MONDAY — — JUNE 1

A recent census of Scotland and Ireland shows that neither country materially exceeds the state of Ohio in population and Ohio has room for a good many more people.

Six hundred and ninety-five immigrants were denied admission to the United States along the Candian border alone, during the month of April. Most of those excluded were afflicted with some form of contagious disease.

China, according to the census just completed, has a population of 426,000,000. The inhabitants of Manchuria, Mongolia, Thibet and Turkestan were not counted., but their number was estimated.

Millionaire Swift once said that no man is rich enough to smoke 25-cent cigars. However, it is likely that Mr. Carnegie or Mr. Rockefeller could stand the strain of three or four a day without incurring a reputation for wild extravagance.

President Elliott, of Harvard, is of the opinion that no man can work too hard. Possibly Professor Elliott has never tried it. Let him go to the country some day and take note of some farmer who has gone forth with his hoe at sunrise every morning and worked till sunset, and is bowed, broken and rheumatic at forty--five.

The announcement that Joseph Chamberlain asked the King to bestow upon his wife a special mark of honor which his Majesty wished to confer on him, must have caused the most relentless enemy of the Colonial Secretary to lapse into momentary admiration. All the world loves a loving and gracious recognition of the obligation, and who is to measure Mr. Chamberlain's indebtedness to his American wife?

The American Society of Equity has is sued a bulletin to the farmers of the United States, exhorting them not to sell wheat until the Chicago price reaches $1.00; and then to dump all they have on the market without waiting for a greater rise. We never heard of the American Society of Equity, and doubt if the farmers of the country ever heard of it before. Perhaps it has not the least connection with the speculative market; but one thing is certain. If the authors of this bulletin could have the assurance that the farmers of the country would follow their advice, they could enrich themselves beyond the dreams fo avarice.

WHO KNOWS

When His Kidney Trouble Has Fastened and Reached the Chronic Stage? If it Has It is Incurable by Anything Known Except the Fulton Compounds. We Are The Sole Agents.

As an evidence of the unusual character of the Fulton Compounds that company does not publish or invite testimonials except those reporting recoveries in kidney diseases that have reached the chronic stage, alleged to be incurable. Here is another recovery in a case incurable till the advent of the Fulton Compounds, reported by Johns & Johnson, the agents of the Fulton Compounds in Los Gatos:

W. H. Fridley, a resident of Los Gatos, having chronic kidney disease (Bright's Disease) bad, like everybody else, found all treatment futile. He commenced on Fulton's Renal Compound in February, 1902, and on December 10 of the same year reported the total disappearance of the disease. He writes that he has gained fifteen pounds in weight and is again able to do a good hard day's work. Johns & Johnson, the Los Gatos druggists, confirm this recovery and know of several other recoveries in similar cases of chronic kidney disease in Los Gatos, all of which were incurable by anything else known to druggists. S. A. Palmer, the leading druggist of Santa Cruz, H. H. Maynard, the Petaluma druggist, the Ferry Drug Company of No. 8 Market street, San Francisco, W. R. Pond, the Berkeley druggist, Dr. Markley, the Cloverdale druggist, Willis & Martin, the Sacramento druggists, and scores of other California druggists all report specific recoveries in chronic kidney diseases that were positively incurable by anything known except the Fulton Compounds.

Dropsy, rheumatism from uric acid, gout and bladder troubles are proofs that the kidneys are not performing their functions. The chronic stage of kidney trouble is Bright's Disease. If you feel languid or miserable, if your kidney trouble hangs on send for Pamphlet. Percentage of recoveries nearly 90 per cent among purely chronic cases. Fulton's Renal Compound for Bright's and Kidney Diseases, $1, for Diabetes, $1.50. John J. Fulton Co., 409 Washington street, San Francisco, sole compounders. Free analyses for patients. We are the sole agents for the Fulton Compounds in this city.

Because.

Why should a man insure his life in the Mutual Life Insurance Co. of New York?

Because it is the safest investment known to man.

Because it is the first, oldest and strongest insurance Co. in America.

Because cash invested in life insurance is cash invested that will return again with compound interest.

Because successful business men carry large amounts of insurance.

Because if you break down in business, a policy of insurance will set you on your feet again.

Because merchants are anxious that all their customers carry life insurance.

Because if you have a mortgaged farm and you drop off, the insurance policy will pay the bill, and your wife and family will be left with the old homestead free of debt.

Because the Jews are considered the best investors in the world, and they carry large amounts of life insurance.

Because it is a rare thing to find a Jew in the poor house.

Because you have no taxes to pay on a life insurance policy.

Because if all men carried life insurance, the poorhouse would soon be empty.

Because The Mutual Life Insurance Company, of New York, W. A. Wann, local agent, Eugene, Oregon, makes it a business proposition, and will sell you life insurance just the same as a merchant will sell you sugar and coffee. For terms and rates, call at room 1, over Savings Bank, Eugene, Oregon.
