the Bosphorus to the Persian Gulf. Last year he placed an order in this country for a yacht. A yacht is a small thing and no one saw anything big in this one, but William kept his counsel and so well has he laid his plans that through this small thing he has immensely increased the good-will between his country and ours.

He takes an interest in everything. Coquelin the great French actor was abashed the other day to find, in talking with him, that Emperor William knew as much about French dramatic matters as he did. The Kaiser recently surprised a gathering of German scientists by going onto the platform and instructing them in their own line of work. So also he delves into art, drama, music and literature, and he always has an intelligent and appreciative word of encouragement for every worker. His versatility and his belief in divine right have led him to do some funny things but he is the kingliest ruler occupying any throne today. The present visit of his brother to America no doubt has some far reaching significance.

If the bill providing a pension for the veterans in the Indian Wars from 1847 to 1856, which was passed by the Senate last week, through the efforts of Senator John H. Mitchell, should be adopted by the lower house and become a law, it will benefit only about 1000 people in Oregon and Washington. The surviving veterans and widows of veterans are supposed to be about that number. Their average age is 73 years. This estimate also includes the widows. According to the rules used by the old-line life insurance companies in making their estimates, these survivors have only five years to live. That a large number of the veterans are married and will leave widows who will draw pensions will not alter the general result, as most of the wives of the veterans are pioneers, and their average is nearly as great as the veterans. The Senate bill provides for a pension of $8 per month for the veterans and the widows of veterans. Over 7000 men served in the nine years of Indian warfare in Oregon and Washington. Of this number 1800 were killed on the field of battle.

Two hot-headed Democratic senators disgraced the United States Senate by engaging in a rough-and-tumble fight therein last Saturday. Such conduct in our National Legislature can but lower our boasted free and enlightened country in the estimation of the other nations of the world. Both Tillman and McLaurin should be required to go way back and sit down and remain there

It will require more than a rattle-headed democratic speech in congress or elsewhere to make the American people sanction the boorish treatment of a distinguished foreign visitor because he happens to be a member of a royal family.

Pitchfork Tillman has discovered that free advertising can be utilized to bring in cash gate receipts. Willingness to pay good money to see and hear freaks is one of the weaknesses of the American people.

Most of the fellows who are giving the government pointers on the Isthmian canal question would have to hire a laborer to map out a drain through their back yard.

The eight hour man is the perfect man from a trade-union standpoint, but its the twelve and fifteen-hour man who does the big things in this world.

The "little dutchmen" of this great country will think twice before they cast a vote for a democratic candidate for congress.

A MOST SEVERE STORM.

San Francisco Swept By a Big Gale Tuesday.

SAN FRANCISCO, Feb. 25.—The heaviest storm in years swept over San Francisco today, cutting off communication by wire and doing considerable damage at the Presidio and in the Mission residence district, where three buildings were blown down. The barometer was barely one inch higher than at the time of the Galveston storm, which was the lowest ever recorded in this country. Ship after ship dragged anchors, and the transport Solace careened about the bay like a drunken sailor. All the streams in the interior are booming, railroad tracks have been washed away in places, telegraph and telephone lines prostrated, and small buildings blown down.

Resolutions of Condolence.

At a regular convention of Alpha Lodge, No. 46, Knights of Pythias, held Feb 26, 1902, the following preamble and resolutions were unanimously adopted:

WHEREAS, It has pleased the Supreme Ruler of the Universe to remove from our midst the beloved wife of our brother Samuel W. Tooley; and

WHEREAS, It is but just that a fitting recognition of her many virtues should be had; Therefore be it

Resolved, By Alpha Lodge, No 47, Knights of Pythias, Roseburg, Oregon, that while we bow with humble submission to the will of our Heavenly Father, we do not the less condole with our brother.

Resolved That in the death of Mrs. Imogene Tooley this community has lost a Christian who was in every way worthy of their respect and regard.

Resolved, That the heartfelt sympathy of this Lodge be extended to our brother.

Resolved, That these resolutions be spread upon the records of the Lodge, and a copy thereof be transmitted to our brother, and each of the newspapers of Roseburg.

Mrs. M. Devaney and her two children expect to leave this city Sunday for an extended visit with her relatives in Montreal, Canada.

Carl Harmon, the popular young S. P. brakeman, left for Portland Wednesday night, where he will act as extra passenger brakeman.

B. F. Harvey and wife, of Junction City, who have been visiting in this city for the past week, returned home on Monday's overland.

Brakemen C. B. Baker, A. L. Ryan, [illegible] Yardmaster Jas. McGuid and Yardman G. A. Trent are laying off.

Neil Burt who has been holding a position as operator at this place left on Tuesday for Montague, Cal., to act as assistant agent at that place.

Engineer Ed Elliott is reported seriously that the residence of his sister with whom he is visiting in Oakland, California.

Engineer R. C. Morris, who has been running on the overland between this city and Grants Pass for the past four years will hereafter handle the throttle on the Roseburg-Portland overland, taking Engineer Nichols old run, who has charge of a local run made vacant by the death of Engineer Wm. White.

(Ashland Tidings)

John Torrey, the well known S. P. conductor who has been at Bartlett Springs, Cal., recuperating his health for a couple of months, returned to Dunsmuir yesterday, and will resume his run this week.

According to the Redding "Free Press" S. P. Roller, the brakeman who is heir to part of his grandfather's estate in England, as recently published in that paper, is in receipt of a letter from a cousin, J. A. Ryan, of Illinois Central railroad, saying that instead of $30,000, Roller will receive between $60,000 and $70,000 and that he may get the major portion of it within sixty days.

Several of the new passenger coaches, which the S. P. Co. has just received now pass through Roseburg on the overland trains. The cars merits the designation of being first-class day coaches. They are larger than the coaches here before in use, being 63 feet in length; the seats are very comfortable, the backs being higher and in respect to equipment and finishings much superior to the old cars. They are also equipped with a new heater which is causing the brakemen no end of trouble as they have not yet fully learned how to manipulate them.

Supreme Court Decision.

Charles M. Close, respondent, vs. W. S. Riddle, appellant, from Douglas county; J. W. Hamilton, Judge; affirmed. Opinion by Justice Moore.

The principal rule of law laid down in the decision in this case is that where a mortgage provides for the payment of 6 per cent interest, but after maturity 8 per cent shall be paid, the contract is valid and will be enforced according to its terms. The court holds that the higher rate of interest is in the nature of liquidated damages, and not a penalty.

We see by the Thursday's PLAINDEALER that the Looking Glass boys held their own at the shooting match the 14th of February, but the writer had kept on valley and was unable to give the correct report. The Looking Glass boys did fairly good shooting but the out siders walked away with most of the cash. The boys hardly held their own this time, but will do better next time if they have practice, but as a general rule town people are no marksmen.

The pupils of the Ten Mile school purchased a flag and hoisted it at 2 o'clock P. M. on Washington's birthday, followed by an interesting program. An interesting talk was given by James A. Davis, reading of the "American Flag" by John McGuire, Rev Hampton delivered an eloquent address on quote Civil war and the "Flag of our Nation." Mr. Dave Morgan, our P. M. and merchant, moved out the 24th and Mr. A. B. Foster will take possession. Our best wishes go with Mr. Morgan and we wish him success wherever he may go. As yet he does not know where he will go, so he says.

Dr. Wm. Lake is once more able to be around amongst his many friends. In early winter he got over heated from which he took a severe cold, and every since he has been confined to his home until a few days ago.

Mr. J. C. McCulloch, of Myrtle Point, is out at this place the guest of his son, A. E. McCulloch. He seems well satisfied with Coos county and will return to his home this week. UNO.

Get Your Spray Material at MARSTERS.

OFFICE OF A. C. MARSTERS & CO.

Roseburg, Ore., Dec. 8, 1901.

State Chemist, Oregon Agricultural College,
Corvallis, Oregon.

DEAR SIR—We send you by this mail sample of sulphur taken from our stock of spray material. Please make a careful analysis of same and inform us if it is of such standard of purity that it will fill all requirements for making first class spray compounds. If it is not sufficiently pure for such purpose please inform us where we can obtain sulphur which will meet all requirements.

Very respectfully,
A. C. MARSTERS & CO.

OREGON AGRICULTURAL COLLEGE.

Corvallis, Oregon, December 12, 1901.

Mr. A. C. Marsters & Co.,
Roseburg, Ore.

GENTLEMEN:—Your letter concerning sulfur and the sample of sulfur, have been received.

I have examined this sample and find that it is almost entirely pure sulfur. I think that it would answer the purposes very satisfactorily for spraying compounds or insecticides. I think that if you have plenty of this quality, or can get it, that it will be as good as any sulfur that we can obtain for spraying materials.

Very truly yours,
A. L. KNISELY.
