WHITE RIBBONERS SEE RUIN'S DOOM

Enthusiasm Runs High at Hood River; Court Grants Two Liquor Licenses.

(Special Dispatch to The Journal.)

Hood River, Or., Oct. 6.—The sessions of the State W. C. T. U. convention in this city are largely attended by the local people and enthusiasm abounds in every department of the work. Reports from the state officers indicate a substantial increase in the various departments of the work.

Mrs. Henrietta Brown of Albany, state president, read her report yesterday, and emphasized the fact that the W. C. T. U. had made a greater advance the past year than in any other year of the organization's existence. She called attention to the fact that the large corporations and industrial enterprises were placing the ban upon tipling, and setting a premium upon sobriety. Mrs. Brown referred to President Taft's total abstinence and also the fact that the governors of 32 states and the members of the United States supreme court were advocates of the principles of temperance. The fact that the Catholic church and all the conventions of moment are going on record in favor of temperance was, to the speaker, a potent sign that the knell of the liquor traffic would soon be sounded throughout this country.

The devotional services at the evening session were in charge of Mrs. Blanche Paul. Addresses of welcome were made by Attorney E. C. Smith, representing the city and Commercial club; Professor L. B. Gibson, the public schools, and Rev. C. A. Nutley, the churches of the city. Mrs. Smith French of The Dalles spoke of the county W. C. T. U. work and Mrs. William Kerr of Hood River spoke of the local work. A response to the several addresses of welcome was made by Mrs. Ward Swope of Portland.

A county demonstration took place near the close of the literary program, in which the delegates of the several counties proclaimed their slogans and produced specimens of the favored products of their respective localities. Hood River was in evidence with the "big red apples."

The only marring feature of yesterday's session was the fact that, while the white ribboners were promulgating the principles of temperance, the county court just across the way granted two licenses to sell liquor.

CANCER VICTIM ENDS LIFE WITH SHOTGUN

(Special Dispatch to The Journal.)

Baker City, Or., Oct. 6.—Word reached this city last evening of the suicide of a man named Kennedy in the mountains south of Baker City. He is said to have been suffering from cancer of the mouth. He had been in a local hospital, and a few days ago went to live with a brother who is a woodsman. He had carefully prepared for his exit. He placed the butt of a shotgun against a tree, tied a string to the trigger, seated himself on a quilt with the end of the barrel against his chest. The body was cold when found by neighbors. It is supposed that he preferred death to suffering from an incurable disease.

Saloon License Revoked.

(Special Dispatch to The Journal.)

The Dalles, Or., Oct. 6.—By an order of the city council, made at the regular monthly meeting Monday night, the saloon license of F. W. D. Skibbe, proprietor of the Wasco hotel, was forfeited, and the bar was closed yesterday.

OHIO MAN WINS BALLOON RACE

America II Is First in Great Zurich Contest—Frenchman Second.

(United Press Leased Wire.)

Zurich, Oct. 6.—In the international balloon races, the America II, piloted by Edward Mix of Columbus, Ohio, is the winner of the race for the James Gordon Bennett cup. Second place was won by the French balloon Isle of France.

The message was received from Mix this afternoon. He stated that he landed at 3 o'clock Tuesday morning in a forest of Gutova, which is near Mlawa, Russian Poland, north of Warsaw, and but a short distance from the frontier of Germany. As a bird flies, he covered 700 miles before descending.

The race started on October 3 from this city. At the time a strong southwest wind was blowing, which bore the 17 big gas bags with their passengers toward the Russian boundaries.

Two hundred thousand people watched the balloons get away and disappear on their journey from Switzerland.

Mix, who was the only representative from the United States, stated before he climbed into the basket that the race would be the greatest on record, and the results of the long aerial contests have borne out his prediction.

Among the nations represented by entries in the race were Austria-Hungary, France, Germany, England, Spain, Switzerland, Belgium and Italy.

SCHOOL TEACHER HUNG IN EFFIGY

(Special Dispatch to The Journal.)

Dayton, Wash., Oct. 6.—Following the scene yesterday at the second day's session of the joint teachers' institute for Columbia and Garfield counties, in which Superintendent Beaulieu of Dayton schools scathingly rebuked Miss Griffin, a primary teacher, charging her with incompetency before an assembly of 85 teachers and prominent educators of the state, a lifesize effigy of the superintendent was found this morning hanging from a telephone pole in front of the Central school where the institute is being held.

The word "Beaulieu" was suspended underneath on a placard. It is not known whether the effigy has any connection with the institute affair. Although it is claimed that Miss Griffin, who was conducting a model class in number work, showed a lack of knowledge of the subject she was attempting to demonstrate, Professor Beaulieu is censured for his hasty action. The affair interfered with the institute work. Professor Beaulieu came here this year from the University of Idaho.

RAIN MARS DAY AT THE DALLES FAIR

The Dalles, Or., Oct. 6.—Rain fell steadily nearly all yesterday afternoon, marring the pleasure of those attending the district fair, which began yesterday morning. About one fourth of an inch of rain fell, making the streets and roads slippery, and putting the race track in bad condition for the races this afternoon. Notwithstanding the rain there was a fairly good attendance at the pavilion, where the horticultural, agricultural and art exhibits are made.

FIELD TRIALS ON AT SALEM TODAY

Crack Sporting Dogs Striving for Prizes—Rex Is Promising Contender.

(Salem Bureau of The Journal.)

Salem, Or., Oct. 6.—The annual field trials of the Oregon Field Trial club are being held about three miles northeast of Salem on the George Savage place today and will continue through tomorrow. The entries are good and some of the finest dogs on the Pacific coast are being tried out. Weather conditions are perfect, as there is a warm sunshine today, following the rain of yesterday and last night.

Rex, a Salem dog, owned by Homer Smith of this city, is attracting the greatest amount of attention in the field today. Rex captured first place in the all-age trial in the British Columbia meet at Ladners Landing and took second in the P. N. W. all-age stake at the same meet. He has been entered by the Oregon Field club. Shasta Queen, owned by J. E. Terry of Sacramento, who took first in the P. N. W. $500 derby in British Columbia is also entered.

T. J. A. Teidman, formerly of Portland, now of San Francisco, is judge. Eight silver trophies will be awarded owners of successful dogs in today's and tomorrow's trials.

The Entries.

Following are the entries for the trials:

All-age stake—

Rex of Salem, with Euridice, together in first heat.

Kenwood Bang with Baker's Bob, together in second heat.

My Kimona and Sport Danstone, together in third heat.

Derby (probably Thursday)—

Leitrom Ranger with Belvidere in first heat.

Judge with Dick F., in second heat.

Miss Ives with Buckeye Rip in third heat.

Shasta Queen with Rex Oregonus in fourth heat.

In these trials it is possible the judge may select a first, second and third in the first of the trials. But if this is found impossible the best ones will be selected and by a process of elimination the trials will be continued until the places can be awarded.

The officers of the Oregon club are as follows: President, Will Lipman, Portland; vice president, Paul Hauser, Salem; treasurer, J. R. Baker, Portland; secretary, E. A. Parsons, Portland.

RACING BALLOONS APPEAR BY TRIOS

Three Have Landed; Three Have Been Sighted; Three Missing.

(United Press Leased Wire.)

St. Louis, Oct. 6.—The balloon St. Louis III, now passing over Minnesota, is considered the probable winner of the centennial race, it having already covered 535 miles when it passed St. Cloud. The Indian is also sailing over Minnesota and is making a hot contest for the Lahm cup. Both balloons have already broken the Lahm record, which was formerly 475 3-5 miles.

(United Press Leased Wire.)

St. Louis, Oct. 6.—Three of the balloons entered in the centennial race have landed, three have been sighted and three others have not been heard from. The Hoosier, a non-contestant in the race, has landed at Russellville, 129 miles from its starting point, and the Pommer has landed at Knobel, Ark., 160 miles away. The St. Louis III and the Indiana have been sighted in Minnesota. The Centennial has been sighted in Missouri, but no word has been received from the Cleveland, the New York, the New South and the St. Louis.

Hickman, Ky., Oct. 6.—A balloon believed to be a contestant in the St. Louis centennial race passed over Reelfoot lake late last night. It was sailing at a high altitude and its name could not be made out.

St. Cloud, Minn., Oct. 6.—Sailing at a high altitude a balloon passed over this city shortly after 4 o'clock this morning. The two men in charge of the craft shouted that it was the St. Louis and that it was No. 3 in the Centennial race.

Jackson, Miss., Oct. 6.—A balloon believed to be competing in the St. Louis Centennial race for the Lahm cup, was sighted this afternoon over Livingston, Ala. It was sailing in a southwesterly direction.

TRAIN CRASHES INTO FARM TEAM

(Special Dispatch to The Journal.)

Ione, Or., Oct. 6.—A. C. Pettys, an old settler of Ione, while returning to his ranch near here this morning, met the train coming from Heppner at a point two miles from this place at a crossing where he could not see up the track and the engine hit and killed both his horses and threw Mr. Pettys from his wagon onto some rocks, badly injuring his back. The train was stopped and Mr. Pettys was brought to the home of his daughter, Mrs. Frank Engelman of Ione, and is under the care of Dr. Chick, who says he will recover. Mr. Pettys is a cripple.

SOUTHERN OREGON FAIR COMMENCES

(Special Dispatch to The Journal.)

Ashland, Or., Oct. 6.—The third annual fair of the First Southern Oregon District Agricultural society opened here this morning. In spite of unsettled weather the exhibition surpasses all previous fairs, both in the number of entries and in quality of exhibits. Grants Pass and Medford exhibitors are here in numbers, and will carry away many premiums. The main pavilion is on the ground floor of the new Elks' temple, and every bit of the 7500 feet of space has been utilized.

OHIOAN WILL BE RETURNED TO STATE

(Salem Bureau of The Journal.)

Salem, Or., Oct. 6.—C. T. Zimmerman, who has been conducting a poolroom at Woodburn under the name of C. T. Simmey for two weeks past, was taken into custody by Deputy Sheriff Esch this morning on a charge of embezzlement. Zimmerman is wanted in Madina county, Ohio, and officers are on their way west to take him back to Ohio for trial.

Killed in Logging Camp.

The body of Hall Townsend, 30 years old, who was killed accidentally in a logging camp near Columbia City has been prepared and sent to his home at Pendleton, Or. The remains were sent here to the Edward Holman Undertaking company.

FLYING MACHINE TRUST PLANNED

(United Press Leased Wire.)

New York, Oct. 6.—The Wrights are contemplating the formation of an international flying machine trust, according to an announcement made here today, and it is said that the time is not far distant when one will be able to engage a flying machine much as they now hire a taxicab.

Charles R. Flint, formerly head of the United States rubber trust, will be the business head of the concern, according to the report, and he already has established factories in St. Petersburg, Berlin and Paris for making and marketing the Wright flying machine. Flint is expected to arrive in America, October 15, when he most probably will incorporate and erect a big plant in this country. It is said that the Wrights will hold a controlling interest in the American concern and that the Flint interests will be supreme in those abroad.

Opening of Harvard House.

London, Oct. 6.—Many members of the American colony in London journeyed to Stratford-on-Avon today to attend the formal opening of "Harvard house," which was the home of Katherine Rogers, the mother of John Harvard, who founded Harvard university. A year or two ago the house was purchased by Edward Morris of Chicago, and by him presented to the American nation to be preserved as a permanent memorial. The house has been restored and refurnished and is now to be kept open to the public. Ambassador Reid presided at the formal opening. After the exercises the chief participants were entertained at luncheon by Marie Corelli, the famous author.

S.S.S. CURES RHEUMATISM

Every person who suffers with Rheumatism knows of some liniment, plaster, or other external application that may afford temporary relief from the pain of an acute attack of the disease. Such treatment, however, is in no sense curative—it simply gives ease for the time being, by counter-irritation at the spot affected, as the attack is sure to return at some future time. In this article we want to talk with you about S. S. S., a medicine that CURES Rheumatism, a remedy that removes the cause, and in this way assures the sufferer of permanent freedom from this painful and health-destroying disease.

Rheumatism is due to a diseased condition of the blood, brought about by an excess of uric acid in the circulation. This uratic impurity gets into the blood usually because of constipation, poor kidney action, indigestion, and other minor stomach disturbances. These physical irregularities may be so slight, and at such prolonged intervals as to give us slight concern; but each one has a distinct influence on the eliminative members of the body, and prevents the proper removal of the impurities from the system. This refuse remains in the stomach and bowels, and souring, forms uric acid, which is quickly absorbed into the blood.

Then the circulation becomes weak and sour, the corpuscles, which ordinarily furnish nutriment to the body, are saturated with the uric acid, which they deposit into the muscles, nerves, bopes and joints. This causes soreness and inflammation, and brings on the pains and aches of Rheumatism. No longer does the blood nourish every ligament of the body with healthful properties, but constantly the briny, inflammatory circulation distributes the uratic impurity throughout the system, and Rheumatism becomes chronic. The occasional pains shooting through the muscles, or shifting from joint to joint, become more frequent and severe, the muscles get sore, the flesh becomes feverish and inflamed; and constant contact with the acrid blood slowly dries up the natural fluids of the joints, stiffening the knees, ankles, fingers, etc.

There is but one way to cure Rheumatism, and that is to cleanse the blood of uric acid poison. S. S. S. goes into the circulation, and attacks the disease at its head, and by removing every particle of the cause, and thoroughly purifying the blood, cures Rheumatism permanently. S. S. S. changes the blood from a sour, acid-steeped stream to a rich, healthy fluid, which quiets the excited nerves, eases the throbbing, painful muscles and joints, cools the blood tissues, and reduces all inflammation of the flesh. When the blood has been purified and enriched by S. S. S., it gradually nourishes back to a healthful state the different members that have been starved and weakened because of imperfect, diseased blood. S. S. S. is purely vegetable and contains no harmful minerals of any kind.

We have a special book on Rheumatism, which we will send, together with any special medical advice desired, free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

CURED HIS RHEUMATISM.

While recovering from illness of fever, I had a severe attack of inflammatory rheumatism in the knees, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of liniment and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S.S.S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I still continued to take it regularly until I was entirely cured. I now feel better than I have for years.
