SOMETHING ABOUT THE CREAMERY.

Editor LEADER:—I wish to make a plain statement of some facts and figures concerning the creamery at Toledo, and the butter making business in general. Since the creamery has been established in Toledo there has been more or less talk about the amount of butter made by the creamery being more or less than could be made from the same milk at home. I always thought I could make as much butter as the creamery could, so I thought I would prove it this year. During the month of March of this year we milked eight cows and I made 75 pounds of butter. In April we milked eight cows, but one of our best cows had died and her place was taken by a cow that did not give so rich milk. The amount of the milk was the same, but out of the same amount of milk the creamery made 100 pounds of butter, or just one-fourth more than I could, and I claim to be just as good butter maker as there is in the country. The extra 25 pounds of butter paid for the making of all of it and I had $2.25 left, and did not have any of the work of skimming and churning. The eight cows for April cleared us $2.65 each, and we got all of our skim milk back.

The creamery is one of the best things ever started in this country, and we ought to do more to support it. We have let two or three men bear the whole burden of keeping it up and going, and we ought to be ashamed. There are people all around us here that are letting their calves run with the cows, or are throwing the milk away, and who are too tired to do the small amount of work necessary to take the milk to the creamery. And yet they complain of hard times and try to make a living off of a little potato patch. Any kind of a cow will make a man $2.50 per month clear, and many a man could milk four or five where he is now wasting his time. Everybody ought to milk for the creamery, not only to help it out and the men who are trying to make it a success, but to help out ourselves and put money our own pockets.

MRS. J. T. VINCENT.

Agent Gaither began the payment of interest money to the Indians on the Siletz Monday. After four or five checks had been issued the Indians struck and refused to take the checks, claiming that they did not cover all of the interest money due. This was a self evident fact, but as the Agent's instructions were iron-clad and he had been obeying them to the letter, an adjournment was had until a telegram could be sent to Washington about the matter. This was done and on Tuesday an answer was received from the department stating that the appropriation was only sufficient to pay the portion of the interest money tendered, and that the balance would have to be paid out of some future appropriation. This patched up matters, the Indians declared the strike off, and Agent Gaither proceed to continue the free and unlimited issuing of government checks.

In combination, proportion and process Hood's Sarsaparilla is peculiar to itself, and unequalled in true merit.

No other medicine ever possessed so much curative power, or reached such enormous sales, or made such wonderful cures, as Hood's Sarsaparilla.

It is undoubtedly the best medicine ever made to purify, vitalize and enrich the blood.

That is the secret of its success.

Read this statement:

"When my son was 7 years of age, he had rheumatic fever and acute rheumatism, which settled in his left hip. He was so sick that no one thought there was any help for him. Five sores broke out on his thigh, which the doctor said were

Scrofula

sores. We had three different doctors. Pieces of bone came out of the sores. The last doctor said the leg would have to be cut open and the bone scraped, before he could get well. Howard became so low that he would eat nothing, and one doctor said there was no chance for him.

"One day, a newspaper recommending Hood's Sarsaparilla was left at our door. We decided to try this medicine. Howard commenced taking it the last of February, after having been sick for a year and a

Cured

half. He hadn't taken it a week before I saw that his appetite began to improve, and then he gained rapidly. I gave him five bottles, when the sores were all healed and they never broke out again. The crutches he had used for four years were laid aside, as he had no further use for them. I give all the credit to Hood's Sarsaparilla." MRS. ADA L. MOODY, Fay Street, Lynn, Mass.

thin baby

Poor baby! Your pity goes out to it and rightly. To be thin, for a baby, is to be deprived of its natural ease; to suffer and not be able to feel it; to wear a sad pinched face; to live on the edge of sickness; to grow imperfectly; and to lose the power of resisting disease. When a baby is thin it needs more fat than it gets from its food; it is starved, fat-starved. Scott's Emulsion is the easiest fat it can have; the fat it needs. Half of

Scott's Emulsion

is taken by babies. Mothers like it because it brings the dimples back.

SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. (Ask your doctor.) This is because it is always *palatable*—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites.

Insist on Scott's Emulsion with trade-mark of man and fish.

Put up in 50 cent and $1.00 sizes. The small size may be enough to cure your cough or help your baby.
