OREGON COAST PORT TO GET FEDERAL AID TO DEEPEN CHANNELS

With Coos Bay Cared For, Umpqua River, Tillamook and Siuslaw Expect Help.

COOS TRADING DOUBLES

Marshfield and North Bend Both Contribute Funds With View to Making Safe Harbor.

Washington, Aug. 13.—(WASHINGTON BUREAN OF THE JOURNAL.)—With a favorable report returned by the army engineers on the proposed deepening of the channel at Coos bay, another item is added to the new projects which Oregon will be entitled to ask for in the next rivers and harbors bill.

The Coos bay report approves a project involving an expenditure of $150,000 by the government for construction, which the engineers say should all be provided in one appropriation. The report on Yaquina approves an appropriation of $418,000 by the government, to be matched by an equal sum contributed by the ports of Toledo and Newport. A report on the Coquille river approves an $18,000 project for improvement of the channel.

Three other reports on examination of proposed new projects in Oregon are expected to be received in time for action at the next session of congress, provided always that the stress of war legislation does not crowd river and harbor work into the background.

Three Reports Expected

One of these reports will deal with the proposed construction of a jetty at the mouth of the Umpqua river, to scour out a permanent channel over the shallow bar. Another will be on the improvement at Tillamook, where the engineers are expected to report as to whether Hoquarton slough or the Tillamook river should be preferred for the future development of commerce. The third report will deal with improvement of the inner harbor at the Siuslaw.

The report just presented on Coos bay shows some interesting things. The commerce for 1915, the latest figures given, amounted to 448,447 tons, valued at $7,207,264, which is a little more than double the tonnage carried in 1910.

There has been a total expenditure for improvement at Coos Bay, under all projects, of $1,634,323. On the present project the total spent up to June 30, 1916, was $835,425, including $11,100 contributed by local interests. But in addition to that, since 1915, the Port of Coos Bay has spent $600,000 to increase the depth of channel beyond the government project depth.

Port Deepens Channel

The existing government project calls for a channel 18 feet deep and 800 feet wide opposite Marshfield and North Bend, with 200 feet width at other points. The Port of Coos Bay was ambitious, and with its own money increased the depth to 25 feet from Marshfield to Pigeon Point reef, where a rock ledge establishes a depth of 18 feet.

Since the increased depth was secured by use of local money, it is stated, there has been considerable shoaling, and the controlling figure now is 19 feet. Thus, while vessels drawing 24 feet can cross the bar, they cannot pass Pigeon Point.

Under the new project the Pigeon Point reef will be cut away to 22 feet for a width of 300 feet and the 22 foot depth made uniform from the entrance to Smith's mill, above Marshfield. The general width recommended is 200 feet elsewhere except opposite North Bend and Marshfield, where 300 feet is favored to allow turning room.

The estimated cost of maintaining the 22 foot channel is $30,000 a year, which it is proposed the government shall assume. This is said to be sufficient depth for present purposes, but in providing for cutting the reef of rock at Pigeon Point to a width of 300 feet the further improvement is kept in view.

Plan Urged to Get Foreigners to Serve

War Department Asked to Draft Allies in Butte Into Armies of Countries to Which They Belong.

Butte, Mont., Aug. 13.—(I. N. S.)—The county exemption board here has sent a message to the war department asking the nation to draft all aliens in Butte into the armies of the countries to which they owe allegiance.

The message says it might not be wise to place these men in the American army. This action was taken because of the wholesale attempts to evade duty by foreigners here. Scores are pleading they have dependents in foreign countries. Many have been caught perjuring themselves by denying citizenship.

Prominent among those seeking to evade military service are Irish, in favor of home rule, and Finns.

Married Men May Be Given Exemption

Action Being Considered in Los Angeles Because of Alleged Escape of Single Men Who Have No Dependents.

Los Angeles, Aug. 13.—(U. P.)—Adoption of a more uniform sytsem of exemption, which may result in all married men being exempted from service in the first call, is to be discussed at a meeting of all local exemption boards Tuesday night.

This follows complaints by many married men that they were being drafted while scores of single men, without dependents, were escaping, owing to a lack of uniformity in the work of the boards.

A majority of the district exemption board chairmen are now in favor of exempting all married men until all of the single men without dependents have been taken.

Harrisburg Crops Small

Harrisburg, Or., Aug. 13.—The continued drouth is playing havoc with the bean crop in this vicinity, the beans drying up on the vines without maturing and the crop of beans this year will be comparatively small. The potato crop will also be small this year owing to the lack of moisture.

OUT OF SEASON

—From the Philadelphia Evening Ledger.

RAYMOND FISHERMEN AGREE TO LET FISH REACH SPAWNING BED

Temporary Suspension of Use of Seines to Enable All Commercial Men to Stay.

Raymond, Wash., Aug. 13.—Deputy State Fish Commissioner W. E. Clancy was in this city Wednesday in consultation with Superintendent Mayhall of the state fish hatcheries. Mr. Mayhall is at present superintending the construction of the state hatchery on the South Fork, near Raymond. The hatchery, which is 30 by 78, will have a capacity of 2,500,000 eggs. In addition to the hatchery building, a residence will be erected for the keeper.

While here Mr. Clancy secured an agreement from the fishermen on the harbor to refrain from fishing with trap, seine or net from 6 o'clock Friday to the same time Sunday night, in order to give the fish an opportunity to reach their spawning grounds. The harbor could be closed permanently for this season but by making this agreement the fishermen will be allowed to ply their trade still.

Pioneers Celebrate

Raymond, Wash., Aug. 13.—August 6, Mr. and Mrs. Frederick Kirsch of Lebam celebrated their fifty-first wedding anniversary, having been residents of the Willapa valley for 43 years. They have a rich and productive farm and people wish them long years yet to live and enjoy the fruits of their toil in the pioneer day, in which they figured prominently.

Mr. and Mrs. R. S. Van Tuyl of South Bend, also pioneers of this section, having been residents of Pacific county for 30 years, celebrated their fiftieth anniversary August 4. Mr. Van Tuyl has been prominent in county official circles for a number of years, but retired from active duty a couple of years ago.

New Demonstration Hospital Is Opened

Methods of Treating Infected Wounds Will Be Studied in Rockefeller Institute Research Branch in New York.

New York, Aug. 13.—(I. N. S.)—To demonstrate to American surgeons methods of treating infected wounds, the Rockefeller institute for medical research has opened its war demonstration hospital in this city.

The demonstration hospital has been housed in a series of portable buildings such as are used in the most improved base hospitals on the western front.

Dr. Alexis Carrel has been granted a leave of absence by the French government to demonstrate the methods he has helped develop.

Royal Heads Make Aeroplane Flight

Zurich.—(By Agence Radio to the I. N. S.)—Aug. 13.—The King of Wuertemberg, Czar Ferdinand of Bulgaria and his sons, and the Princes Boris and Cyril, Saturday, visited the Zeppelin construction works at Freidschaffen and flew over Lake Constance, according to Berlin dispatches.

Colorado Girl Drowned

Miss Sadie Pharis, 21 years old, a visitor from Colorado at the ranch of J. H. Duncan, on the Rex-Tigardville road, was drowned Sunday afternoon in the Tualatin river while bathing. The body has not been recovered.

OREGON CONGRESSMAN TURNS DOWN JUNKET; SAYS HE IS TOO BUSY

McArthur Will Tour the Coast Navy Yards in Autumn and Pull for Bar Naval Base.

Washington, Aug. 13.—(WASHINGTON BUREAU OF THE JOURNAL.)—Representative McArthur, who recently became a member of the house naval affairs committee, did not go with the committee for a tour of the south Atlantic and Gulf naval stations, but says he will visit all the naval establishments on the Pacific coast between the adjournment of the present extra session of congress and the regular session in December.

He will thus be in position to speak from personal observation of the Pacific coast stations, and to gather data concerning prospective improvements and new stations. The question of an appropriation for a submarine base at the mouth of the Columbia river is one of the matters which will receive attention at the regular session. McArthur is the only Pacific coast member of the committee.

The committee stops first to inspect the navy yard at New Orleans, embarking then on the yacht Dolphin to visit all the naval posts in the Gulf, the Caribbean and the south Atlantic. Mr. McArthur excused himself from this trip because of other official business, and will remain here until congress adjourns.

Hunger Strike Ends Suddenly at Butte

All Went Well Till Some of Prisoners Found That Leaders in Movement Were Eating From Cache in Cells.

Butte, Mont., Aug. 13.—(U. P.)—They have the strike habit in Butte.

The last word in strikes developed when it was learned that prisoners in the county jail have been on a "hunger strike" for seven days, for better food.

Frank Fisher and John O'Neill, murderers under sentence of death, started the strike. It rolled along merrily until other prisoners learned that the instigators had been eating all the time from a cache of food in their cells.

Then the strike was called off.

Pro-Germans and I. W. W. Hit by Bills

Washington, Aug. 13.—(I. N. S.)—Senator King of Utah today introduced bills designed to curb the activities of the I. W. W. and pro-German agitators.

One bill would forbid the publication of criticism of the administration's foreign policies in foreign languages.

Another bill would provide for the cancellation of citizenship papers obtained by fraud, and for the deportation of holders of papers so canceled.

Saxony Court Turns Down Woman's Plea

Zurich.—(By Agence Radio to the I. N. S.)—Aug. 13.—The supreme court of Saxony has rejected the appeal of Rosa Luxemburg, the woman anarchist leader. She recently was sentenced to six weeks in prison for disobeying the decree ordering that the police must be notified of all political meetings, and receive advance copies of speeches.

DISTILLERS BELIEVE 'NO-GRADE' CORN IS GOING TO LIFT LID

Great Supply of Otherwise Useless Grain Is Expected to Give Revenue Chance.

Peoria, Ill., Aug. 13.—A backward spring, late corn, an early frost, acres of corn undeveloped and unfit for food, a demand for a market for this grain and enactment by congress next winter of an amendment to the food bill permitting distillers to resume manufacture of distilled spirits—these are conditions which a leading distiller predicts might lift the national lid on whiskey making.

Corn, unsuited for human food products and even for animal food, is utilized chiefly in the manufacture of spirits. In normal years the supply of no-grade corn is practically all taken by distilleries. In recent months the Peoria distilleries have taken this supply and in addition thousands of bushels of higher grade corn at the rate of 250,000 bushels a day.

With prospects of a bumper crop of corn and an average yield of good corn equal to last year's crop, grain men predict that even with the war demand corn will be much cheaper. With distillers out of the market for "whiskey" corn, grain men predict that farmers will be demanding a new market for the low grade product.

If this appeal is presented strongly enough at Washington distillers sight a movement by congress to relieve the situation.

Soldiers' Equipment Prices Are Skyward

Washington, Aug. 13.—(U. P.)—Unfair war retail prices condemned by Food Commissioner Hoover are not confined to food. Investigation here Saturday revealed that articles of soldiers' equipment have shot skyward in price since America entered the war.

Canvas leggings have gone in quick 25 cent jumps from 50 cents to a flat retail price of $2.

Uniforms, not supplied by the army, have increased in cost 50 per cent in some places.

Caps, leather puttees, brass and copper insignia, even the tiny swagger sticks which are so popular with officers and men, have gone up.

Hungarian Press Is Becoming Indignant

Washington, Aug. 13.—(U. P.)—The Hungarian press is becoming indignant at conditions in the central powers, cables from Rome announce.

There has been a complaint that the government is feeding the people on promises only. One paper claims that directors of Austrian and Hungarian prisons can not find food for the prisoners, who are being allowed to die for want of food.

In Moravia and Sylvania the hay crop has been ruined by drought, entailing the loss of vast quantities of fodder for cattle.

Speeding Auto Hits Tree; One Man Dies

Boston, Aug. 13.—(I. N. S.)—An automobile, racing at 80 miles an hour along the boulevard in Milton, early Sunday morning, crashed with a tree and one man was killed, a young woman is dying and another young woman and two young men are suffering from serious injuries.

SHOWDOWN ON PEACE ISSUE TO BE FORCED BY ADMINISTRATION

Clamor of Senator La Follette and His Kind Begins to Embarrass Government

Washington, Aug. 13.—(I. N. S.)—Administration forces prepared today to force a "showdown" on the peace issue raised in the senate by the introduction of the La Follette resolution Saturday. They may follow the same course pursued by leaders last year, when the question of warning Americans off armed merchantmen was raised by the Gore and McLemore resolutions.

The clamor of the pacifist group, of which Senator La Follette is the leader, is beginning seriously to embarrass the administration, not only at home but abroad, leaders in the senate declared today.

It is doubtful whether the pacifist group could muster more than a dozen votes, and some senators took the view today that it would be a good plan to move to table the La Follette resolution. This could force a roll call and show plainly to the world that the senate is backing the administration unswervingly in the conduct of the war, they pointed out.

This, however, would not prevent the pacifists from renewing their protests against the continuation of the war from time to time. This they intend to do.

From now on until the end of the session, the nation may expect peace debates almost every day, just as it had war debates daily before war was declared.

Senator La Follette is prepared to speak on his resolution this week. He is not only going to urge a redefinition of America's war aims but will advocate the creation of a joint international fund to restore Belgium, Serbia, Poland, Northern France and other devastated regions. Senator Stone, chairman of the foreign relations committee, who has not been in the White House confidence since he broke with the president over war with Germany, has also prepared a long peace speech.

Pastor Denounces La Follette

Washington, Aug. 13.—(U. P.)—Denouncing Senator La Follette and "his pacifist colleagues in congress" as "friends of the kaiser," Rev. D. H. Martin, pastor of Wesleyan M. E. church, declared them "unfit to hold seats in congress."

The pastor's sermon was on "The Friends of the Kaiser in America."

Nineteen Fishermen Lost Off Cape Cod

Boston, Aug. 13.—(I. N. S.)—Nineteen men are reported to have been drowned in a diaster to a fishing boat off Cape Cod. Two other boatloads of men are reported missing.
