## POLICE STOP GET-RICH-QUICK GAME

### Neatly Dressed Man Gets Fees From Carpenters, but Has No Work.

A "get rich quick" scheme carefully planned by a stylishly dressed young man guest at the Perkins hotel has been nipped in the bud by Captain John Moore, head of the detectives. J. M. Brown, alias Smith, is the name under which he is known, and his specialty was swindling carpenters. He is held at the city jail as a vagrant, pending investigation into his career.

Brown made a complete confession to Captain Moore and Detectives Snow and Coleman. He said his plan was to get through advertisements several carpenters and their helpers to build a $100,000 hotel at Medford, Or. The owners of the hotel were in a big hurry to have it completed and were offering top notch prices and taking anyone who could drive a nail.

The work would last several weeks, and to secure a place a deposit of $7 was necessary. This was merely to cover transportation there, as Brown was doing this affair on twentieth century methods, and took his men to work in a private car from Portland. Brown further perfected his scheme by having fake telegrams around the office, which were used to flash upon the carpenter applying for a position. These messages were intended to clinch the impression that the Jones-Smith Construction company was doing the work. Rubber stamps, receipt books, and building specifications were also a part of Brown's scheme.

Brown negotiated with the railway people for his special car, and had arranged to have the car some day next week, a date to be later specified. Brown intended to have his 100 victims meet at the union station to take the train to Medford. He had names of 87 carpenters on his list, but only two men who had paid their $7 and signed for the trip showed up.

R. O. Reclar, traveling delegate for the Carpenters' union, saw Brown's advertisement and investigated the affair. It looked like a swindle, and he notified the police. Captain Moore and another plain clothes man asked for a job, and the scheme was exposed. Brown was arrested and admitted it to be a bunko game. Harry Reagan, living at the Hood hotel, and B. F. Gillett, of Lents, are the two men who were at the depot. Brown had planned for a stenographer and bookkeeper, and had negotiated with Ida E. Yett, 403 East Morrison, and Anna W. Bozselle for the places.

In giving the reason for his game, Brown said he had lived in Seattle the past four years and lost his money. This was the way he planned to recuperate his loss. The authorities at Seattle and Tacoma are looking up the man's career. A charge of obtaining money under false pretenses has been filed against him.

## ARMORY COMFORTABLE FOR SEMBIRCH CONCERT

The triumphs Sembrich is now winning in her present tour will no doubt be repeated in her Portland concert. The sale of seats opens at Sherman-Clay's next Monday morning, January 3. Her concert is to be given at the Armory Thursday, January 6, and Lois Steers-Wynn Coman are planning to make the great building comfortable for those who attend. It will be as pleasant a place for the enormous audience that will gather to do Sembrich honor as it was at the Schumann-Heink and the Damrosch orchestral concerts.

Sembrich is in superb voice, according to all the critics. In purity and color of tone she entrances all who hear her. "Mme. Sembrich has never been heard to greater advantage in St. Louis," says the St. Louis Republic on occasion of her recent concert at the Coliseum, when she broke the record by singing to an $11,000 house.

TALKS on TEETH

By THE REX DENTAL CO., DENTISTS

Toothsome-Taste and Teeth

In days agone, if things tasted good we called them "toothsome."

We did not work the subject out according to the Herbert Spencer law of synthesis, but we dimly felt that teeth and taste were closely akin.

And therein were we quite correct.

The widow who declined to marry the man, and on being discreetly pressed for a reason, abruptly declared with a Marie Corelli defiance that it was because he did not have the Dental-Floss habit, was right in her instincts. She would rid her of the reek before she took it on as a life lease. **For it is just such little things that make or mar,** when we have sworn to love, honor and humor, and face the party over the coffee urn every morning for ninety-nine years.

The gentleman was not personally pleasant, and although he may have had a college degree, social position and sponduleix, yet a breath that would stop a watch, put him to the bad, and rightly so.

Could you love a person with an habitual bad breath? That is the result of decaying teeth, Pyorrhea, partial plates or an unsanitary bridge. The Alveolar method of dentistry emancipates people from these obnoxious.

Briefly, the ALVEOLAR METHOD is as follows:

If any one is wearing a partial plate or bridge, and has two or more teeth left in either jaw, we will supply a full set, without using plates or bridgework, that will be practically as firm in the jaws as nature's teeth and as permanent, and more beautiful.

The work is practically painless and carries our guarantee of satisfaction.

**Curing Pyorrhea** (loose teeth) a disease given up by other dentists as incurable, is another of our specialties. We cure it absolutely. It's a boastful statement to make, but we can do anything that is possible in dentistry, and what we do is always of the very highest class. Our booklets, Alveolar Dentistry, are free. Write for one if you cannot call. We have samples of our work to show at all times.

## DR. BROUGHER HAS RESIGNED PULPIT

### Definitely Decides to Leave White Temple to Accept Los Angeles Call.

Dr. J. Whitcomb Brougher, pastor of the White Temple, has definitely decided to accept the call to the pastorate of the Temple Baptist church in Los Angeles, and last night handed his resignation to the prudential committee, which had met in special session to consider the matter.

To a man the committee was opposed to accepting Dr. Brougher's resignation, but when he told them his reasons they agreed to accept his decision and recommend it to the church, which will take the matter up tomorrow night at 8 o'clock before the New Year's watch meeting.

This second call was sent to Dr. Brougher by unanimous consent of the committee after the names of all other possible strong Baptist ministers had been rejected. Dr. Brougher feels that it is his duty to go. The church there is nearing a crisis and his church here could not be in better condition. He feels that the Los Angeles church needs him and the call is so imperative that he cannot refuse it.

**Dr. Burdett's Letter.**

In a letter sent to the pulpit committee of the Temple Baptist church, before his departure for the orient, Dr. Burdett expressed his approval of Dr. Brougher and said in part:

"I find it difficult to select a second candidate in my preference as I go over the names of the Baptist pastors and preachers—men of great strength of character and successful lives. But again and again I find myself returning to Brother Brougher as the man most peculiarly fitted for this pastorate. Personally, my relations with him always have been pleasant. I love that man himself. He would be most cordially acceptable to me as the undershepherd of this flock and as my own pastor.

"With the conviction that my feelings are guided by a wisdom higher than my own, I commend J. Whitcomb Brougher to the love and loyalty of Temple Baptist church, pledging myself to unite with all the church in extending a call to him, and pledging also my sincere and affectionate cooperation of heart, mind and strength, should he, under God's direction, become our pastor."

It is understood that White Temple will attempt to secure Rev. P. S. Henson, one of the greatest Baptist ministers, now retired, to fill the pulpit until a successor is found for Dr. Brougher. Dr. Henson is now filling a similar position at the Temple Baptist church in Los Angeles. Dr. Brougher expects to take charge of the Los Angeles church about the first of February.

A Handy Home-Made Remedy for Coughs and Colds

A cold or cough often comes on quickly. This simple remedy, if kept handy, will nip it in the bud. Although inexpensive, there is nothing better at any price. It usually stops a deep-seated cough in twenty-four hours, and is splendid for hoarseness, whooping cough, cheast pains, bronchitis, etc.

Granulated Sugar Syrup.....13½ oz.
Pinex ..... 2½ oz.

Make a plain syrup by mixing one pint granulated sugar and ½ pint of warm water; stir for two minutes. Put 2½ ounces Pinex in a pint bottle and fill up with the sugar syrup. Take a teaspoonful every one, two or three hours.

None of the weaker pine preparations will work in this recipe. Use the real Pinex itself, which is the most valuable concentrated compound of Norway white pine extract, and is rich in all the healing elements of the pine. All druggists have it or can easily get it on request.

This recipe makes a full pint of unequaled cough syrup—enough to last a family a long time—for only 54 cents. It is equally good for children and adults, and has a pleasing taste.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.

## JOIN HANDS OVER FESTIVE BOARD

### Heads of Local Firms Meet Employes at Banquets and Talk Business.

The heads of four Portland firms talked about business with their assistants at banquets given last night in the Commercial club. Representatives of the Equitable Savings & Loan association, the Dwight Edwards company, Pacific Coast Biscuit company, and Mitchell, Lewis & Staver were participants. The intent and effect of these gatherings were expressed this morning by President H. Wittenberg of the Pacific Coast Biscuit company, who said:

"We, employers and men, became better acquainted. During another year we will understand each other better and will work together more harmoniously. We exchanged ideas, obtained each other's viewpoints, and, not least, had a general good time. Perhaps such events do not interest the people generally, but they mean a great deal to us in our business relations."

Thirty-five were present at the Pacific Coast Biscuit company banquet. Mr. Wittenberg was toastmaster and 12 responded. "Salesmanship" was the theme.

H. W. Mitchell of Mitchell, Lewis & Staver served as toastmaster at the banquet given his firm. Thirty-eight of the firm's representatives from Spokane, Boise and other cities, as well as Portland, were present to talk over the growing business in agricultural implements and to congratulate each other on the success of the past year. Nearly all responded to toasts.

A. L. Lovelace was host to the representatives of the Equitable Savings & Loan association. F. McKercher, secretary of the association, was toastmaster. He introduced Mr. Lovelace, who made the leading address of the evening. Ex-Governor T. T. Geer, John M. Scott and M. M. Johnson also responded to toasts.

The Dwight Edwards company gave a "get together" dinner to their 18 salesmen in the directors' parlor of the Commercial club. The plans for the coming year were outlined and it was decided that an active compaign be inaugurated to further boost their line, and, at the same time, the salesmen were instructed to boost for the Rose City and Portland made goods in every territory where they travel. Short speeches were made by most of the men present.

The salesmen, in turn, to show their appreciation, presented Mr. Edwards with a handsome diamond ring, emblem of the Masonic order, of which Mr. Edwards is a member of the thirty-second degree.

"The corporation manufacturing GRAPE NUTS, (a cereal food now widely known) just prior to an increase in its capital stock, in 1896, declared and paid a dividend of 75 per cent to its stockholders. Each $1000 invested in this enterprise received in that ONE year, $750. The capitalization of this corporation is now $5,000,000, and it is paying 4 per cent on its preferred, and 20 per cent on its common stock, (24 per cent on $5,000,000) ONE MILLION DOLLARS would probably replace every sliek, shingle and dollar the corporation owns, (exclusive of good will). If this estimate (and it is purely an estimate) is correct, the money invested is earning approximately 100 per cent.

The McKay Sewing Machine association, formed in 1878 on patents issued to Gordon McKay for improvements in machinery for manufacturing shoes, became the central power in one of the greatest monopolies of the world. Ten million pairs of boots and shoes made in America annually paid royalty to this company. Yet McKay PEDDLED THE STOCK, OF HIS FIRST CORPORATION FROM DOOR TO DOOR AMONG HIS FRIENDS IN PITTSFIELD, selling it by force of circumstances **to the poor cotton workers of Lowell and Lawrence and to the hardy whaling population of New Bedford.** The declaration of the first dividend found these people WEALTHY, WITH STILL GREATER RICHES IN STORE. Thirty years ago Bell Telephone stock, with difficulty, **sold at $1 per share.** That dollar stock **increased to $1000 in value,** and the man that put $1000 into Bell Telephone **now has scrip worth $800,000.**

And so we could continue until you grew weary with recital that would be largely superfluous. Pages upon pages could be filled with the marvelous fortunes built up on the brain conceptions of Stephenson, Bessemer, Faraday, Fulton, Morse, Brush, McCormick, Pullman, Corliss, Howe, Edison, Tesla, Kramer, Bennett, McIntosh, Stewart, Chickering, Armour, Field, Goodyear, Bell and the thousand other kings of fortune familiar to all. Their history **proves beyond contention** that "ONE GOOD INVESTMENT IS WORTH A LIFETIME OF LABOR." **Continued tomorrow.**
