How It Is Worked

President pro tem Frye, of the Senate, had his nephew as private secretary when he presided over the senate. Senator Gallinger, of New Hampshire, had his son as clerk until recently. Senator Cockrell had two sons on the payroll at one time, and when he left the senate to go to the Interstate Commerce Commission he took one of them with him as private secretary. There being only one appointment at Mr. Cockrell's disposal in the commission, one of his sons had to return to private life. B. B. Tillman, Jr., acts as committee clerk for B.B. Tillman, Sr., senator from South Carolina. Senator Lodge's son, George Cabot Lodge, is assistant clerk of his father's committee, and Senator Knox's son, Reed Knox, is messenger to his father's committee at $1440 a year. Senator Gamble, of South Dakota, has not been able to provide for all his relatives, having only two places, but he did the best he could. He gave one of the places to his nephew and the other to his son, who is a student in a college at Port Deposit, Md. John Warwick Daniel, senior senator from Virginia, has John Warwick Daniel, Jr., as clerk of the committee of which he is chairman. Senator Burton's committee has U. S. Burton as messenger. The relationship is not close, but the name is suggestive, as is also the case of John Mitchell Handy, who is on the payroll of the senate committee over which Senator Mitchell, of Oregon, presides. Senator Warren, of Wyoming, has his son and name-sake on the roll of his committee.

The most remarkable case of "senatorial courtesy" is that of Senator J. F. Allee, of Delaware, who appointed his son as his committee clerk and then, having another place as messenger at his disposal, graciously gave it to a relative of his colleague, Senator Ball. The fever has extended to the officers of the senate, Sergeant-at-Arms Ransdell having appointed his son to a paying place in his office.

SCROFULA
FROM PARENT TO CHILD

The laws of heredity are invariable and the diseased blood of parents is handed down to children in the form of Scrofula. Being thus deeply rooted nothing can reach the disease but a constitutional remedy. The very foundation of the blood is diseased, and until it is purified and made strong, those who are born with a scrofulous tendency cannot have the blessing of robust health.

Cleveland, O., 122 Brownell St.

I inherited Scrofula from my ancestry, and this means, of course, weak, impure blood and a run-down, debilitated condition of the system. Treatment of physicians did not do me anything like the good S. S. S. did last winter when I took it. It promotes appetite and digestion, gives strength and energy, builds up the general health in every way, and in addition to being an excellent blood purifier it adds to its success as a remedy for Scrofula. It did more for me than anything I have used, and with pleasure I recommend it. S. S. S. completely cured me of this blighting disease.
MRS. LOUISE COHEN.

S. S. S., the king of blood purifiers, is the medicine that is required, because it changes the quality of the blood by cleansing it of all poisons and impurities, building it up and strengthening the entire system. When S. S. S. has restored the blood to a healthy condition and forced out the scrofulous deposits, there is a sure return to health. No remedy has ever been found to equal this great vegetable preparation for the cure of all diseases arising from a diseased or impure blood supply. If you have Scrofula or any tendency that way write us all about your case and we will send you a book describing the disease and give, without charge, any medical advice you may need.
