MRS. C. L. HUBBARD, OF DALLAS CURED OF CANCER OF THE WOMB by Dr. Toel by means of ELECTRICITY.

Mrs. C. L. Hubbard, of Dallas, consulted Dr. Toel on June 7th on account of a growth at the mouth of her womb, which a Portland physician had last year declared to be cancerous, and had advised her to have cut out.

Mrs. Hubbard however knowing the uselessnes of the knife in cancer on account of the many returns after cutting operations, could not persuade herself to submit to the knife, and put off an operation from day to day.

In the meantime however the pain in the womb increased and finally caused irritation of the spinal nerves, so that she was suffering from severe pain in the back and neck. In audition she began to suffer from severe pain in both groins. Reading so much about Dr. Toels bloodless electrical operations she finally consulted him on June 7th.

Dr. Toel confirmed the diagnosis formerly made and advised the immediate removal of the cancer by means of electricity, as this would give far better results and not confine her to the bed.

Mrs. Hubbard has not been laid up from the operation but walked every day for a month a mile to the doctors office to be treated with electricity for the pains in her back. She has now been entirely free from pain for a number of days, and her womb having healed perfectly, she was today discharged by the doctor as well.

An account of the operation on her was published in the Dallas papers right after the operation was performed.

But at that time Mrs. Hubbard did not like to have her name given, but allowed Dr. Toel to refer to her for a private interview parties suffering from cancer, as was for instance done in the case of Mrs. Dodge now under treatment for cancer at Dr. Dr. Toels office.

Today however Mrs. Hubbard authorized Dr. Toel to give an account of her case in the papers not only from gratefulness to the doctor but also to help other people that suffer as she has done or have other troublrs that can far better be treated with electricity than with the knife.

TO WHOM IT MAY CONCERN:

I, Mrs. C. L. Hubbard, of Dallas, Oregon, do hereby testify that on June 8th, of the present year, Dr. Geo. L. Toel of Chicago, at present in Dallas, removed from my womb a cancer by means of his immediate, bloodless and almost painless, electrical operations; that I was able right after the operation to walk almost a mile to my home and did this every day for a month, going to and coming from his office, to take electrical treatments for severe neuralgia in my neck, back and groins; and that I am today nearly free from pain and that my womb is entirely healed. I advise all people suffering from cancers and tumors to go to Dr. Toel for his electrical operations, while women suffering from womb troubles and the back aches and pains in the groins caused by them, will find quick relief through his electrical treatments.

MRR. C. L. HUBBARD.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
