Mrs. Margaret Day, widow of the late Andrew Day, died at St. Vincent's hospital, Portland, of pneumonia. Mrs. Day was a native of Ireland and was 70 years old. She was married on Sullivan's Island, the historic site of Fort Moultrie, in 1848. Two sons, Detective Joseph Day and William Day, of Portland, and a daughter, Mrs. Murdock McDonald, of Arlington, survive.

NO LOSS OF TIME.

I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are working this morning.—H. R. Phelps, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single days' time. You should keep a bottle of this Remedy in your home. For sale by Slocum Drug Co.

John R. Johnson, of Drewsey county, surveyor of Malheur county, committed suicide by shooting himself in the head with a revolver. Mr. Johnson was at one time foreman of the Harper ranch for the P. L. S. Co. and was one of the best known men in this section of the state. He brooded over the death of his son from smallpox about a year ago.

SCIATIC RHEUMATISM CURED AFTER FOURTEEN YEARS OF SUFFERING.

"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale by Slocum Drug Co.

The University of Oregon defeated the University of Washington at Seattle, in the third annual intercollegiate debate. The feature of the debate was Allen Heaton's work for Oregon. In logic and eloquence he surpassed all other speakers.

WHOOPING COUGH.

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—Jessie Pinkey Hall, Springville, Ala. This remedy is for sale by Slocum Drug Co.

The 2-year-old child of Mr. and Mrs. Merry fell in the state ditch near Red Pepper school house, near La Grande, and was drowned. The body has not been recovered.

Charles Savage, charged with the larceny of $10,000 worth of diamonds from the Portland hotel in November last, was acquitted by a jury in Portland Saturday.

Baker City's streets are to be lighted by electricity before October 1. At present the streets of that town are not lighted, as the council considered the city too poor to stand the expense.

SPLENDID SHOWING.

Growth of Foreign Commerce of United States During 1901.

Rapid Pace of This Country in the Great Race for the Supremacy in the Trade of the Largest Markets of the World.

The important document entitled "Review of the Foreign Commerce of the United States in 1901," showing the pace at which this country ran during the last calendar year in the great race for supremacy in trade in the world's markets, has been made public by Frederic Emery, chief of the bureau of foreign commerce of the state department.

It is stated that the commercial reports of our diplomatic and consular officers last year record continued growth in the sales of many lines of manufacture from the United States in foreign markets and the increase of the general concern throughout Europe as to the possible results of our industrial competition. Although the figures of our exports compiled by the treasury department show a considerable falling off in the total value of manufactured goods sent abroad, it is stated there seems to be a steady and uninterrupted spread in the popularity of what may be termed American "novelties," all over Europe. By the word "novelties" are meant not only labor-saving implements and machinery which are strange to most Europeans, but a great variety of articles of merchandise, all of which possess distinguished points of excellence and relative cheapness, new to Europe, which commend them to purchasers there in preference to similar articles of home manufacture. In other words while the aggregate of our exports of manufactured goods has shrunk, the variety of our sales in Europe is being extended and the territory upon which they are encroaching is being constantly enlarged. A striking example of this is in Austria-Hungary, where imports from the United States are increasing rapidly. That country originated the idea of a European combination against America in trade and there the hostility of the industrial classes is most pronounced. The United States again heads the list of countries selling to Germany and is causing the economists of that nation much concern. Indeed, it is pointed out, this same concern is felt in France, Great Britain, Belgium, Switzerland, and the other highly-developed manufacturing countries of Europe. It is shown to be a fact that we are now supplying European nations with goods which have for years been distinctive of the countries themselves and which we used to import from them. We export silk to France, tin plates to Wales, cottons to England, and our California fruit is making such headway in Spain as to provoke the query in a Spanish newspaper: "Shall we live to see American oranges on the Valencia market itself?" In Belgium, more American goods are being consumed then ever before.

CHILDREN WIN ELECTION.

Allegheny (Pa.) Boys and Girls Induce Parents to Choose Their Favorite as School Director.

School children of the Fifth ward, Allegheny, Pa., elected a school director in the recent municipal election by a handsome majority through their parents. Miss Kate Cassatt McKnight is the only woman elected school director in Pennsylvania.

The nomination came unsolicited and she did not canvass for a vote. She left it with the school children. She has been their friend since she was a girl and entertains the school children of her ward each year. This lined up the Young Men's Civic club on her side and she beat the machine candidate.

Miss McKnight is vice president of the State Federation of Women's Clubs, is secretary of the local D. A. R. and a leading society and club woman. All her ancestors have been leaders in Pittsburg since its founding and one of her grandfathers was the first mayor of Pittsburg. She says that being unmarried, she can enter heart and soul into her duties as school director.

IRISH CHURCHYARDS.

Walls and Head-Stones Ivy-Grown and Crumbling Mute Witnesses of Neglect.

How old they look, those Irish graveyards! Their walls are ivy-grown and crumbling. The trees that encircle them bear all the evidences of age whilst those that stand here and there within are stunted and bare and well-nigh sapless, says a writer in Donohoe's Magazine. The head stones are, for the most part, simple in design and uniform in character. On many of them, time in its wearing and corroding passage has effaced the epitaph, the stone has become discolored, and a coating as of withered moss adheres tenaciously to its surface. Most of them stand with a fair degree of erectness; but there are many that are slanting, as if oppressed or weary to do further duty above the graves. The surface of the churchyard is uneven, so many lie buried there and surrounded and unequal are the mounds above them. Strange to say, although a tender and endearing remembrance of their departed is characteristic of the Irish peasantry, they very rarely embellish the silent, sacred cities of their dead.

Artificial Marble.

Manufacturers are actually making marble by the same process by which nature makes it, only in a few weeks instead of a few thousand years, says the London Builder. They take a rather soft limestone and chemically permeate it with various coloring matters, which sink into the stone and are not a mere surface coloring, as in sengliola. The completed material takes a fine polish, and many of the specimens are of beautiful color and marking. Used as a veneer it is about one-third the price of nature's marble.

Health is a magnet which irresistibly draws the man to the woman in life's mating time. Health does more than tint the skin with beauty; it puts music into the voice and buoyancy into the step, as well as happiness into the heart. A great many women covet beauty and are constantly seeking aids to beautify them. Let a woman first seek perfect health and all other charms shall be added to her.

There can be no general health for women while there is disease of the delicate womanly organism. The first step to perfect health is to cure womanly diseases by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I used four bottles of your Favorite Prescription and one of Golden Medical Discovery," writes Mrs. Elmer D. Sheaver, of Mountnope, Lancaster Co., Pa., "and can say that I am cured of that dreaded disease, uterine trouble. Am in better health than ever before. Everyone who knows me is surprised to see me look so well. In June I was so poor in health that at times I could not walk. To-day I am cured. I tell everybody that Dr. Pierce's medicines cured me."

FREE, Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.
