—Mr. Conn will probably open his new drug store next week, in the new building just erected by J. Wm. Welch, on the corner of West Eighth and Water streets. The street has been widened to its full width, and presents a good appearance.

Shall Astoria be Bonded?

"Subscriber" writes to good purpose, but no communication will be inserted in this paper unless accompanied with the name of the writer. Not for publication, but for personal information. We regret that "Subscriber failed to do this, the subject of bonding the city is a fruitful theme. His idea that we should do so for the sole purpose of building a sea wall in front of the city,—even to the exclusion of water works, gas, or anything else; is certainly worthy of careful consideration. Correspondence is solicited upon this subject from taxpaying citizens of Astoria, but send in your names with the correspondence that we may know with whom we are conversing.

To All Concerned.

We wish that everybody in Astoria who believes in the safety of earthenware tile as a substitute for chimneys could, or would, call at H. S. Shuster's building to-day, and see how utterly unsafe it is. Much of this has been used in Astoria, contrary to ordinance, but has been tolerated through a spirit of kindness; and we predict that this same kindness will cost the city heavy losses by fire. Call and see for yourselves, gentlemen. The flue in question endangered the whole block night before last.

Buy the Weekly.

THE WEEKLY ASTORIAN for this week is full of just such information and news of the country as your friends in the east want to see. It has very few advertisements, and is chock to the muzzle of information that no family can successfully squeeze along without. Two dollars will buy the whole wad for a year. $1 50 for six months, or ten cents per copy.

—Page & Allen yesterday received some of the finest Early-rose and Princess potatoes in the country. They were produced near Knappa.

—People go to Walla-Walla from The Dalles now in the same time—6 P. M. to 5½ A. M.—that was formerly consumed asleep on board a steamer at Des Chutes.

—Black Dick, who was recently hanged at Ainsworth, tried to knife an army officer at Boise city three years ago, and has been ordered out of every prominent mining camp in Idaho.

—A ranchman who wants help writes to us: "Where are all of those chaps who want to drive the Chinamen out of the country? I paid a white man wages all winter, and when I had anything to do he sloped."

—The Albany Herald is informed that Dr. Poppleton has been bound over in the sum of $2,000 to appear before the next grand jury on a charge of perjury in his testimony in his recent suit with Yamhill county.

—Dan. J. Ingalls yesterday sent us a small can full of fresh buttermilk. Dan knows our weakness. Hear him: "I send you a small can of buttermilk. It is fresh and pure; I don't put any drugs in to color the butter. If I had a five-gallon can I should be able to send you a dose."

—J. B. Knapp has tendered his resignation to Governor Jewell as a member of the board of pilot commissioners of Washington territory for the Columbia river. His resignation has not yet been accepted and no successor will be appointed until the next meeting of the board.

—Residents of Waldo hills say that there is a wild dog in the hills which lives with coyotes. These latter animals only kill the lambs of sheep, but the dog generally eats off a ham or shoulder. The dog has been seen several times, and is supposed to be even more destructive than the coyotes.

—Capt. Alexander, of the Idaho, informs the Post, that on the morning of sailing out of San Francisco, he was told by Mr. Jackson, that there would be one hundred emigrants ready to sail to Seattle on that afternoon or the day following. The Post wants to know who they are! Immigrants of course. More are coming.

—Purser Hughes of the Sitka steamer reports that they left San Juan island on the 20th. When within forty miles of Cape Flattery a terrible storm overtook them, during which time they had to throw overboard 600 barrels of lime which caught fire. They crossed the bar at ten o'clock yesterday morning while it was blowing a regular gale with a very heavy bar. The California brings form Sitka ten Indian boys, on their way to Forest Grove to school, to be educated by Uncle Sam.

—It is said that the scene which presented itself on board J. W. & V. Cooks mess-house scow, when she broke from her moorings Thursday at Sand island, were almost indescribable. Everything breakable on board was broken by the wild pitches which the boat made, and the men fearing that they would go to sea were in a furious state of excitement. It is said that it was one of the largest prayer meetings ever assembled on board of a scow in the Columbia river. There were between fifty and sixty men on board at the time.

Clearing Oregon Stumps.

The Oregonian describes the method of clearing out Oregon stumps in Clackamas: "On Saturday last F. W. Youmans, in blasting stumps out of a lot near his residence, put a heavy charge into a large stump some eight or ten rods from the house, and exploded it with telling effect. A section of the stump, nearly one-half, was blown out, and striking the end of his story and a half residence, mashed a hole into it considerable larger than the stump; it then rebounded, striking a picket fence some three rods away and demolishing a section of it. Mr. Youman's family, a wife and two children were in the room near where the stump struck, and although they were not hurt, they will hereafter go to the neighbors when a charge is discharged."

—P. Wilhelm, Boss saloon, opposite the Clarendon hotel, Portland, Oregon.

—The boat stoves made by M. C. Crosby, with fire-brick bottoms, are superior to all others in this market.

—Prices for cannery and fishermen's supplies have been slaughtered at M. C. Crosby's.

—Go to M. C. Crosby's and get your lunch buckets, water kegs, bailers, buoys and boat stoves.

—Ice cream at Roscoes oyster and refreshment saloon on Main street.

—P. J. Goodman, on Chenamus street, has just received the latest and most fashionable style of gents and ladies boots, shoes, etc.

—Since the Chinese started to brew "cheap San Francisco beer" there is little or no demand for that article any more. Call for the Columbia brewery beer, if you want something good.

—Fire-brick and fire-clay in lots to suit at M. C. Crosby's.

—Messrs. Wm. Pfunder & Co., of Portland, are the leading druggists of that city, and have one of the handsomest stores on the Pacific coast. This is the firm that manufactures the Oregon Blood Purifier and other medicines.

—Frank Faber has removed into Dr. Kinsey's building on Water street. On the road to the steamer dock from down town, before breakfast, it will now be handy to drop in and get a cup of coffee.

—Miss Lizzie Norris has arrived and is ready to receive a limited number of pupils for tution on the piano. Call at Mrs. Holdens, or on F. C. Norris, ASTORIAN Office.

—Mr. John Rogers, of the Central Market, has made arrangements to keep all the finest fresh fish, etc., in their season.

—Max. Wagner's San Francisco National brewery beer can't be beat.

—Dr. John Welch, dentist, will be at the Occident hotel in this city about the 20th inst., and remain a short time for the practice of his profession.

—For a first-class oyster stew, fry, pan-roast or fancy roast, go to Roscoe's on Main street, opposite N. Loeb's. Families supplied by the hundred or the sack, opened or in the shell.

—For the Genuine J. H. Cutter old Bourbon, and the best of wines, liquors, and San Francisco beer call at the Gem opposite the bell tower, and see Campbell.

—John Rogers has just received at the Central market a large invoice of coal oil, assorteds brand, and for sale at reduced rates. He also keeps a general assortment of groceries, liquors, tobacco, cigars, fruits and vegetables of best quality, which he offers at small profit for cash.

—If you want a good hot cup of tea, coffee, or chocolate after your nights fishing call at the Fair Wind chop house where you will get it, and don't you forget it.

—When you want a dish of nice Eastern Oysters done up a la mode, or a good steak, or a fragrant cup of coffee, call at Frank Fabres on the roadway, and he will accommodate you. Open at all hours.

GENERAL EASTERN NEWS.

BY MAIL AND TELEGRAPH.

Explosion at Binghampton.

BINGHAMPTON, April 21st.—About 7:30 this morning two terrible and almost simultaneous explosions occurred from nitro glycerine in the nitric vaults of the Ditmar powder works in this city. About five minutes afterward 10,000 pounds of sporting powder in a storehouse about 100 feet from the nitric vaults ignited and caused another terrific explosion. The buildings were demolished and scattered in every direction and property destroyed for miles around, fences blown to splinters, trees uprooted, many buildings in the neighborhood badly shattered and windows three miles away blown out by the concussion. The shock was distinctly felt forty miles away; no one seriously hurt.

Flashes From the Wires

The New York Herald thinks Garfields is A Beached Administration. Worse things have happened.

Hon. W. A. M. Grier, nominated for third assistant post-master general, is the Pennsylvanian who cast the first vote for Garfield in the Chicago convention and could not be suppressed. He never held office before.

Baron Puttkamer is considered a bad egg—too bad for America; and authorities will try and persuade him not to land on arrival at New York.

The Missouri river is higher now than at any former time this season. Great damage is liable to result.

Give him a call, boys, he keeps the best brands of tobacco and cigars. Water street, opposite O. R. & N. Co.'s Dock.

Peruvian Bitters.

Cinchona Rubra.

The Count Cinchon was the Spanish Viceroy in Peru in 1630. The Countess, his wife, was prostrated by an intermittent fever, from which she was freed by the use of the native remedy, the Peruvian bark, or, as it was called in the language of the country, "Quinquina." Grateful for her recovery, on her return to Europe in 1632, she introduced the remedy in Spain, where it was known under various names, until Linnæus called it Cinchona, in honor of the lady who had brought them that which was more precious than the gold of the Incas. To this day, after a lapse of two hundred and fifty years, science has given us nothing to take its place. It effectually cures a morbid appetite for stimulants, by restoring the natural tone of the stomach. It attacks excessive love of liquor as it does a fever, and destroys both alike. The powerful tonic virtue of the Cinchona is preserved in the Peruvian Bitters, which are as effective against malarial fever to-day as they were in the days of the old Spanish Viceroys. We guarantee the ingredients of these bitters to be absolutely pure, and of the best known quality. A trial will satisfy you that this is the best bitter in the world. "The proof of the pudding is in the eating," and we willingly abide this test. For sale by all druggists, grocers and liquor dealers. Order it.

—Gray's wood yard is now fitted up on the wharf foot of Benton street, and prepared to deliver wood to any part of the city sawed to any length, and full measure.
