## WEATHER REPORT

A large shallow low pressure area is central over Arizona and a small disturbance is noted north of the Dakotas. The disturbance yesterday over the upper St. Lawrence valley has advanced northeastward to the Atlantic coast. The high pressure area over the Dakotas has diminished in intensity and moved to the lake region. The barometer continues relatively high off the mouth of the Columbia river. During the 24 hours ending with this report light rain fell in extreme eastern Oregon, southern Idaho, Utah, Wyoming, Colorado and at widely scattered places in eastern states. It is cooler in the Rocky mountain states, the Ohio valley, the middle Atlantic and New England states.

Indications are for fair weather in this district tonight and tomorrow.
