FATALLY WOUNDED IN COLD BLOOD

Chicago Man Shot While Performing Gallant Act.

VICTIM WAS A STRANGER

William Harris Shot Three Times by Michael Varlos, a Greek Waiter. Harris Attempted to Rescue Woman's Purse and Umbrella.

CHICAGO, July 2.—While attempting to recover an umbrella and purse belonging to a young woman who was a stranger to him, William J. Harris was shot and fatally wounded last night by Michael Varlos, a Greek. As his victim fell to the floor, Varlos dropped his revolver and fled, pursued by a number of men who had seen the shooting. He has not been captured.

The affray occurred in an ice cream parlor in which Varlos is a waiter. Half an hour before the shooting Varlos had quarreled with a woman and her escort who had entered the place. A fight followed between the men, during which Varlos was struck over the head with an umbrella by the woman. She then ran out the door, leaving the umbrella and her purse behind. Just outside the door she met Harris who inquired the cause of her excitement. She told him and he offered to return and secure the umbrella and the purse. Entering the store he demanded the return of the woman's property. Varlos told him to step to the rear of the store and he would give him the articles. The Greek then walked behind a counter and drawing a revolver from a drawer deliberately fired it three times at Harris.

Two bullets entered the breast and one the abdomen. Harris is a machinist from Pittsburg.

AUDITORS IN CONFERENCE.

Efforts Being Made to Have Harriman's Big Systems Work in Harmony.

OMAHA, Neb., July 2.—The conference of railway auditors connected with the Harriman interests, which began yesterday, was continued today at the office of Erastus Young, general auditor of the Union Pacific. The entire auditing staff of the Southern Pacific road are here and together with similar officials of the Union Pacific are making an exhaustive study of all the auditing departments.

The ticket, freight and disbursement offices are being taken up separately, and the systems of auditing the accounts of both roads are to be made uniform in order that the big systems may work in harmony.

ORDERS FULL INVESTIGATION.

Complete Examination of the Books of the Seventh National.

WASHINGTON, July 2.—Comptroller Dawes today sent the following telegram to Ferret Raynor, receiver of the Seventh National Bank of New York:

"Confirming my telephone to you today, if, after careful and complete examination of the books of the Seventh National Bank, you find no evidence of criminal violations of the national banking act, you will ask the United States district attorney to make a thorough investigation on his own account, affording him access to the books of the banks for that purpose."

SAYS CUBANS ARE GRATEFUL.

Havana Lawyer Says Relations Between Cubans and Americans Are Friendly.

NEW YORK, July 2.—Gonzalez Jefric, a lawyer of Havana, Cuba, is spending a few days in this city on his way to the Pan-American exposition in Buffalo, where he proposes remaining for three months as a special representative of the native island. He said in the course of an interview about Cuba:

"The political situation could not be better. All the representatives of the different parties of the constitutional convention and in perfect peace and harmony with the American government the Cuban people will endeavor to lay the foundation of their future republic. The opposition manifested to the Platt amendment at first was the result of a misapprehension. Relations between Cubans and Americans are friendly. Because the opposition was very violent you may take it for granted that the Cuban people never dissemble. They speak out freely and if now they are on excellent terms with the Americans it is because they really feel gratitude and respect toward their great neighbor and preserver."

EARLY MORNING FIRE.

Two Killed and Several Injured in Lodging House Fire in Butte.

BUTTE, Mont., July 2.—Two dead, two severely if not fatally injured and a score or more, more or less hurt, is the result of a fire which broke out at the Pullman lodging house, 114 West Mercury street, at 2 o'clock this morning. The dead are:

SAM MIX, waiter, Missoula, Mont.

OLE BERG, carpenter, Butte.

Severely injured: Billy Ryan, better known as "Australian Ryan," a pugilist well known throughout the Northwest, jumped from third story window, seriously injured about the head and limbs.

— Camp, jumped from a thirty story window, internally injured and cut about the head.

Miss Crystal, proprietress of the lodging house, burned about the body and injured from inhaling smoke.

A number of men were experimenting with a gasoline lamp in a saloon on the lower floor of the lodging house when the lamp exploded, scattering the flames in all directions. The building was a wooden structure and before the fire department arrived the flames had eaten through the lower floor and were spreading to the upper stories. The lodging house contained about 100 guests, none of whom were able to save anything except what they wore. Most of them escaped by jumping from the first and third story windows and it is miraculous that more were not killed. A number were carried out unconscious by the firemen but so far as known all will recover. It is not believed that any excepting the two mentioned perished. The property loss is about $4000 with no insurance.

ABSCONDER AT LARGE.

Receiving Teller of a Philadelphia Company Disappears.

PHILADELPHIA, July 2.—William E. Douglass, until recently an assistant to the receiving teller in the Guarantee Trust & Safe Deposit Company, of this city, has disappeared owing the institute $13,000, which loss is covered by a Baltimore Surety Company.

Douglass resigned his position a few weeks ago. He was placed under detective surveillance but escaped.

OCCUPATION OF NEW CHWANG.

Instructions Awaited by Ministers From Their Home Governments.

LONDON, July 2.—A dispatch from Pekin says:

The installation by Russia of a civil administration in New Chwang, Manchuria, has again made prominent the question of occupation of that province by the Russians. Some of the powers have already recognized the administrator, but the ministers of other nations are doubtful as to the course to be followed in the matter and are awaiting instructions from their home governments.

Among those thus awaiting instructions is the representative of the United States. It is understood that Russia and Japanese ministers will be opposed to Li Hung Chang's scheme for opening Manchuria to the world in such a way as to constitute effectual barrier to Russian aggression and thus avoid trade and other complications that are otherwise bound to follow a Russian occupation. The matter has not yet been presented to the court.

ASQUITH WILL ATTEND.

Accepts Invitation to Banquet Tendered by Imperialist Liberals.

LONDON, July 2.—Herbert H. Asquith, ex-Liberal home secretary, has consented after considerable hesitation to attend the banquet tendered him by the Imperialist Liberals. In a letter accepting the honor he promises to deliver a speech at dinner setting forth the claims and duties of the Liberal party and his view that "there is an alternative to the existing government."

This banquet is regarded as a severe reflection upon the policy of Sir Henry Campbell-Bannerman, and Mr. Asquith's action is looked upon as a bid for the Liberal leadership. The strenuous efforts have been made to prevent the project being carried out, but these have failed and a complete split of the Liberal party appears to be inevitable. Great irritation is observed in the Liberal ranks.

SAN FRANCISCO, July 2.—The Denver & Rio Grande railroad and the Rio Grande Western railway offices in this city are to be consolidated. In the future Fred Thompson will act as general passenger agent for both roads and W. J. Shotwell will act as general freight agent.

AHEAD OF ENGLISH CREWS.

Opinion of British Expert on American Oarsmen.

LONDON, July 2.—W. C. Woodgate, a rowing expert sums up the Henley regatta prospects in the St. James Gazette. He thinks Leander will win and says the Pennsylvanians "go fast enough to win trial heats; but, we hold to the view that their style should be [illegible] by the more orthodox style of Leander."

Woodgate, like the Times, which says the trainer treats the crew like prisoners, comments on the severe regime of the Americans who "seem to be under lock and key like delicate favorites." He admits that they "seem to be as hard as nails, trained to the hour and far ahead of all English crews in the matter of condition."

THE GIFT APPRECIATED.

Capital Returns With Mother Country Again Extolled.

LONDON, July 2.—The editorials in the morning papers express keen appreciation of Mr. Baker's gift of the hospital ship Maine. The Daily Chronicle after recalling to the time it was a ship in Boston harbor which caused the great quarrel between Britons and Americans and the further fact that the Alabama nearly brought the two nations to blows again, says:

"It is a ship which, in Mr. Baker's graceful phrase, is an emblem of the cordial relations existing between the citizens of the United States and those of the mother country."

Great Britain and America will have to cultivate the art of forgetting but Great Britain will remember the Maine."

United States Official Report

MADE TO

COMMISSIONER OF THE UNITED STATES GENERAL LAND OFFICE, WASHINGTON, D. C.

by a geologist and mining expert of worldwide reputation, Professor Benjamin Silliman, who spent several months there then being connected with the United States surveying corps, and in his official report says:

"Here are countless millions of tons of rich gold quartz reduced by the great forces of nature to a condition ready for the application of the hydraulic process, while the entire bed of the Rio Grande for over forty miles is a sluice, on the bars of which the gold derived from the wearing away of the gravel banks has been accumulating for countless ages and now lies ready for extraction by the most approved methods of river mining. The thickness of the Rio Grande gold gravel exceeds in many places 600 feet, or nearly three times that of the like beds in California, while the average value per cubic yard is believed to be greater in the New Mexico beds than in any other such accumulations yet discovered.

"I have made a reconnaissance of the whole of this gravel along the Rio Grande, and have examined with all the care possible in the time at my command the character of the gravel and its contents of gold. Nothing, I am persuaded, since the discovery of California and Australia is comparable for its immeasurable resources of gold available by the hydraulic process to the deep placers of the Rio Grande."

Other reports from eminent mining experts of national reputation pronounce the property of this company the richest and most extensive known.
