DOCTOR'S QUIZ FRIGHTENS MEN

Timid Would-Be Benedicts Alarmed at Medical Examination.

(By Journal Leased Salem Wire.)

Salem, Or., Aug. 9.—Washington state prospective grooms dislike the physical examination required in that state before marriage licenses can be issued. The following letter received by County Clerk Allen of Marion county is typical of a great many being received since the Washington law, passed last winter, went into effect. The letter follows:

"Dear Sir.—I would like to know if people in Oregon get married without a doctor's certificate. Washington requires it, but I have not found out how Oregon stands in this respect. Please answer at an early date, and oblige. A. H. Barnes, Parkland, Wash."

Deputy Clerk D. H. Allen, in order to keep the Parkland man waiting as short a time as possible answered at once, that doctor's certificates were not required by prospective grooms in Oregon and cited to him the requirements of the Oregon law. Barnes is expected at an early date to swell the marriage statistics of this county.

GREAT ISSUE FACED

of Ballinger toward the reclamation service and toward the so-called water power trust, which is said to have obtained valuable lands in the west during the last few months.

Opening Program.

With the call to order of the congress here at 10:30 o'clock this morning, by R. Insinger, chairman of the board of control, one of the most momentous sessions of the congress, both to the west and to the organization itself, began.

Following the call to order, the Spokane Choral society delivered a musical invocation and Governor M. E. Hay of Washington followed with the address of welcome.

N. S. Pratt, mayor of Spokane, welcomed the delegates to the city in a concise speech. In the course of his remarks he said:

"Government reclamation is opposed by certain men in money centers who consider the masses of the people their lawful prey. But men who are reclaiming lands will be remembered when the names of those who built the Panama canal will be forgotten."

Response was made on behalf of the congress by George H. Barstow of Texas, president of the congress.

Message From President Taft.

When Barstow had concluded, a message from President Taft was read, expressing best wishes for the welfare of the congress, and expressing sympathy with the objects of the congress. The message follows:

"I greatly regret that I am not able to be present to hear the discussions and get the benefit of your deliberations. I have the deepest sympathy with the general objects of the National Irrigation Congress and you can count on my earnest endeavor to further the cause of reclamation by irrigation in every part of the country under the jurisdiction of the federal government."

Good Will From Abroad.

The remainder of the morning was taken up with responses to the addresses of welcome. Responses were made by governors of various states represented, by the governors of insular possessions and by representatives of foreign nations interested in the irrigation and reclamation of lands.

Dr. Baeta Nevis of Brazil declared Brazil was a "son of Columbus, a son of Washington, a son of Lincoln and a son of Monroe."

He declared friendliness toward the United States as he waved the Brazilian flag and kissed it. He received an ovation.

Lieutenant Governor Bulyea of Alberta responded for Canada. He said: "There is room for two nations on this continent. We will try to make good Canadians of all American settlers in our country."

Ex-Governor Frank Gooding of Idaho declared his state was for reclamation in responding for the Gem state.

Before the noon adjournment the report of the executive committee was received and announcement of committees was made.

Address by Director Newell.

The feature of the afternoon session was the address of F. H. Newell, director of the United States reclamation service.

Other speakers programed are: Senator W. E. Borah of Idaho, J. J. Hill of the Great Northern railway, and A. E. Bryan, president of the Washington State college, who was billed to speak on "The Irrigation Situation in Washington."

A discourse on "Cooperative Conservation in the Atlantic States" was delivered by E. J. Watson of Columbia, S. C.

KILLED HIMSELF IN BROTHER'S PRESENCE

(United Press Leased Wire.)

Vallejo, Cal., Aug. 9.—Edward McDonald, formerly editor of the Benicia New Era, and later a government civil service employe at the Mare Island navy yard, committed suicide at Benicia in the presence of his brother, David McDonald. He fired a shot into his brain that caused death within a few minutes. David claims that Edward threatened to jump into the bay and on a jest he handed him the revolver and dared him to die that way. Edward took the dare and killed himself.

PUTS END TO JOY RIDES IN AUTOS

(Continued From Page One.)

world worth living for, will risk all for a so-called joy ride with a pimpled youth, who is less than a cipher in the social scale, and whose chief ambition in life, apparently, is to speed down densely populated streets with a cigarette hanging from his under lip and making eyes at every woman, young or old, that crosses his line of vision.

"The police are going to tame this class, if we never do anything else," said Chief of Police Cox, emphatically.

To which every self-respecting citizen, large and small, will shout, "Amen!"

"We are also going to cut down the speed of some of these maniacs, in the city as well as out," said Chief Cox.

To which there is heard another loud and unanimous "Amen!"

Movement Becomes General.

The county board and sheriff are following Constable Wagner's lead and are going to aid the police in this work. Two deputy sheriffs have been detailed to devote their entire time to picking up some of these individuals. And the courts have promised to attach a jail sentence to a fine. By touching their pocketbooks, depriving them of their cigarettes, and letting them exist on jail fare for a time it is hoped to lessen their enthusiasm along their particular lines.

The state statutes say that no person, driver or operator, in charge of any automobile, motor vehicle or motorcycle shall exceed eight miles an hour inside the limits of any city, town or village, and that this speed must not be greater than four miles an hour at any street crossing; also, that eight miles shall not be exceeded, in city or country, when within 100 yards of any vehicle drawn by a horse or horses; and that 25 miles an hour is the limit on country roads.

"Some of the gentlemen who were elected to see that at least a fleeting glance is given to the different laws made by legislatures, wise, unwise and otherwise, are requested," remarked an automobile owner who does not like publicity, "to walk on Washington street from Second to Twentieth at any hour of any day and almost any hour of any night.

"What they see will undoubtedly shock them," said the same automobile owner sarcastically, "and it will be the first they ever suspected of such violations of the speed law. Every day I see young boys, boys not over 14—I'll bet that some are not over 12—driving huge touring cars up and down Washington street at 20 miles an hour, 25 miles an hour, yes, and I'll say 35 and 40 miles an hour, and they laugh to see pedestrians 'hot-footing it,' as they say, out of the shadow of death. I'll tell you, it is a wonder to me that a half dozen men, women and children are not killed by automobiles in Portland every day of the week."

Funeral of Mrs. Real.

The funeral of Mrs. Real was held yesterday afternoon. The burial was at Rose City cemetery. The men and women who were with her when she was killed, and many friends attended the services. Her 12-year-old daughter was so overcome that she had to be taken in charge by friends. She will be adopted by Mrs. Hattie Driskill, sister of Mrs. Real, who was also a member of the automobile party.

YOUTH WOUNDS MOUNTAIN LIONS

Six of Them Charge Cattle, but Plucky Boy Stops Them With Bullets.

(United Press Leased Wire.)

San Jose, Cal., Aug 9.—John Wade, 15 years old, singlehanded, attacked six mountain lions yesterday and succeeded in wounding five of them and killing one.

He saw the lions near sunset, when they rushed from the underbrush and made a charge on some cattle belong to Wade's father, who is a wealthy rancher.

The boy, armed with a rifle opened fire.

Until one of the cats was killed and the others wounded, they stood their ground.

For the past month the lions have been killing cattle in the district.

RESIDENT OF OREGON OVER FORTY YEARS

Milton, Or., Aug. 9.—Monroe Hicks, who died at this place last Friday as the result of blood poisoning, had been a resident of Umatilla county for over 40 years. He crossed the plains to Oregon when but one year old. The family first settled on the Umatilla river below Pendleton. Later they moved to Pilot Rock and in 1881 the deceased moved to Weston where he resided until last fall, when he moved to Milton.

He is survived by his wife and three children, ranging in age from two to 13 years. He was not a member of any lodge, but was a life long member of the M. E. church and was known as a Christian man.

BOY'S SEVERE BLEEDING ECZEMA

Covered with Bleeding Humor when a Baby — Poor Little Sufferer Found No Rest and Could Only Fret and Cry Until Very First Use of Cuticura Brought Sleep.

JUSTICE OF PEACE TELLS OF CURE BY CUTICURA

"My baby boy was afflicted with eczema. It ran on him until he was full of sores from his head to his feet. Even the bottom of his feet were full of cracks with the blood coming out. I believe that his case was as bad as it generally gets, for he was bleeding all over and could not rest. He was too small to tell anything about it, only to fret and cry. We could get nothing to relieve him until we got the Cuticura Ointment and the first application of the Ointment put him to sleep. Then we used Cuticura Resolvent and Cuticura Soap and he continued to improve until cured. The boy is all right now and has been for the last seven or eight years. I believe that the Cuticura Remedies will cure all cases of eczema if used right, as I know that they were the first things that gave our baby relief. D. J. Pierce, Justice of the Peace of Lee Co., Cameron, N. C., Oct. 23 and Nov. 7, 1908."

don't let anything dissuade you from a pianola-piano purchase now---a situation such as this will never arise again

the pianola-piano

extends the means of producing music to everyone

Do you realize what the Pianola-Piano offers you? Think of this for a moment. A few years ago there was no such thing as a Pianola, or a Pianola-Piano. Today the name of this instrument is as well known as the name of the piano itself. In every city and country of the old world, in South America, and even in far-off Australia, thousands of Pianolas and Pianola-Pianos have been sold. Every year the Pianola-Piano is becoming more and more popular.

The Pianola-Piano has taken music out of the class of the so-called accomplishments, has made it an art to be enjoyed by all rather than the exclusive possession of the privileged few.

We wish now to call special attention to our magnificent exhibit of Pianola-Pianos.

We have an enormous stock of them on hand. Never heretofore, not even in New York, has it been possible to show such a tremendous number of latest Pianola-Pianos of each of the various styles and in the various superb and costly woods and finishes used only by the world-renowned makers of this magnificent art product.

Many are deterred from investigating the Pianola-Piano because of the erroneous impression that such an instrument costs $1000, $1100 and $1150.

While we have genuine Pianola-Pianos at such prices, in fancy selected woods and handsomely carved case of special design, it should be borne in mind that regular catalogue styles of the genuine Pianola-Piano are now obtainable for one half such prices.

Payments are arranged just now on a $15-a-month basis for those not wishing to pay all cash at time of purchase.

Never again will Portland witness a showing of so extensive and superb a variety of styles and designs.

There's many a "silent" piano in many a home where there ought to be a Pianola-Piano—a genuine Pianola-Piano—an instrument that is not "mechanical," but, on the contrary, makes it possible for every member of the family to produce the choicest of music with perfect individuality and expression.

We are now prepared to take such "silent pianos" in part payment for one of these very latest Metrostyle and Themodist Pianola-Pianos, and we will make it an object for any owner of such old-style piano to do business with us now.

If you ever expect to own a Pianola-Piano, now is the time to see about it at Eilers Piano House, Retail Department, "The Always Busy Corner" at Park (Eighth) and Washington streets.
