Starving Indians.

Governor Warren, of Wyoming, has returned to Cheyenne from a visit to the Wind river reservation, where he learned the following startling facts: Two thousand Indians, occupying Wind river reservation, just south of the Yellowstone National park, in this territory, are actually in want, many will die of starvation before spring. Their beef ration is but three-fourths of a pound per capita, as against a pound and a half issued to each Sioux. Then these Indians receive their meat on hoof in the fall, subject to shrinkage, which is often 50 per cent. And, again, tribes on this reservation one year ago agreed to waive coffee and sugar rations if the issue of beef and flour was increased, but the only portion of the deal consummated was the withdrawal of coffee and sugar. Their allotment of flour is insufficient, and contractors invariably delay to deliver.

LOOK OUT FOR FIRE.

To Theater Owners, Managers and Whom it May Concern:

This is to certify that I have equipped the Windsor theater in this city with the Lindgren stationary chemical fire engines. After examining all other systems of fire protection, and after repeated tests of the Lindgren stationary chemical fire engine, and upon the recommendation of the insurance under-writers, I have no hesitation in pronouncing it the cheapest and most powerful, as well as perfect, fire protection for theaters ever invented. In my opinion every theater and opera house in the United States, as well as Europe, should be equipped with these chemical fire engines, and thus save the loss of life and thousands of dollars in property.

Respectfully,

(Signed) H. I. GOLDY, Owner Windsor Theater, Chicago, Ills.

See What a Practical Fireman Says.

Tacoma, Wash., Sept. 19, 1889.

To Whom it May Concern:

This is to certify that I, George A. Barbank, witnessed the exhibition of the Lindgren chemical engine test to-day, and as I have witnessed a great many such chemical tests in New York City, Boston, Mass., and other large cities in the East, I hereby state that it was the quickest and most satisfactory test, and was also pronounced so by two of our councilmen and all the citizens present, and I will also state that the time of applying the chemical was left entirely to me and I did not give the word until the fire was well started, for in other tests I have witnessed they have always put the chemical on the minute the fire was started and water would answer just as well, as there was nothing but the flame started and the wood not charred, and I take great pleasure in recommending the "Lindgren" as far superior to any other "Chemical" engine on the market.

(Signed) GEORGE A. BURBANK, Secretary Paid Fire Department.

Director of the Northwestern Fire Association.

Was last year Secretary of the Northwestern Firemen's Association.
