That Pesky Air Bubble

That elusive little air bubble in the barrel of his fountain pen has stirred many a good man to wrath, and has caused him to say things for which he was afterward sorry.

If he owned a Conklin Self-Filling Pen, he wouldn't have to fill it with a medicine-dropper.

One quick pressure of the thumb—and his pen would be ready for use.

Ask any Conklin user.

HEALTH HINTS

Never talk to sick people about their illness. If laid up pull bed from the wall, let sunshine enter, the coverings should be warm but not heavy, made twice daily, also one down for the day and another for the night, change position of patient frequently, take water bottles out of bed when cool.

Water Bags

Bottles, Atomizers, Brushes, etc., are often made from old

rubber rubbish—we don't handle that kind. You don't have to be a rubber expert when you buy here. You may rest assured that they will not give out maybe at a very critical moment when life depends upon their serviceability. Sickness don't go without these much needed articles. Call on us in full confidence. The utilities of our profession enable you do so.
