DON'T MURDER YOURSELF THROUGH IGNORANCE AND NEGLECT

Stop doping yourself with Medicines, Drugs, Opiates and Poisons and submitting to unnecessary operations.
If you suffer any kind of pain or distress, if you are weak, nervous and run-down in constitution, if you have any kind of STOMACH, KIDNEY, LIVER, or BOWEL trouble, Constipation, Fermentation of Food, causing gases to arise, or any kind of RHEUMATISM, and have spent lots of money doctoring without result, WRITE to me, and state your troubles, and let me give to you the Secret of New Life, Health and Happiness, as was given to me by an Old Hermit of the Mountains, which made me a well man, after I had suffered for over thirty years, finally becoming completely Paralyzed for seven months. Today, I own that secret, I am a licensed Physician, doing Missionary work among sufferers. I charge nothing for my services, time or work. All you can pay for if anything, will be the COST of the NATURE SUBSTANCE I will tell you about, which consists of the MINERALS of the EARTH in Natural Form, known now as Marcell's MIRACLE MINERAL (sold under a label) with which I have made thousands well, and have their grateful testimonials. The Cost will be from 8 cents to 50 cents a day for your home treatment, for 60 days, depending entirely upon what ails you. Send me 4 cents in stamps, for my Booklet entitled "A VOICE FROM THE GRAVE," and state your trouble, and I will send you a free Diagnosis card telling you the Course you should have for a Full 60 Days' Constitutional Home Treatment. Women, suffering with troubles peculiar to their sex, write to me. Address, Dr. M. B. MARCELL, 901 W. Lombard St., Portland, Oregon.
Please be sure to mention this paper.

Highest Aerial Trolley for Caracoles, Bolivia

New York.—An aerial trolley line, six miles long and rising 3,700 feet, is soon to be constructed for the Caracoles Tin company of Bolivia, a Guggenheim corporation, according to recent advices received in the financial district here. At its highest point the trolley will be the highest trolley of its kind in the world. The completion is expected to take six months and the materials are already on the ground. Steel will be worked on the ground and the trolley line itself will carry material up the mountain.

The line is planned to be about the same size and capacity as that erected for the Northern Peru Mining company to connect the mill at Samme with the mines at Milluachi, Trujillo, work on which was done by Wayne Graham, erecting engineer of the Riblet Aerial Tramway company of Spokane, Wash.

Has Anyone Laughed At You Because—

By ETHEL R. PEYSER

You use perfume?

You evidently don't use enough. Perfume is a lovely thing in moderation. The flowers profit by it, the world profits by it. Why shouldn't you add to the beauty of things too? Of course when perfume covers a deficiency of the sanitary code and when it annoys people, then it is the time to put on the stop code! Perfume is lovely when it is, but baleful when it "ain't."

SO

Your get-away here is:

That they only laugh and don't complain.

(© by McClure Newspaper Syndicate.)

Great Mistake With Pigs.
One of the greatest mistakes made by the fall pig grower is that of not providing a warm, dry, easily accessible feeding place for the pigs that are counted upon to roll in the prospective dollars of profit.

Ration for Sows and Pigs.
Crushed or ground oats as a slop may form one-third of the ration for brood sows and for young pigs until they reach the period of fattening; but oats are not profitable as a feed for fattening hogs.

* * *

The best investment on a farm where cows are milked is a silo and no farmer or dairyman need hesitate to build a silo. It will make money for him every year and the cost of the silo is easily absorbed in an increased flow of milk and better-looking cows.

* * *

A profitable cow should produce 6,000 pounds of milk or 200 pounds of butterfat in 300 days. Are your cows all profitable? Why not find out? Is milking dairy cows a business proposition with you? If so, why not apply business methods?

* * *

It never pays to crowd, especially on the roosts. A little unoccupied space is better than to have the perches so crowded that the fowls have to try to sleep on top of one another.

* * *

The fowls should be kept in good healthy condition at all times. A dose of epsom salts, one pound to 100 birds is a good conditioner. Permangnate of potash added to the drinking water is also good to prevent colds and roup.

Something to Think About

By F. A. WALKER

YOUR IMAGINATION

GIVE your imagination free rein, especially if it is of the constructive kind, taking you to new heights beyond those of yesterday. The greatest achievements of yesterday, if we are to progress, must be outdone today.

An original thought is but one more step towards another, destined, perhaps, to revolutionize accepted standards and set at naught much of our boasted knowledge with its many deficiencies of precise information.

By imagination the countries of the world have been brought closer together. News that was once brought by mounted couriers riding day and night, is now flashed through the air by means of electricity, reaching to all parts of the world and surpassing in its flight the speed of light. When Samuel Morse dreamed of the telegraph he annihilated distance and brought the poles of the earth together.

Thousands of miles from the forecasting station, millions of people listen daily to the radio carrying its lilting music and stirring voices through invisible paths of air.

These modern wonders, mystical, startling, had their birth in the imagination of men who continued to pay court to fancy, while their narrow visioned friends jeered and mocked.

Do not criticize the boy who goes castle-building, or prefers by choice to dwell apart from others.

Manifest interest in his thoughts and give him encouragement.

You cannot surmise where a boy of this type may be leading, or what in future years he may do for the uplift of the world and the comforts and delights of its peoples.

That the boys of today are destined to surpass the boys of yesterday, may be accepted as a foregone conclusion; indeed, it can be counted upon as a certainty.

The result of their imagination, heightened by better schooling, and let us hope greater encouragement, will be seen in the next generation in the revelation of things which the visionist of today has not yet dreamed.

Every analysis of what has been done in the past reveals the probability of something more startling awaiting the imaginative brains of the boys of today. Give them an opportunity to show their ingenuity. Encourage their imagination and cheer them on!

A WOMAN IN THE HOUSE

By DOUGLAS MALLOCH

A WOMAN in the house, to me,
Is like the sunlight on the sea,
Is like the roses by the road,
Is like the laughter with the load.

As stars make beautiful the night,
And flowers, gardens give delight,
Yes, all that beauty does for you
A woman in the house will do.

A woman in the house will make
An altar there for hearts that ache,
Will build a shrine amid life's sin
To worship God, and ask Him in.

For you who wander, you who weep,
A woman in the house will keep
A candle burning evermore—
She is a lighthouse on the shore.

A woman in the house is like
The sun's declining rays that strike
Your windows when the day is old
And turn your window panes to gold.

A man may build a house of h's;
A woman in the house it is,
Through joy and sorrow, dawn and gloam,
That takes his house and makes it home.

(© by McClure Newspaper Syndicate.)

The Young Lady Across the Way

The young lady across the way says pyorrhea is probably the most prevalent disease, and she understands that 75 per cent of the American people are pyromaniacs.

(© by McClure Newspaper Syndicate.)

STATE NEWS IN BRIEF.

Salem.—With more than 8000 signatures, the nominating petition of President Coolidge was filed Saturday with Secretary of State Kozer by Senator Patterson, Oregon campaign manager for the president.

St. Helens. — Lumber shipments, while light, showed a slight increase over the last week. Three shipments were made by water and totaled 3,200,000 feet. One shipment was for foreign ports and the others for California.

Salem.—The planting of trees and other shrubbery along the highways in Oregon will be encouraged by the state highway commission, according to announcement made here by Roy Klein, in charge of the local offices of the department.

Grants Pass.—Water has been turned into the south canal of the Grants Pass irrigation district. Although farmers do not need the water yet for irrigation, it has been placed in the ditches so that it will be on hand should a sudden dry period develop.

Eugene.—The bounty on 19 seals recently killed in the Pacific ocean by Herman Larsen, a rancher in western Lane county, was collected at the office of the county clerk here Saturday. He received $47.50 for bringing in the pelts of the sea animals. It is seldom that the bounty is collected here on these animals.

Portland.—Robert E. Strahorn of Spokane, president of the Oregon, California & Eastern railroad, arrived in Portland Saturday to spend $100,000 this week for equipment for his railroad, which plans to devote the coming summer to general improvement of the lines between Sprague River and Klamath Falls.

Haines.—W. H. Mayes, local dairyman, has brought a carload of registered and high-grade Jersey cattle here from Tillamook county. Milk cows in the shipment were accompanied by an attendant and fed and milked en route. Mr. Mayes now owns about 60 head of Jersey milk stock on his ranch just west of Haines.

Bend.—A heavy surplus of hay in central Oregon not needed during the winter because of the unusually mild weather will mean an agricultural development in this section tending to greater diversification, farmers believe. It is estimated that 400 carloads of alfalfa remain in stack in Deschutes county alone.

Salem.—A total of 21,578 cash bonuses authorized by the world war veterans' state aid commission had been paid up to March 31, according to a report prepared here Saturday by Major Simpson, acting secretary for the department. Cash payments aggregated $4,685,071.95. Of this amount approximately $3,400,000 was paid to ex-service men living in Oregon.

Marshfield.—Coos county electors will be asked to vote for good roads bonds for $375,000 at the primary election, according to an order by the county court Friday. Of this amount $70,000 will be used for matching state and other money on the Hauser-Glasgow hard surfacing, $70,000 for the Coquille-Bandon hard surfacing, and $50,000 on the Myrtle Point-Roseburg highway.

Shaniko.—Remarkable progress is being made on the construction of the last link of the Sherman highway in Wasco county. This section extends from a point about eight miles north of Shaniko to an intersection with The Dalles-California highway near the head of Cow canyon, a distance of about 20 miles. The highway runs through Shaniko, which is the terminus of the old Columbia Southern railway, now a branch line of the O.-W. R. & N.

Pendleton.—After carrying a safe weighing 400 pounds about 100 feet up the Oregon-Washington highway from the Marvin Roy garage in Pilot Rock, yeggs Saturday knocked off the combination and attempted to blow it open, according to T. B. Buffington, deputy sheriff, who investigated the case. The sound of the explosion awakened citizens. The car in which the yeggs fled came toward Pendleton, but trace of the car was lost a short distance outside of Pilot Rock.

Salem.—Approximately $600,000 collected through the administration of the state income tax law has been turned over to the state treasurer, according to Earl Fisher, state tax commissioner, under whose direction the department is being conducted. Out of approximately 88,000 returns sent out by the department, more than 80,000 have been received from persons and corporations affected by the act. When the larger part of the outstanding returns are received prior to April 15, the last day for filing, the tax commissioner predicted that he will have turned over to the treasury department between $700,000 and $800,000.

WRIGLEYS
After Every Meal
It's the longest-lasting confection you can buy—and it's a help to digestion and a cleanser for the mouth and teeth.
Wrigley's means benefit as well as pleasure.

Temperament.
"I should advise ladies always to avoid artists who are in search of new sensations and emotions either in friendship or love. . . Never fall in love with a genius, ladies, nor a man of temperament. All that is left of temperament at home is temper."—Jacinto Benevente, Spanish Playwright.

Dice Games Ancient.
No one can say positively when dice were invented. Credit for the invention is usually given to Psalmedes of Greece (1244 B. C.). Games played with dice are the simplest and most universal games of chance in the world.

Youth and Age.
Youth needs but to hear a new tune twice to know it by heart. Elderly folks have to hear it 20 times to merely identify it by its name.

Mrs. R. E. Jones

Have You A Daughter?
Watch Her Health
Salem, Oreg.—"Dr. Pierce's Favorite Prescription is the finest tonic and nervine that a young girl can take. My daughters have always been so greatly benefited by the use of the 'Favorite Prescription' that I do not hesitate to recommend it to other mothers whose daughters suffer. One member of my family also speaks in terms of highest praise of Dr. Pierce's Favorite Prescription, which she takes during expectant periods. She claims that it enables her to have health and strength, and practically no suffering. She has fine healthy babies, too. Dr. Pierce's Favorite Prescription is truly a woman's tonic."—Mrs. R. E. Jones, 596 N. High St.
Get Dr. Pierce's Favorite Prescription today from your neighborhood druggist, in tablets or liquid, or write Dr. Pierce, President Invalids' Hotel in Buffalo, N. Y., for free confidential, medical advice. Enclose 10c for trial pkg. tablets.

One of the Inducements.
Philippa—"I don't want to go to a girl's school. I'm going to a co-educational college." Lucy—"But the men there are likely to be bold and flirtatious." Philippa—"That's what the girls all tell me."

First Linen Clothes Dark.
First linen clothes, so costly that only kings and nobles could afford them, were dark and discolored, because the art of bleaching had not been learned in olden times.

Going Some.
A Chicago woman was made a great-grandmother three times in one day when baby sons arrived at the homes of two of her granddaughters and one grandson.

Crowning Fortune.
"The crowning fortune of a man is to be born to some pursuit which finds him employment and happiness, whether it be to make baskets, or broadswords, or canals, or statues, or songs."—Emerson.

Red Cross BALL BLUE
is needed in every department of housekeeping. Equally good for towels, table linen, sheets and pillow cases. Grocers
