When the Hair Falls Out

accompanied by mucous patches in the mouth, eruptions on the skin, sore throat, copper colored splotches, swollen glands, aching muscles and bones, the disease is making rapid headway, and far worse symptoms will follow unless the blood is promptly and effectually cleansed of this violent destructive poison.

S. S. S. is the only safe and infallible cure for this disease, the only antidote for this specific poison. It cures the worst cases thoroughly and permanently.

My Condition Could Have Been No Worse. In the fall of 187 I contracted Blood Poison. I tried three doctors, but their treatment did me no good. I was getting worse all the time; my hair came out, ulcers appeared in my throat and mouth, my body was almost covered with copper colored splotches and offensive sores. I suffered severely from rheumatic pains in my shoulders and arms. My condition could have been no worse; only those afflicted as I was can understand my sufferings. I had about lost all hope of ever being well again when I decided to try S. S. S. but must confess I had little faith left in any medicine. After taking the third bottle I noticed a change in my condition. This was truly encouraging, and I determined to give S. S. S. a thorough trial. From that time on the improvement was rapid. S. S. S. seemed to have the disease completely under control; the sores and ulcers healed and I was soon free from all signs of the disorder. I have been strong and healthy ever since.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Cicily, a shorthorn cow recently of the Queen Victoria herd in England, was sold in Chicago last Thursday for $5000, to J. J. Robins & Sons, of Horace, Ind. The animal cost Queen Victoria $4000 a few years ago. Twenty other cows and bulls realized an average price of $1320. These are record figures for shorthorn cattle for the last twenty-five years. The sales were made by W. B. Flatt, of Hamilton, Ont., who recently imported the herd from England.

To remove a troublesome corn or bunion: First soak the corn or bunion in warm water to soften it, then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily; rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the shoe. As a general liniment for sprains, bruises lameness and rheumatism, Pain Balm is unequaled. For sale by Conser & Ayers Druggists.

Men just in from the southern part of Crook county report several bands of Warm Spring Indians camped at various watering places on the "desert," and that they are slaying deer by the score.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mrs. S. E. Phipps, of Poteau, Ark. "It cured me of bloody flux, I cannot speak too highly of it." This remedy always wins the good opinion, if not praise, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere. For sale by Conser & Ayers, Druggists.

Stock in all parts of the state is reported as being in better condition now than ever before. Stockmen are sanguine that the losses this winter will be very small.

When you feel that life is hardly worth the candle take a dose of Chamberlain's Stomach and Liver Tablets. They will cleanse your stomach, tone up your liver and regulate your bowels making you feel like a new man. For sale by Conser & Ayers Druggists.

The amount of scalp bounty warrants issued by Wasco county during the two months ending October 31 is $502. This is less than the two corresponding months of last year.

Chamberlain's Stomach and Liver Tablets cure biliousness, constipation and headache. They are easy to take and pleasant in effect. For sale by Conser & Ayers Druggists.

A VILLAGE BLACKSMITH SAVED HIS LITTLE SON'S LIFE.

Mr. H. H. Black, the well known village blacksmith at Grahamsville, Sullivan Co., N. Y., says: "Our little son, five years old, has always been subject to croup, and so bad have the attacks been that we have feared many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by Conser & Ayers, Druggists.

OREGON NOTES.

Pendleton and Walla Walla will experience a fuel famine this winter. The wood cut at Meacham, the supply point of Pendleton and Walla Walla is 3000 to 5000 cords short. The shortage is due to scarcity of laborers in the wood camps during the past season. Wood now sells for $6 a cord in Pendleton.

There are 20,000 people in the Yukon Territory; and the population of Dawson City is approximately 8000. Major H. J. Woodside, of Dawson, the Dominion Government Census Commissioner is authority for these figures.

R. R. Hinton of Bakeoven, purchased of the Gilman & French Livestock Company, 206 head of yearling heifers of the Shorthorn and Hereford breeds, which were delivered Sunday says the Shaniko Leader. The entire bunch were fine, large healty looking animals. The price paid was $18 per head, delivered at Shaniko. Mr. Hinton has also purchased four fine Shorthorn bulls. He is now one of the principal sheep owners in Wasco county, and with this purchase of cattle added to those he already posesses he will be in the front ranks as a cattle owner for this section of Oregon.

It is the intention of the French-Glenn Livestock Company, which has such extensive land and cattle interests in Southeastern Oregon, to dig a large ditch and drain some 65,000 acres of land known as the Blitzen Swamp, in Harney county. F. C. Lusk, the general manager of the company, who has his headquarters at Chico, Cal., says the ditch will be 60 feet wide and nine feet deep, and will follow the course of the Donner and Blitzen river for a distance of some 30 miles. It is expected that the work will cost the company at least $50,000; but when dug the ditch will drain an area 25 miles long by seven miles wide, and the whole of it will be rich grazing and hay land. It is the intention to follow the general course of the river in the construction of the work, and the estimate is made that it will take two years to dig the ditch.

New Demand For Horses.

Mexico, finding that country short of horses for almost every purpose, has lately repealed the duty on the importation of horses. It is related that she is short of horses, like the United States is, and horses she must have, not only for military purposes, but the ordinary civilian walks of life. The fact is that Mexico has not horses enough in one department of her business. Her cattlemen have not enough; of high class horses she has hardly any at all; of truck and business horses the supply is woefully inadequate. Her merchants and haciendados must have horses.

Then Mexico is very prosperous. Immense amounts of foreign capital are being poured into her banks, merchantable houses, mines and fields. Her exports are increasing. Only her luxuries are imported, and they are well covered with a high tariff. All her poorer people need to eat and wear comes from her own soil, but with all her prosperity she needs horses.

Therefore another market is opened to American horsebreeders, and, what is more, a market where the less valuable grades of our horses will be wanted. We can well afford to part with many of the horses Mexico will buy within the next few years.

RED FRONT STABLE.

Proprietor S. F. Chronicle,
SAN FRANCISCO, CAL.

The sheep men of Utah and neighboring states are happy these days over the improved conditions of winter pasturage. A few weeks ago prospects were more gloomy than otherwise. The ranges were dry, the price of hay was high and browsing short. But gentle rains came and extended more or less over the entire Great Basin area until the ground was well soaked. Then came a spell of warm weather, during which grass sprouted rapidly on the south sides of hills and slopes and under the brush until a pasturage almost as good as that of early spring time exists. Mr. John C. Sharp, who is a large owner of sheep both in this state and Idaho, declares that the ranges in this respect are better than for many years past and that sheep are putting on flesh very rapidly and getting into good condition for winter. A great number of flocks have been driven onto the deserts, but have not ventured very far beyond the water courses on account of the non-existence of snow upon which the sheep must depend during the winter season.
