The Executive committee of the Toledo Development League was instructed at the last meeting of the league to see what they could do in the matter of securing a ferry across the bay from Toledo to the terminus of the Waldport and Glen roads. F. J. McElwain has made them a propisition to run a ferry making trips at stated hours three periods in the day, viz: morning, noon and night all travel arriving at these hours to be carried free, for which he asks $500 per year. All travel arriving between this stated hours he is to charge a fee for operating the ferry. The Committee went before the Commissioners' Court, at its special meeting last Monday, with this proposition and asked that they furnish $300 per year toward the maintainance of this ferry, which they agreed to do. There has been no definate action taken in the matter as yet but it will be brought up at the next meeting of the League.

John Christiansen who has a ranch up Depot slough has just completed what we believe to be the largest and most up to date barn in Lincoln county, and it certainly would be a credit to any county. The timbers for the barn have all been hewed out and are large and substantial. They are not hewed in a shipshod fashion but are true and smooth. The dimensions of this barn are 40x80 feet. Thirty five thousand feet of lumber was used in its construction, which is no small item in itself. The barn is equipped with a patent hay fork and track, also a patent refuse carrier which runs on a wire the full length of the barn inside and then off to a distance outside where the manure is dumped. The barn is arranged to stable forty cows, has a plank floor and will hold almost any quantity of hay. The building of this barn goes to show that Mr. Christiansen has great faith in the future of this country.

A large amount of building is to be done in Toledo this year. A number of buildings are now under construction and more will start soon. W. E. Ball is getting the lumber on the ground for a new house. G. B. McCluskey has the frame of his house nearly completed. C. H. Gardner has just completed a large new addition to his house. A. D. Perkins has a house under construction. J. S. Akin is also building a new house which will soon be completed. R. D. Burgess, A. M. Gildersleeve and A. H. Weber are clearing their lots preparatory to building.

Yes, it can be done. The Wilhelmina came up the river without being stuck on some of those terrible rock bars. She did not have to wait for high water, either. How about the impossible channel?

WHY SALVES FAIL TO CURE ECZEMA

Scientists are now agreed that the eczema germs are lodged not in the outer skin or epidermis, but in the inner skin. Hence, a penetrating liquid is required, not an outward salve that clogs the pores.

We recommend to all eczema patients the stanard prescription Oil of Wintergreen as compounded in liquid form known as D. D. D. Prescription. A trial bottle of this D. D. D. Perscription at only 25 cents, will instantly relieve the itch. We have sold and recommended this remedy for years, and known of wonderful cures from its use, we recommend it to our patrons. American Lady SHOE

HAMILTON-BROWN SHOE CO. LARGEST IN THE WORLD

Every woman likes a trim and shapely foot. Unfortunately many, in the mistaken belief that they are making their feet look smaller, get shoes that do not fit them. The result is the opposite of that intended.

A woman's foot is naturally shapely—there remains nothing for her to do but to clothe her foot in a shoe that will follow perfectly its graceful lines—in short a shoe that fits.

The surest way to have a trim and shapely foot is to wear the

American Lady Shoe

It is made on graceful lines that follow the form of the foot. A great variety of styles and sizes make it possible for any woman to be fitted in a style that pleases her fancy.

Come in and see the new styles for Fall and Winter, and let us fit you in a shoe that is suited to you. We carry a large line of American Lady Shoes in many styles, sizes, shapes and leathers.
