SATURDAY, JULY 15.

That was very unkind of Dr. Anna Shaw, president of the Woman's National Suffrage Association, in her talk to an exclusively male audience of the Y. M. C. A. at Portland last Saturdy afternoon, remarking that she liked to talk to men better than she did women, for when she was talking to men she was "talking to heads instead of hats and feathers." If we had the least inclination toward the engaging vice of gambling we would willingly bet that Dr. Anna not only admires a pretty hat, but wears one. And she mistakes if she supposes her male auditors look upon the feminine headgear merely from a sordid financial standpoint, and that she engages their good will by this fling at her sisters.

A Cold in the Head.

A cold in the head can be checked if one takes proper measures at once. Take a small piece of camphor, set a lighted match to it and let the camphor burn for a few minutes. Immediately upon blowing out the flame inhale the fumes through the nostrils. This will clear the head, and if repeated two or three times at intervals of an hour or so the cold will be found to have been nipped in the bud.—What to Eat.

Potatoes Persillade.

This is another decorative way of cooking potatoes. Peel large potatoes, and with a potato scoop cut out balls about the size of an olive. Cook slowly in boiling salted water about ten minutes, or until they can be pierced without breaking. Drain and shake carefully until dry. Pour over them a tablespoonful of melted butter, then, when well coated, roll in minced parsley and sprinkle with salt and pepper.

To Glaze Linen.

To glaze linen add to every pound of starch a piece of white wax about the size of a walnut. When ready for ironing, the linen should be laid upon the table, slightly moistened and first ironed with a hot iron. After this an iron rounded at the bottom, very heavy and very bright, is used for the glossing process.

Screen Doors and Windows.

Screen doors and windows may be renovated with screen paint that comes prepared, in black and bronze green, and may be obtained at any paint store at a very reasonable price, or the work may be done with black varnish. They must be well brushed to remove rust and dust. One coat is sufficient.

Forced to Starve

B. F. Leek, of Concord, Ky., says "For twenty years I suffered agonies, with a sore on my upper lip, so painful sometimes that I could not eat. After vainly trying everything else, I cured it with Bucklen's Arnica Salve." It's great for burns, cuts and wounds. At W. L. DeLano's drug store. Only 25c.

The True Foundation of American Prosperity

By President C. W. ELIOT of Harvard

THE foundation of American prosperity and progress is not cheap land or fresh mines or flowing oil wells or virgin forests. THE REAL FOUNDATION is the efficiency of the American at work. By different social philosophers this efficiency is attributed to various causes—to strong food, to the stimulating climate, to a native alertness and eager energy, to an intense desire to possess, to a readiness to study and try things new—and doubtless these causes all contribute to American efficiency, but there is another cause which Americans apparently think about but little and of late often completely ignore—namely, American freedom for the individual, THE FREEDOM WHICH FEEDS HOPE AND AMBITION. This freedom is of many kinds—all fruitful.

The very evils which accompany the present day doings of unions and trusts are only abuses of precious liberties not yet two generations old—the liberty of association and the liberty of incorporation with limited liability. To be sure, the potent agencies created through the exercise of these new liberties have practically become in the keen pursuit of pecuniary and especially of monopolistic advantages ENEMIES TO THE LIBERTY OF THE INDIVIDUAL, the combinations by a fatal or inevitable development always trying to absorb or destroy independent outsiders.

* * *

Nevertheless it is great liberties given by legislation which are thus temporarily perverted to the restriction of individual liberty. Undisturbed by the adverse phenomena of the moment, let us ourselves see clearly and declare as persuasively as we can that the chief source of American efficiency is the PERSONAL LIBERTY OF THE INDIVIDUAL WORKMAN.

Every workman who joins a fighting union and every capitalist who joins a fighting employers' association makes a sacrifice of personal liberty, and both act thus with the same object in view—namely, TO WIN IN A FIGHT. These fighting unions and associations all dislike and try to prevent competition. Unions and associations alike seek to establish and maintain controlling monopolies, and some of them succeed. In all labor and capital contentions the ultimate tribunal is the public opinion of the great body of consumers.

SOONER OR LATER THAT PUBLIC OPINION WILL REGULATE THESE MONOPOLISTIC POWERS, THE SUDDEN RISE OF WHICH HAS TAKEN COURTS, LEGISLATURES AND CONSUMERS BY SURPRISE. BUT LEGISLATION FOLLOWS SLOWLY AFTER PUBLIC OPINION, AND JUDICIAL INTERPRETATION FOLLOWS LEGISLATION.

To Water Consumers

The irrigation hours have been slightly changed, and are now as follows: 6 to 8 o'clock in the morning and 6 to 9 o'clock in the evening.

Sprinkling of streets through hose is absolutely prohibited.

Irrigation through an open hose, that is, through a hose without a nozzle or sprinkler thereto attached, is not permissible under any circumstances.

The above regulations are essential and are not at all unreasonable, and we must insist upon their observance, and that they may be enforced we will at once put on a few inspectors with instructions to turn the water off of any premises where a violation of any one of the above rules is discovered, and a penalty of $1 for each offense will be exacted before the water will be turned on again.

By order of the board of directors of the

BODDY & STARR.

BAD BLOOD

INVITES DISEASE

The blood supplies nourishment and strength to every part of the body when it is rich, pure and healthy. When from any cause it becomes diseased or weak it cannot supply the nutriment the system needs, and the body is unable to resist the diseases and troubles that are constantly assailing it to break down the health.

I have used S. S. S. and found it to be an excellent blood purifier and tonic. My blood was weak and impure, and as a result my system became very much run down and debilitated. I lost twenty or more pounds in weight, had no appetite and was in bad shape. Seeing S. S. S. advertised I began its use, and am well pleased with the results after using it for some little while. My system and general health have been wonderfully built up, and I no not hesitate to give S. S. S. the credit for it. H. MARTIN. Warren, O., 60 Second St.

Rheumatism, Skin Diseases, Scrofula, Catarrh, Old Sores, Malaria, Contagious Blood Poison, etc., are the results of bad or diseased blood, and until this vital fluid is cleansed and made pure, strong and healthy, these diseases will continue. The greatest of all blood purifiers and tonics is S. S. S. It has been curing all diseases of the blood for more than forty years by going down to the very root of the trouble, forcing out all poisons and impurities and building up every part of the system by its fine tonic effect. S. S. S. cures Rheumatism, Skin Diseases, Scrofula, Catarrh, Old Sores, Malaria, Contagious Blood Poison and all other blood troubles, and cures them permanently. S. S. S. is the acknowledged king of blood purifiers and the greatest of all tonics. Books on the different diseases, and any medical advice you may wish will be given without charge.
