CAPITAL WILL MEET LABOR

San Francisco's Big Employers Meet and Decide to Make Peace Overtures

SOME WOULD FIGHT

Declare Exhorbitant Union Demands Kill Profits—United Railroads New Wage Schedule.

San Francisco, May 23—The precipitation a fearful industrial struggle in this city in throwing down the gauntlet to the trades unions by declaring a gigantic lock out of thousands of building craftsmen engaged in the work of rehabilitting San Francisco for a long time hung in the balance yesterday at a meeting of the principal builders and contractors and representatives of the manufacturers. Several speakers declared the only solution of the continual industrial strife in San Francisco was "Open Shop" and urged immediate war upon the unions and a fight to a finish without quarterly ces ation of all building operations until employes would be glad to return to work at wages which builders and contractors could pay without loss to themselves.

Agitor and the exorbitant demands of the unions it was asserted was the cause for the present conditions in San Francisco and the only way to secure industrial peace was to break the backbone of the unionism. Other speakers with equal vigor opposed such radical action and more of labor organizations and pointed the situation. They lead for the rights conciliatory tactics in dealing with out the possible results of such a tremendous struggle between capital and labor. The conservatives finally won and succeded in having a resolution adopted calling for an appointment of a committee of five representing the builders and contractors to confer with the unions with a view of securing peace for at least one year.

A wage scale of 25 to 33 cents an hour according to the length of service is a new scale put into effect today by the United Railroads according to the officials of the company. This is the scale which President Calhoun proposes to pay nonunion employes with which he declares he will here after operate his cars. The old scale was 31 to 33 cents per hour.
