## BRIEF INFORMATION

(16TH DAY OF 1917)

**Coming Events.**

Oregon Retail Merchants' association, and Northwest Retailers' association, Portland, February 19-24.

Oregon Retail Hardware and Implement Dealers' association, annual convention Portland, January 24, 25, 26.

National Child Labor Days, January 28, 29.

Cattle and Horse Raisers' Association of Oregon annual convention at La Grande, April 24-25.

**Today's Forecast.**

Portland and vicinity—Tonight and Wednesday fair; easterly winds.

Oregon—Tonight and Wednesday fair; easterly winds.

Washington — Tonight and Wednesday increasing cloudiness west, fair east portion; easterly winds.

Idaho—Tonight and Wednesday fair.

**Weather Conditions.**

The pressure continues high over practically the entire country, but it is decreasing over interior western and eastern Canada and adjoining portions of the United States. Precipitation has occurred in southwestern Montana, southern California and eastward and northeastward to the Atlantic coast and lake region with the exception of Oklahoma, Arkansas and western Tennessee. The weather is 10 degrees or more warmer in Alberta and southeastward to the upper Mississippi valley and corresponding colder in central and southwestern Montana and western Missouri; in general temperature changes elsewhere have been unimportant. The weather is abnormally cold in interior United States.

The conditions are favorable for increasing cloudiness in western Washington and for fair weather in the remainder of this district tonight and Wednesday. Temperature changes will not be important and winds will be mostly easterly.

T. FRANCIS DRAKE,
Assistant Forecaster.

*Afternoon report of preceding day.

## TOWN TOPICS

**Credit Men's Banquet.**—Under the direction of its banking and currency committee the Portland Association of Credit Men will hold a banquet at the Hotel Benson Wednesday night. Edward Coongham, vice president of the Ladd & Tilton bank, and Dr C. J. Smith, president of the Bankers' Mortgage corporation, will be the speakers. Mr. Cookingham will have as his subject, "Some Current Banking Problems of the Day" and Dr. Smith will talk on "The Federal Farm Loan System and Its Effect on the Pacific Northwest." Miss Lillian Sugat and Charles South will be the soloists of the evening.

**Pennsylvania Alumni Elects.**—Robert G. Dieck, city commissioner of public works, was elected president of the University of Pennsylvania alumni in Oregon at a meeting held in the University club Monday evening. Other officers chosen were: Dr. Calvin S. White, vice-president; H. C. Craner, secretary; Cliff R. Meloney, treasurer; Clarence E. Yeager, historian. Plans for the organization's annual banquet on Washington's birthday were discussed. February 22 is university day for Pennsylvania all over the world.

**Jenkins Leads Guilty.**—Clyde Jenkins, indicted with William Margulis for conspiracy in shipping liquor from California to Portland, pleaded guilty this morning in Judge Wolverton's court. Jenkins was taken into custody nearly this morning, after a protracted search for him under Deputy District Attorney Barnet H. Goldstein's direction. Sentence was stayed until next Monday. Margulis faces another indictment, with his son Duncan, for simple illegal importations of liquor.

**Father O'Hara to Lecture.**—"Conscience and Citizenship" will be the subject of the lecture by Father O'Hara at the Central library Wednesday evening. This is the third lecture in the series on religious influences in American life. The lecture will deal with the importance of conscience and also with the confession as practiced in the Catholic church. Father O'Hara extends an invitation to the ministers of the various denominations to be present.

**Exhibit of Measures.**—E. T. Judd, state exhibit agent, is preparing to keep on file at the state exhibit, 69 Fifth street, copies of all bills introduced into the legislature at Salem. He plans to make these accessible to all who are interested in legislation but who have no convenient means of consulting the measures which the assembly is considering. Copies of the daily senate and house calendars showing the disposition of all bills also will be kept on file.

**Confers With Engineers.**—T. Warren Allen, general inspector of the United States office of public roads, is in Portland today conferring with District Engineer Hewes regarding the construction of roads in the national forests under way and in prospect. Under the recent reorganization of the United States office of public roads, Allen was made inspector of all construction in the territory west of the Mississippi river.

**Problem of Drug Habits.**—A lecture on "The Problem of Drug Habits" will be given at the University club at 8 o'clock tonight by Paul M. Gilmer of the faculty of Pacific university. This is the second of the University club's series of lectures by Pacific university and Reed college faculty members. The public is invited. The lectures are given in the club's auditorium, entrance on Jefferson street between Sixth and Broadway.

**Church to Be Host.**—Tonight at 7:30 the Men's club of the Central Presbyterian church will be host to the boys of the east side. State Biologist W. L. Finley and his motion pictures of outdoor and wild animal life, and James S. Brockway, state executive of the Boy Scouts, make up two features that will prove highly entertaining to the juveniles. Following the program refreshments will be served.

**Concert for Sailors.**—The British steamer Wearwood being in port, the Portland Seamen's Institute will give a concert for her crew tonight at the Institute, 131½ Second street. All seamen and rivermen in port are invited to attend. In addition to the musical program, coffee and sinkers will be served.

**Lecture on Mount Jefferson.**—Next Tuesday evening Dr. A. J. Montgomery will give a lecture on "Mount Jefferson," illustrated with colored stereopticon slides, at the Central library at 8 o'clock. The public is invited.

**She Weighs 8¾ Pounds.**—Harry Durand, assistant postmaster at Portland, is the proud father of a baby girl weighing 8¾ pounds, which arrived early this morning. Mother and daughter doing well, he says.

**Steamer Jessie Harkins, for Camas** Washougal and way landings, daily, except Sunday. Leaves Washington Street dock at 2 p. m. (Adv.)

**Sale Marks' Shoes,** 243 Wash. (Adv.)

**Card of Thanks.**

We wish to extend our thanks and kindest wishes to our many friends and associates for their assistance, sympathy and floral offerings during the sickness, death and burial of our beloved wife and mother, Mrs. Elizabeth M. Douglass. Dr. A. S. Douglass and Children. (Adv.)

We wish to extend our sincere thanks to our many friends for their kind assistance and sympathy shown us in the loss of our mother, Mrs. Anna Elliott, and for the many beautiful flowers. The Family.

# LEGISLATORS TO VISIT AGRICULTURAL SCHOOL IN A BODY SATURDAY

## Citizens of Corvallis Are to Provide Special Train at No Expense to the State.

Salem, Or., Jan. 16.—The legislature, in a body, will visit the Oregon Agricultural college next Saturday.

Invitation from President W. J. Kerr of the college, who advised that the citizens of Corvallis would provide a special train for the legislators at no cost to the state, to visit the college was accepted by both branches of the legislature Monday afternoon.

In the senate Senator Strayer, who said he was opposed to junketing trips, made vigorous objection to accepting the invitation.

A committee of three from the senate and three from the house was appointed to arrange the details of the trip.

Senator Leinenweber introduced in the senate a memorial to congress asking that body to appropriate $3,000,000 for establishing a naval base at the mouth of the Columbia river.

Senator Steiwer introduced a resolution authorizing the committee on irrigation and the committee on railroads to employ jointly a clerk or stenographer.

Senator J. C. Smith's memorial to congress asking for an appropriation of $390,000 for the improvement of Crescent City harbor in northern California was passed by the senate.

# Bill Asks Statement Of Insurance Costs

Salem, Or., Jan. 16.—Senator Pierce has introduced in the senate a bill to require life insurance companies to print on the back of their premium receipts, statements and figures showing the exact amount it costs the insurance company to provide insurance, the expenses and profits.

The bill provides a table shall be given on the receipt segregating the total amount into integral parts as follows: Commission to agents, cost of insurance according to the American actuary table, expenses, profits, and the amount of the premium.

# State Land Board Alters Fees Rules

Salem, Or., Jan. 16.—The state land board has altered its rule regarding fees for examination of titles to read as follows:

"Fees charged for examination of titles shall be $10 for all loans of $1000 or under; on loans of more than $1000, an initial fee of $10 and in addition one-half of 1 per cent of the amount in excess of $1000 shall be charged."

For example, on a loan of $5000 the initial fee shall be $10 and in addition, one-half of 1 per cent on $4000, or $20, making a total fee of $30.

# Delinquent Tax Bill Now Before Senate

Salem, Or., Jan. 16.—As agreed by the Multnomah delegation, Senators Farrell and Orton Monday afternoon introduced in the senate a bill providing that notice of delinquent taxes shall be sent by mail instead of being advertised in newspapers. The bill also declares an emergency.

# Raise in Findings Boosts Repair Cost

**Cobblers Agree on Uniform Scale of Prices for Repairing Shoes in Keeping With Higher Price of Material.**

Portland shoe repair men have agreed upon a uniform scale of prices for repair work that takes into consideration the present high cost of findings.

Since the opening of the war the price of leather has advanced 125 per cent and repair shops have individually advanced their prices accordingly, but there has been no uniformity. Through the efforts of the Portland Rubber mills, manufacturers of rubber heels and fibre composition soles, the following scale of prices has been adopted:

Men's half leather soles, $1.25; fiber composition half sole, $1; men's half leather soles and heels, $1.75; composition sole and heels, $1.50; men's whole leather soles and heels, $2.75; men's leather heels, 50 cents; men's rubber heels, 50 cents; men's full rubber soles and heels, $2; women's half leather soles, $1; women's half leather soles and heels, $1.25; women's half leather heels, 35 cents; women's rubber heels, 50 cents.

# Slayer Takes Stand In His Own Behalf

Klamath Falls, Or., Jan. 16.—Taking the stand in his own defense, William Doyle, now on trial for the shooting of Mrs. Mary Wilcox and her daughter, Maggie Jones, in Langell valley last February, underwent a severe cross examination at the hands of Judge Thomas Drake, for the prosecution, Monday.

Doyle made a good witness admitting the facts as given by him in his first story at the time of the shooting, and steering clear of the traps set for his entanglement by the prosecution.

A strong chain of evidence has been brought against him. The examination of Doyle, who is the last witness, will be concluded today and the case will probably go to the jury Wednesday.

# Pershing's Aviators To Seek Lost Flyers

Calexico, Cal., Jan. 16.—(U. P.)—Yuma or Ajo, Ariz., will today become one of the points from which search for Lieutenant Colonel Bishop and Lieutenant Robertson, army aviators, missing for a week, will be conducted. This follows a report to officers here that the men were seen by an American surveying party flying eastward near the old bed of the Colorado river. This report in a measure substantiates a previous report and will be investigated.

Aviators from the Pershing expedition's supply base at Columbus, N. M., are expected to fly to the Arizona towns and fly south from there.

**Fogs Delay Departure.**

San Diego, Cal., Jan. 16.—(U. P.)—High fogs over the Jacumba mountains early today prevented the start of the aviators who hope to locate Lieutenant Colonel Bishop and Lieutenant Robertson, believed lost in the wilds of Lower California.

Four powerful scout machines are waiting for favorable weather conditions, when the start will be made.

The North Island camp has received no additional word from the missing men.

**Mail Summons Successful.**

Dallas, Or., Jan. 16.—The plan of summoning jurors by registered mail proved so successful at the recent session of the circuit court here, that local attorneys are drafting a bill to make that method of jury summons legal. The bill will be presented in the legislature by Conrad Stafrin, representative from this county.

**Norwegian Ships Seized, Report.**

Berlin, Jan. 16.—(I. N. S.)—Via Sayville Wireless—Four Norwegian steamers under construction have been confiscated in England, according to Christiania reports today.

Among them are the Modesta, 6000 tons, and Ringda, 10,000 tons.

He's Got The Goods

Ray Barkhurst, Portland's leading tailor, Sixth at Stark St., bought a great big stock of woolens when he saw that prices would advance. Now he's making clothes to order for only $18 upward. You can't beat this price; not even in fair suits "off the rack." So you might as well let Ray take your measure for a spring suit.

# ATTORNEYS OF COUNTY HAVE DISCUSSION OF PROPOSED NEW LAWS

## Cash Bond for Foreign Fidelity and Indemnity Companies in the State Indorsed.

The Multnomah County Bar association, at a meeting held last night, indorsed the draft of a bill prepared by Frank S. Grant, former city attorney of Portland, requiring foreign fidelity and indemnity corporations to deposit $50,000 with state authorities as a condition precedent to doing business in Oregon. The proposed bill was referred to the legislative committee of the association with instructions to press for its passage at Salem.

Mr. Grant explained, and others concurred with him, that such a measure has been made a necessity by the frequent trouble experienced in collecting from such corporations after judgment has been secured and affirmed. In some instances they have gone broke, while in many cases it has been necessary to sue again on the judgment in the states in which their home offices are located.

**Appeal Bond System Upheld.**

The association voted down a proposal that municipal corporations be not required to furnish appeal bonds, the measure further providing that bond on stay of execution pending appeal should be optional with the court. Ralph R. Duniway and W. M. Davis vigorously opposed the proposed law. The proposed bill was inspired by the Portland city attorney's office and was based on the fact that the city annually pays out several hundred dollars for appeal bonds.

Attorney Ganoe's suggestion that section 299 of Lord's Oregon Laws be amended to provide a method of levying on any judgment which a judgment debtor may have to his credit met with favor. His proposed amendment providing for attachment before a debt is due in certain cases, principally on the ground of fraud, met with almost unanimous rejection. It was based on Attorney Ganoe's experience in a case wherein a lessee paid his other creditors while judgments for rent were piling up against him and then went into bankruptcy, thus defrauding his landlord.

**Attachment Laws Sustained.**

Opponent after opponent of the proposed amendment pointed out ways in which it could be used to work great injustices to debtors. Sentiment was strongly in favor of not tampering with the attachment laws in any way.

A third suggestion of Attorney Ganoe that attachments might be served on Sundays or other non-judicial days where the creditor was afraid that he would suffer loss otherwise was also voted down.

An amendment providing for appeal where a judge finds in the defendant's favor despite a default having been taken was presented by George S. Shepherd and approved.

Another measure now before the legislature, giving a successor in interest the same right as a judgment debtor to redeem property, was indorsed.

# Convicted Consular Officials Retained

San Francisco, Jan. 16.—(P. N. S.)—Dr. Erich Zoepffel, German consul general at Seattle, who has been designated to replace Franz Bopp as consul general in San Francisco and who was expected here today, has been detained in Seattle and will not arrive until the end of the week.

Coincident with this announcement, it was reported today that Bopp and Vice Consul von Schack will be retained on full salary by the German government, at least pending the outcome of their appeal from their conviction for conspiracy against the neutrality of the United States.

Their removal had been designated as "temporary" by the German embassy at Washington.

# I. C. C. Export Grain Decision Reversed

Washington, Jan. 16.—(U. P.)—Completely reversing their famous export grain decision of a year ago, the Interstate Commerce commission today permitted the railroads an increase of 1 cent per 100 pounds on grain products and by-products from Chicago and Central Freight association territory to Atlantic ports for export.

The reversal was made "in the light of additional evidence."

When writing to or calling on advertisers, please mention The Journal. (Adv.)

# OREGON GYPSUM FIRM WANTS LOWER RATES TO MEET TWO RIVALS

## O-W. R. & N. Company Willing to Make Freight Charge Less but Concerns Object.

Rates on lime and plaster from eastern Oregon to Portland are under consideration of the public service commission, a hearing having been held yesterday afternoon at the commission's Portland offices. The Pacific Lime & Gypsum company of Gypsum, Or., near Huntington, appealed for a rate of $2 per ton, a reduction from the $2.50 rate now prevailing. The principle of the "fourth section" of the act to regulate commerce is invoked in the points between Portland and Gypsum.

At yesterday's hearing it developed that the O-W. R. & N. company is willing to make this low rate to Portland, but opposition developed from the Pacific Portland Cement company of San Francisco and from the Pacific Coast Gypsum company of Tacoma, who asserted that the lower rate would shut them out of the Portland territory. The Gypsum, Or., company, however, asserted also that any higher rate would, in turn, shut it out because competition by water of the California gypsum and the Washington gypsum laid down in Portland at lower rates precludes their participation in any but small work.

H. E. Lounsbury of the O-W. R. & N. and James A. Keller of the Pacific Portland Cement company were the principal witnesses at yesterday's hearing. The gypsum company stated that it has an investment exceeding $500,000 at Gypsum and employs between 50 and 100 men with a monthly payroll of about $6000. The future of this industry depends upon the freight rate, the petitioners contended.

The commission has taken the proposal under advisement and will decide the merits of the controversy on the evidence and argument submitted.

**Logger, Hurt, Improving.**

Dallas, Or., Jan. 16. — Ernest W. Davidson, a logger employed at Black Rock, who was brought to the hospital in this city Saturday suffering with a broken arm and serious injuries to his back, by being struck by a broken cable, is improving and will soon be able to be out of the hospital.

# Joint Installation of G. A. R. at Albany

Albany, Or., Jan. 16.—At Armory hall Saturday night members of McPherson post and Ellsworth post, G. A. R., and Ellsworth corps, W. R. C., of Corvallis, were guests of honor at a joint installation of officers. Twenty-three members came from Corvallis. The ladies of Fair Oak circle No. 1, G. A. R. served dinner at noon. "Uncle" Joseph Yates of Corvallis played violin selections.

It was unanimously voted that members of the local organizations will attend the joint installation ceremonies at Corvallis next year. There was a program of speaking and many old friendships were renewed.

The visitors were given a vote of thanks for their attendance, and they in turn thanked the local members for their hospitality.

Minneapolis Adopts the Automatic

WHEREVER the public has given the Automatic a real trial it has become the dominant telephone service. Like wireless telegraphy, the wireless telephone and other great inventions, the public has been slow to see the superiority of the Automatic. Minneapolis, one of the great, progressive cities of the Northwest, has adopted the Automatic as the leading telephone system.

Portland's Opportunity to Test the Automatic Without Cost!

Like Minneapolis, Portland will see the superiority of the Automatic. I am giving 1000 homes the use of this modern, secret service WITHOUT COST until July 1. The only conditions are that you do not have an Automatic now and it will be the only phone used during this time. Call A-6221. Just say you want Automatic service at my expense.

Samuel Neill

The Owl won't gutter

Why should it?

A cigar properly lighted, can't "gutter" (burn down one side) unless it *draws* unevenly. And it won't draw unevenly unless it is *made* unevenly.

Now in the OWL you get the results of careful, hand-workmanship. The leaves are laid together firmly and evenly all around. No loose spots on one side and extra pressure on the other. No chance for the OWL to burn unevenly, because the OWL "draws" the same right across its whole diameter.

Free-drawing and even-burning are two reasons why you enjoy smoking the OWL—enjoy it once, twice and every time.
