WANTED—Male Help

MEN WANTED

For service as railroad machinists, blacksmiths, sheet-metal workers, coppersmiths, car inspectors, boilermakers, electricians, pipefitters, tinners, car repairers, helpers all classes, under strike conditions best explained by Chairman Ben W. Hooper of the United States Railroad Labor Board, in his statement of July 1, reading as follows:

"In this case the conflict is not between the employer and the oppressed employes. The people of this country, through an act of congress, signed by President Wilson, established a tribunal to decide such disputes over wages and working conditions, which are submitted to it in a proper manner. It is the decision of this tribunal against which the shop crafts are striking.

"Regardless of any question of the right of the men to strike the men who take the strikers' places are merely accepting the wages and working conditions prescribed by a government tribunal, and are performing a public service. They are not accepting the wage and working conditions which an employer is trying to impose.

"For this reason, public sentiment and full government power will protect the men who remain in their positions and new men who may come in."

Adequate provisions have been made for the full protection of all new employes, the same as old employes who have remained loyally at work.

Applicants should apply to the office of the superintendent at Portland, (Union station,) or to the assistant superintendent at Roseburg.
