There Must Be an English Ship in the Harbor Somewhere - - - By "Bud" Fisher

Notes of Wednesday's Happenings

Brief Paragraphs Give Journal Readers the News of Late Yesterday Afternoon and Last Night.

Congressional.

A deadlock between both houses of congress over the senate's proposal to repeal the Canadian reciprocity law was foreshadowed when the senate Wednesday, by a vote of 32 to 27, refused to recede from its amendment to the iron and steel tariff revision bill, embodying the repeal provision.

At a full meeting of the public lands committee Wednesday, Senator Chamberlain was authorized to report favorably, without amendment, the Bourne bill protecting bona fide purchasers of lands within the California & Oregon railroad land grants.

The senate has refused to reconsider its adoption of the army appropriation bill conference report.

The house on Wednesday took up the sundry civil appropriation bill.

Majority Leader Underwood announced that the house would take a three days' recess only during the Democratic national convention. The senate's program is for a three-day recess for each convention.

Eastern.

The army board of inquiry which investigated the deaths of Lieutenant Leighton W. Hazelhurst and Arthur L. Welsh, the Wright pilot, in the fall of an army aeroplane near Washington Tuesday night, has reported that the accident was caused by Welsh's unusual speed at a sharp turn, which caused the plane's aluminum wings to collapse under the terrific air pressure.

Another letter of the late H. O. Havemeyer introduced to show design to suppress competition in the beet sugar industry in Colorado was placed in evidence Wednesday by government counsel in the hearing of the suit to dissolve the so-called "sugar trust." The letter related to the erection of a beet sugar factory in Morgan county, Colo., which Mr. Havemeyer did not want Edwin F. Dyer of Cleveland, Ohio, to build.

Ex-Representative and Land Commissioner Hermann, who is in Washington urging that part of the Siskiyou forest reserve be set apart as game preserve and be stocked with elk from Yellowstone National park, is improving his time by holding conferences with the members of the judiciary committees of the senate and house, calling their attention to the manner in which Francis J. Heney and William J. Burns made up juries in the Oregon land fraud cases.

Pacific Coast.

Walking from Portland to San Francisco to win a wager, Otto Mikkelson arrived at Petaluma, Cal., at noon Wednesday. Mikkelson started from Portland 27 days ago, with a time limit to June 15 in which to arrive in San Francisco.

Testifying that she had removed her two children, Karl Marx Walker and Moyer Haywood Pettibone Walker, from the home of a Christian family, where they had been placed, and saying she did not want them reared with "false ideas" concerning religion, Mrs. Eunice Walker, who said she was a Socialist writer, has lost custody of the children in juvenile court at Los Angeles.

On the simple ground of failure to provide, Mrs. Eva Frances Lummis has obtained a decree of divorce from Charles F. Lummis, author, archaeologist, traveler and former public librarian. It was granted in Tucson, Ariz., where Mrs. Lummis has resided the past year and a half. Lummis himself is totally blind, and is a pathetic figure as he gropes about his home in Los Angeles.

Formal transfer of Pelican Lodge, the summer home of the late E. H. Harriman on Upper Klamath lake, in Oregon, to the Fleischacker interests was made today by the Southern Pacific company, which bought the 1140-acre property from Mrs. Harriman.

Captain William A. Carlton of the Presidio at San Francisco, appearing in court against a former soldier, said he has come to the conclusion, after years spent in the army and as a superintendent of a reformatory, that it is a mistake to extend leniency to criminals, and that the parole system has been an absolute failure. "If you expect to correct criminals you must punish them, and punish them severely. The tendency today is to punish them too lightly, only to have them back to deal with again in a short time."

The navy department is planning after July 1 to open permanent recruiting stations at Albany, Salem, Roseburg and Eugene in expectation that desirable recruits for the navy can be found in western Oregon.

Richard A. Ballinger, ex-secretary of the interior, addressed the power transmission section of the National Electric Light association at Seattle Wednesday, advocating the administration of the public lands by the states in which they are situated and opposing the leasing system as tending to promote improper and wasteful development.

Foreign.

The outlines of the conspiracy against Lieutenant General Count Terauchi, Japanese governor general of Korea, were given out Wednesday in an official statement issued by the prosecutor general. He asserts that Baron Yunchiho, leader of a patriotic Korean secret organization since 1905, had the intention of procuring the independence of Korea and enlisting the sympathies of the foreign powers against the Japanese. It was his purpose to await a time when Japan was involved in war to take up arms.

Eight Yaqui Indians were killed and many were wounded Wednesday in a battle between a band of 150 of their tribe and the crew of a work train of the Southern Pacific of Mexico between Limones and Potrero, Sonora.

Premier Tang Sheo Yi has informed the financial group representing the powers that he required $63,000,000 during June. If he does not get this, he says, he will consider himself free to borrow elsewhere. The assembly has rejected the scheme for the issue of irredeemable notes and has approved the issue of national bonds at 95½ per cent, repayable within a decade. The total issue will be $100,000,000.

A monument to Alexander III was unveiled at Moscow Wednesday by the emperor in the presence of two score members of the ruling family and deputations from Bulgaria, Servia, and all parts of Russia. Seventy-nine wreaths were laid at the base of the monument. The event was one of the most brilliant in the reign of Nicholas II.

The special committee of the Panama-Pacific exposition has arrived at Berne, Switzerland, and was received Wednesday night by Louis Ferrer, president of the republic.

The establishment of a juvenile court in Japan may follow the visit to Los Angeles of Kaago Kajima, presiding judge of the supreme court of Japan. He says he will recommend the establishment of such a tribunal for youthful Japanese offenders.

The central China famine relief committee reports. In North Kiangsu 60,000 famine sufferers are receiving help. Of this number 12,000 are doing work in digging ditches which will prevent their farms from being flooded in the future. Reports from the field say that the people are working famously and are healthier both mentally and physically from being in the fields all day.

Frederich Passy, the French economist and peace apostle, died at Paris Wednesday. He was in his 91st year.

Miscellaneous.

Forest fires are doing much damage in Nevada. Thousands of acres of fine timber have been destroyed. The water supply of Carson is seriously threatened.

D. J. Sharp, whose efforts to sell coal for 25 cents a ton less than other dealers brought about one of the big railroad rate cases in the United States courts and cost Sharp his business, died at Salt Lake City Wednesday. When he cut prices on coal the railroads refused to give him cars and the United States circuit court of appeals denied him relief.

Charles Joseph Verbeka, a Belgian banker, who had been convicted and sentenced to four and a half years' imprisonment in his native land for fraudulent bankruptcy nearly two years ago, was arrested at Balfour, B. C., Wednesday by the provincial police and is now awaiting extradition to that country.

TRACK GOES DOWN FAST ON CURVELESS 23 MILES

(Special to The Journal.)

Albany, Or., June 13.—Track laying on the Oregon Electric line from here to Eugene is being prosecuted vigorously now since the big machine has reached the straight stretch of 23 miles which runs from near the city limits of Albany to the Willamette river at Harrisburg. This stretch of 23 miles is without a twist or a curve and is the longest in this part of the country. Between Salem and Portland there is a tangent of track 17 miles in length.

The big steam shovel that is to be used for loading the ballast trains that will level up the Oregon Electric track between here and Salem has been placed at work in the company's gravel pit near this city. The work of ballasting the track will be carried along now at a rapid rate so that the line can be opened for regular passenger traffic by the first of July.

CHENOWITH COVE CHERRY CROP REDUCED BY HALF

(Special to The Journal.)

The Dalles, Or., June 13.—The first Royal Anne cherries to be offered for sale here were brought in today from the Chenowith Cove farm. This is about two weeks later than the average for first cherries of this kind, as Royal Annes are usually ripe in this section the last week of May or first of June. J. C. Hostetler, proprietor of the Chenowith Cove farm, says he has about a half crop of cherries, estimating he will harvest about 10 tons. He is one of the few cherry growers of this locality who do not contract to sell his Royal Annes to the California Cannery company, hence will dispose of his crop direct to consumers, and expects his cherries, owing to the short crop, to bring him in the neighborhood of eight cents a pound.

State Campaign in Maine.

(United Press Leased Wire.)

Augusta, Maine, June 13. — Though the date for Maine's first state wide primaries is but four days distant, the campaign is attracting comparatively little attention. The only contests that have aroused any public interest are those for the Republican nominations for governor and United States senator, for each of which there are three candidates in the field. On the Democratic side there is no opposition to the renomination of Governor Frederick W. Plaisted and Senator Obadiah Gardner.

The men seeking the Republican nomination for governor are Frederick E. Boothby of Portland, Albert H. Shaw of Bath and William T. Haines of Waterville. Those desiring the Republican nomination for United States senator are former Congressman Edwin C. Burleigh of Augusta, Judge Frederick A. Powers of Houlton and Herbert M. Heath of Augusta.

Wells Completes World Tour.

(Washington Bureau of The Journal.)

Washington, June 13.—Dr. G. M. Wells of Portland, who has been around the world visiting his eight children in various countries, is here on his way to Virginia for a family reunion.

STRAWBERRY HELP SHORT THIS YEAR

Some Hood River Growers May Have to Provide More Conveniences.

(Special to The Journal.)

Hood River, Or., June 13.—There has been a shortage of help this year in the gathering of the Hood River strawberry crop and several of the growers have met loss as a result. The picking and packing of the large apple crop this fall is beginning to concern the growers, as an effort will be made to gather the fruit more promptly than has been the custom heretofore, which will require several thousand outside people.

The cause assigned for the shortage of help this year is that the growers have not provided conveniences for the hired help. Few of the growers have places for help to sleep and eat and it is necessary for them to bring their "bunks" and cook over a bed of hot coals out of doors, which many of the whites refuse to do. It is thought it will be necessary to provide camping houses for pickers and packers in order to insure sufficient help in berry and apple season.

It now seems certain that the Hood River apple crop will be materially reduced from the 1,000,000 box estimate made earlier in the season. This loss will be due to imperfect setting resulting from a weak pollinization. It is now estimated that the crop will be cut down to 800,000 boxes. A large number of apples are falling from the trees this month, which will be a great aid in the thinning process.

Committee Will Pick Roads Bill.

(Special to The Journal.)

Hood River, Or., June 13.—The Commercial club has appointed W. L. Clark, V. C. Brock and Lou Henderson to serve as a committee to investigate the several good road bills that will be before the people this fall and recommend one from the number to the voters of Hood River county. This action is due to the insistent campaign of leaders of the Pine Grove Grange.

Home Phone Expected to Build.

(Special to The Journal.)

Hood River, Or., June 13.—Reports are current today that the Home Telephone company will erect a $20,000 building. A lot has been purchased by the president of the company on State street, at the corner of Fifth, and it is stated that the lower floor will be used by the company and the upper floors be made into apartments. Charles Hall, president of the company, is in the east and it is said will examine the most modern and improved telephone systems with a view to improving the local plant. The Hood River company has approximately 1500 phones.

Child Jammed in Water Wheel.

(Special to The Journal.)

Hood River, Or., June 13.—The 6-year-old daughter of Mr. and Mrs. J. T. Nealleigh, who reside in the country, was caught in a 20 horsepower water wheel and barely escaped death. Several children were playing at the wheel and one of the playmates turned on the water and the little girl was caught and crushed under the wheel frame. It was necessary to saw away a portion of the wheel before the victim could be extricated. It is thought she will recover unless internal complications arise to place her life in danger.

Winlock Bride Is Coming.

(Special to The Journal.)

Hood River, Or., June 13.—Floyd Arnold, bookkeeper with the Butler Banking company, of this city, was married at Winlock, Wash., yesterday, to Laura Marie Mutrl, with whom he became acquainted four years ago while attending business college in Portland. The young couple will make their home in Hood River.

MOUNTAIN HIGHWAY MADE READY FOR TRAVEL

(Special to The Journal.)

Sweet Home, Or., June 13.—Marvin Nye, overseer of the end of the toll road which connects the Willamette valley with eastern Oregon, is in the mountains with a crew to put the road in condition for travel. There was still 14 feet of snow in the road at the highest points when he left here, but he expected it would be down to a depth that would allow the clearing of logs, etc., from the road by the time the crew reached that point. This road, besides being the most easily accessible wagon road between the valley and eastern Oregon passes the famous summer resorts of Cascadia, where is a large soda springs. Upper Soda and Fish lake. Part of the way the road closely follows the south fork of the Santiam.

CALENDAR FOR WORLD'S FAIR IS PREPARED

San Francisco, Cal., June 13.—For the benefit of those who wish to make engagements to meet friends and relatives in this city during the progress of the 1915 universal exposition, the department of exploitation has prepared a 1915 calendar. With this calendar one is able to decide three years in advance just what days can be set aside for entertaining at the world's fair.

The exposition will open its doors on February 20, 1915, and close December 4, 1914.

Commencement at Minnesota "U".

(Special to The Journal.)

Minneapolis, Minn., June 13.—Five hundred and fifty-nine students received their diplomas from President George E. Vincent today at the annual commencement exercises of the University of Minnesota. The address to the graduating class was delivered by Dr. Albert Shaw, the New York editor and publicist.

Missouri Commencement.

Columbia, Mo., June 13.—The seventieth commencement of the University of Missouri concluded today with the graduation exercises. The commencement address was delivered by Dean Edward A. Birge of the University of Wisconsin.

Ask Your Doctor

No sense in running from one doctor to another! Select the best one, then stand by him. No sense in trying this thing, that thing, for your cough. Carefully, deliberately select the best cough medicine, then take it. Stick to it. Ask your doctor about Ayer's Cherry Pectoral for throat and lung troubles.

J. C. Ayer Co., Lowell, Mass.

A DELIGHTFUL SUMMER'S OUTING

City Ticket Office, Third and Washington Sts., Portland

"Usin' TIZ Gramma?"

"Yes, Harold, It Makes Grandma's Feet Feel Just Like Yours, Free from Tiredness, Aches and Corns!"

Send for FREE Trial Package of TIZ Today.

"Yes, TIZ Keeps Old Feet Always Young!"

"Your papa and mamma, your grandpa and your grandma all use TIZ, Harold. And you'll use it, too, when you get to be a man. Then your feet will never hurt, or get tired. That's why we all use TIZ."

Most of us get old, feet first. The bunions get stale, more wearisome and painful. Corns get harder and more stubborn as the feet become more tender. At a time when old people need their feet most, they can use them less—unless they use TIZ.

If you have never used TIZ before, your first use of it will bring back some of your girlhood days. TIZ will make your feet feel young, strong and vigorous. They'll never be tender, never chafe or ache, never get blistered or swollen, and your corns, bunions and callouses will be no more. Nothing will do it or can do it like TIZ. Don't experiment with other things; other people have done that for you and they are all now using TIZ. Don't accept any substitutes.

TIZ acts on a new principle—draws out all the poisonous exudations that make foot troubles.

TIZ, 25 cents a box, sold everywhere, and recommended by all drug stores, department and general stores. Write today to Walter Luther Dodge & Co., 1223 South Wabash Ave., Chicago, Ill., for a free trial package of TIZ by return mail, and enjoy the real foot relief you never felt before.

ECZEMA Itching or Psoriasis Poison Oak

Use Blanchard's Eczema Lotion Sold by Druggists.

FREE diagnosis, instruction and advice by C. E. Blanchard, at 231 5th st., Portland. He will also state how the disease will act and disappear under the use of this lotion. Call from 1 to 7 p. m., or write for symptom blank.

SANTAL CAPSULES MIDY
