Woman's War Work

BY VELLA WINNER

MRS. C. W. HAYHURST, one of the prominent workers in the Laurelhurst club Red Cross unit, returned home Monday from a 10 days' visit in Victoria, B. C., where she made an extensive study of the war work of the women of British Columbia.

"There is not the least suggestion of fad or fancy to their splendid work," stated Mrs. Hayhurst in speaking of her trip.

"There is not an idle moment, it would seem, for the women of Canada. Wherever you see women gathered together socially, or in transit, or waiting for appointments they are working on some necessary article for the needs of their army. The knitting needles are constantly flying and the output of work is beyond belief. Victoria alone with her population of about 50,000 is sending 5000 pairs of socks, 2000 pajamas, 2000 sheets and countless other articles per week to the front. The women have managed their work with admirable business foresight. The Red Cross funds raised in the city have gone to a central headquarters there, where materials are purchased in large lots for six months' work. In this way the work has gone on during the last six months when the cost of wools and all other materials has advanced so fast, with a saving of approximately $5000. The surplus left after the home supplies are furnished then goes on to the national headquarters of the Red Cross.

"Huge cutting machines cut the materials for the various hospital garments, such as bed socks and pajamas, and these are then distributed to the many small sewing units about the city. The work accomplished has reached a splendid stage of perfection and in all public buildings may be seen most interesting exhibits of the different branches of work being carried forward. The war there is so close with its frightful toll in the lists of casualties being constantly printed that the work seems never to flagg, but to be gaining impetus with every new demand that is made. At every turn a box is found asking for contributions to this or that branch of the work. Even the animals are not forgotten and the Blue Cross, which furnishes hospital care for the wounded Red Cross dogs or the horses who have been hurt in action finds a ready response from a people who seem in all reason to be hardened in bereavements and cares beyond the capability of feeling for the poor brutes."

Mrs. Charles McDonald is chairman of the Woodstock auxiliary to the Portland branch of the American Red Cross.

Bend Women Take Up Knitting.—The Red Cross chapter at Bend has formed a knitting committee under the direction of Mrs. C. S. Hudson, chairman, and an appeal is being made to all the women of the community to aid in carrying on Bend's share of the work.

An appeal has been made to the Bend chapter from Major Grayson M. P. Murphy, Red Cross commissioner for Europe, for knitted sets comprising sweaters, mufflers, wristlets and socks, says the Bend Bulletin. The Red Cross supply bureau is arranging for a large supply of yarn and knitting needles to meet the requirements of the chapters.

Tacoma Women Prefer Knitting.—The Tacoma women are quoted as having scorned Hoover food cards. In a recent article in the Tacoma Ledger it is stated that the women knit on with added zest to provide the boys of the "Tacoma" with warm garments for their northern water cruising. So keen is the interest in the navy comforts committee that the league's other activities have become almost secondary. It was planned to make a citywide canvass with the Hoover food cards, but there seems little interest in this work. Every one is busy with other things, besides, the majority of women, or at least a great many who are interested at all in matters of public concern, seem to feel that a registration for saving food is not important. "Most of us have done that sort of thing—saving in the kitchen—all our lives. We have to, and we do not need to sign any card," said one little gray haired woman who came in to see about it. And this reflects the sentiment of a great number.

Miss Groves to Instruct.—Miss Edna Groves will give free instruction and demonstration in canning and drying fruit and vegetables Thursday morning at 9:30 o'clock at Washington high school domestic science laboratory and again in the afternoon at 1:30 o'clock.

First Aid Class Postponed.—The Portland Independent First Aid society will have no meeting Wednesday evening owing to the number of members who are out of the city.

Knitted Garments Shipped.—The Hoquiam, Wash., branch of the Woman's Service league shipped a large consignment of knitted articles to the general headquarters of the league at Washington, D. C., the latter part of last week. The shipment consisted of 26 scarfs, 22 sweaters, 25 pairs of wristlets and 26 helmets. With the supplies knitted by women of other sections of the state they will be used in outfitting the sailors in the navy. The original plan of the league was to have the women of each state furnish the outfits for the men on the battleship bearing the state's name.

The yarn for these articles was purchased by Hoquiam women, and the knitting was donated, making the entire shipment a gift of the women of that place.

Red Cross Activities in Albany.—It might be said that the Red Cross in Linn county is getting down to a real working basis. The reports of committees, and especially the county organization committee made at a meeting in Albany last Wednesday, indicates that the organization has just made the turning point from a state of organization to a state of actual work. The organization, for the first time since its existence in Linn county, has definte by-laws governing its action. Since the Linn chapter was formed several months ago, it has been passing through a state of evolution and by actual experience taking definite form. By-laws have been adopted.

Committees that had been named as necessity demanded, as the organization proceeded, have been incorporated in the rules and are now a permanent part of the chapter.

Spokane Women Follow Hoover Idea.—A number of women of Spokane have given out their menus for publication, all made to conform with the meatless and wheatless meals advocated by Mr. Hoover for each day only to find that they have in most cases erred in the use of graham flour. One of the popular misconceptions about the wheatless meal requirements of the Hoover plan, says the Spokesman-Review is that graham flour is not made from wheat. Graham was the name of a doctor of the '80s or '90s who declared that coarse wheat flour was better than the bolted product. The coarse flour is called graham after Dr. Graham. People who use white bread twice a day and graham bread at the third meal are not having a wheatless meal a day.

National Woman's Club to Meet.—The National Woman's Party will give a benefit afternoon in the parlors of Mrs. Helen E. Starrett, 720 Sherwood Drive, Portland Heights, on Thursday, August 23, from 3 to 6. Mrs. Starrett will give personal reminiscences of Susan B. Anthony, Elizabeth Cady Stanton, Lucy Stone, Mary A. Livermore, Lucretia Mott and other pioneers of the suffrage movement, with special reference to the proposed federal amendment. Mrs. H. A. Curtiss of Salem, Miss Emma Wold, Mrs. W. J. Hawkins and Mrs. Mary C. Therkelsen will explain the diplomatic propriety of pressure for immediate passage of this amendment as a war measure.

Last of Series of Lectures at Montavilla School.—There will be a demonstration of pickling, jelly making and canning of corn at the Montavilla school Thursday at 9 o'clock, by Mrs. Baker. This is the last of the series of instructions and a large attendance is desired.

To Sew for Third Oregon Boys.—Coterie members and friends will sew for the Third Oregon Thursday afternoons in the committee room at Meier & Frank's.

FRATERNAL NOTES

Oregon Red Men in Session—Hold Banquet—Excursion.

Great Council In Session. — The great council of Oregon, Improved Order of Red Men, began its sessions Tuesday morning at Eagles hall, Great Sachem E. A. Coe, presiding. Seventy delegates and about 30 officers, committeemen and past sachems are in attendance. The election of Judge Robert G. Morrow to succeed to the position of great sachem is conceded, but lively contests are expected over the election of several other officers. The proceedings will close tonight with the installation of the newly elected officers. This forenoon a large party of delegates and guests made a trip over the Columbia river highway. Thursday night the delegates will be guests of Winona Tribe at Selling-Hirsh hall.

M. W. A. Joint Outing Arranged.—The Modern Woodmen of America and its sister order, the Royal Neighbors of America, have united for the annual outing and field day at Columbia Park next Saturday. This is expected to be the largest and most interesting event of its kind given by the orders in this city. A large joint committee has been meeting weekly for some time to make the arrangements, secure the large list of prizes and provide amusement for young and old.

Will Celebrate Semi-Centenial.—The fraternal orders of the United States having death benefit certificates have arranged to celebrate the fiftieth anniversary of the founding of the Ancient Order of United Workmen, the first order to issue such a form of protection to the families of workingmen and men of small means payable monthly.

New Ritual for A. O. U. W.—The Ancient Order of United Workmen of Oregon have adopted a new ritual and will put it on in Portland lodge No. 1 very shortly. It has been written and compiled by D. C. Herrin, grand master, who has written three other fraternal rituals remarkable for their brevity, fraternal spirit and instructive character.

WAR TIME COOKERY

"Store" cheese,—more propertly known as American Cheddar—is more nourishing, pound for pound, than any meat and therefore should have a prominent place in the diet as a meat substitute, says a statement issued today by the United States department of agriculture.

"Few people in this coutnry eat cheese in sufficient quantities for it really to form an important part of the daily fare," says the statement. "Indeed, it is used more often simply as an appetizer or as a seasoning for some other food. Nearly every one relishes good American Cheddar or 'store' cheese, but there is an impression that it is indigestible and constipating. Extensive digestion experiments carried on by the department of agriculture have demonstrated that more than 95 per cent of the protein of cheese is digested and 90 per cent of its energy is available. Even when eaten in large quantities and for long periods, no case of indigestion, constipation, or other disturbance was observed in those who ate it. One man who ate cheese as the chief source of both protein and energy, eating an average of 9.27 ounces daily, with bread and fruit, for more than two years, did a fair amount of muscular work and kept in good health.

"American Cheddar cheese is a very satisfactory substitute for meat. It can be kept in storage for a long time, and contains much food in small volume.

"A pound of cheese supplies more than twice as much energy as a pound of fowl or round steak and almost twice as much protein as the same amount of fowl or ham. Cheese, therefore, is usually a cheaper food than the meats.

"Cheese can also be combined in many palatable dishes. When grated it may be used in soups or with many vegetables. Other foods in which cheese is used are: Macaroni and cheese, Welsh rabbit, tomato rabbit, baked rice and cheese, baked crackers and cheese, vegetable and cheese rolls, cheese omelet, oatmeal and cheese and cheese mush.

"Recipes and further information are given in Farmers' Bulletin 487, 'Cheese and Its Economical Uses in the Diet,' which may be obtained free on application to the department of agriculture, Washington, D. C."

WEDNESDAY

Spread the Meat Flavor

Spread the meat flavor and so economize on the amount of meat consumed, says the United States department of agriculture. Here is a suggestion for making a delicious dish from an inexpensive steak.

Mock Duck

On a round steak cut thin, place a stuffing of bread crumbs well seasoned with chopped onions, butter or other fat, salt, pepper and flavorings such as sage, celery seed, etc., if desired. Roll the steak around the stuffing and tie in several places with a string. If the steak is tough steam or stew the roll until tender before roasting in the oven.

If desired, the roll may be cooked in a casserole in which case a cupful or more of water should be added.

Friends Fear Leep's Mind Is Affected

Washington, Aug. 22.—Friends of Homer H. Leep of Myrtle Point, Or., believe that mental derangement is responsible for his strange actions during the past several weeks, when he has been posing as a United States army officer and cashing bad checks, according to the special agents by whom he was arrested at New York Saturday.

When taken in custody, Leep was wearing the uniform of a major and was preparing to leave for Europe on a transport. According to the war department, Leep is not entitled to wear the uniform of an army officer, as he was dropped from the Dayton aviation training camp without a commission.

THOSE AWFUL CRAMPS

Suggestions that may save Much Suffering.

Marysville, Pa.—"For twelve years I suffered with terrible cramps. I would have to stay in bed several days every month. I tried all kinds of remedies and was treated by doctors, but my trouble continued until one day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for others. I tried it and now I am never troubled with cramps and I feel like a different woman. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly and I am recommending it to my friends who suffer as I did."—Mrs. George R. Naylor, Box 72, Marysville, Pa.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

Write for free and helpful advice to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Only women open and read such letters. (Adv.)

SPOKANE UNIONIZED WORKERS DENOUNCE ARREST OF I. W. W.

Central Labor Council Passes Fiery Resolutions Against Actions of Officials, Army.

Spokane, Wash., Aug. 22.—(U. P.)—There is no question about the stand of Spokane's labor unions in the present I. W. W. situation.

Charges that the 27 Industrialites were arrested Sunday because of the cowardly and criminal action of city and county officials were made in resolutions written into the records of the Spokane Central Labor council. The resolutions follow, in part:

"We go on record as declaring that, in view of the lawless element occupying the seats of authority and in view of the dethronement of justice by the very men sworn to uphold its sacredness, we believe the I. W. W. justified in resorting to the only weapon legally at their command—the strike.

Interference Is Denounced

"We denounce the unwarranted interference with the right to strike by the military arm of the government as worthy of Russia in her darkest days, but absolutely intolerable in America. We denounce as unwarranted the pernicious meddling of E. E. Blaine of the public service commission.

"We demand as a protest against the Prussianizing of America that all men representing labor on any and all boards immediately resign, and particularly Ernest Marsh, from the state council of defense; W. J. Coach, from the appeal board, and A. J. German from the city council.

Release of Prisoners Demanded

"We demand from our representatives in Washington and from the president and war department that these men, illegally arrested and held, be at once released and that immediate investigations be held to determine the guilty parties and that they be punished for their crime. We demand of E. P. Marsh, president of the state federation of labor, and Samuel Gompers, president of the American Federation of Labor, that a general strike of all industry be called until such time as may be necessary to insure observation of the law and the constitution by the officers sworn to protect both."

Oakland Enquirer Is Under New Control

Oakland, Cal., Aug. 22.—(U. P.)—The Oakland Enquirer today passed from the control of Gilbert B. Daniels to W. W. Chapin, John F. Connors and Carl Brockhagen. The amount paid Daniels for the publication was $250,000. Daniels has been publisher of the pioneer organ for the past 20 years. He retires today to private life. Chapin was formerly publisher of the San Francisco Call before it went into the evening fiel . Connors was for years identified with the Oakland Tribune, and Brockhagen with the San Francisco Bulletin and eastern papers.

The Journal Woman's Calendar

By Vella Winner

WOMEN, AVOID BEING PERSONAL Woman's broader life is making her become accustomed to expressions of opinion, free from any personal element. But occasionally one still runs across a woman who allows personalities to cloud her better judgment, who cannot discuss any club business in a perfectly impartial way.

Not only in club life but in other fields this attitude is more characteristic of women than of men. Men can have their differences of opinion in matters of business, can express these opinions most forcibly if need be, but when the business at hand is concluded they can drop all feeling of antagonism and resume their former friendly footing.

But women are inclined to place a personal construction on everything. This impressed me particularly when a group of clubwomen in this city were divided in opinion regarding some move the club as a body was about to make. It seems the decision was reached in a rather unparliamentary manner, and one member when asked her wishes in the matter declared that it was not so much the decision with which she found fault, but the fact that the vote was not taken according to "Roberts' rules."

But instead of acknowledging the point well taken, another member felt she was being attacked personally. And for a while an actual break in diplomatic relations was threatened over this trivial incident.

DELICIOUS NUT MUFFINS One cup whole wheat flour, 1 cup white or Graham flour, one-half cup sugar, 1 egg well beaten, 1 cup sweet milk, 1 tablespoon melted butter, ¾ teaspoon salt, 2 teaspoons baking powder, ½ or ¾ cup chopped walnut meats. Sift flour, baking powder, salt and sugar twice, add well beaten egg, milk and melted butter and nut meats, beat well and drop into well greased muffin rings which have been heated to smoking point. Will make one dozen muffins. About 25 minutes is required for baking (quick oven.) This recipe is also very good without the nuts, which makes it much more economical.

PINEAPPLE PICKLE Peel fruit and remove eyes. Holding the crown in left hand, take a silver fork in the right hand and tear fruit in small pieces from the core. For six pounds of fruit boil three of white sugar with one pint of vinegar and a bag containing two tablespoonfuls each of powdered cinnamon and mace, ½ teaspoon of cloves and a piece of green ginger root (not preserved ginger). When scalding hot pour over the fruit which should be in a large earthenware dish. Let the fruit stand in sirup all day, then drain carefully and boil down. Pack fruit in glass jars, pour sirup over it while hot and sal.

STAIN REMOVERS For black ink on any white goods—Wet with hot oxalic acid (poison). You may need more than one application if the cloth has been washed with soap several times. This will also remove iron rust.

Perhaps you would like to know how to remove ink or iron spots on fast dyed cottons or woolens. Citric acid cautiously and repeatedly applied will remove them.

To remove mildew from any white cloth stir one ounce of chloride of lime into a quart of cold water. After it has settled two or three hours pour the clear liquid off into a bottle, and it will be ready for use. Dip the mildewed spots in the liquid and let dry. If one application does not remove the stain entirely repeat the process. Rinse in clear water.

To clean grease from wool or silk, apply a fluid made by dissolving two ounces of white soap and one-half ounce of borax in a quart of warm soft water, or rain water is good. Pour a small quantity into a bowl, add the same amount of water, and sponge the goods with it. After it is clean sponge with clear water and hang up to dry. Spots of paint, grease, pitch or oil may be removed from silk or linen by rubbing with purified benzine applied with a cloth or sponge. To destroy the odor of benzine add a little oil of lemon.

Fruit stains may be removed from clothing by pouring boiling water through them; ink spots by soaking in some milk and afterward rubbing with a piece of lemon on which some salt has been sprinkled. Ink may also be removed from white linen by dipping the spots immediately into pure melted tallow; then wash out and the ink will have disappeared. The above is for fresh stains.

Remove tar spots by putting butter on them, and then wash out the grease spots with soap and water.

Woman's Wisdom

Frequently, when doubtful how to act in matters of importance, I have received more useful advice from women than from men. Women have the understanding of the heart, which is better than that of the head.—Rogers.

Sunday Corporation Subject of Damages

San Francisco, Aug. 22.—(I. N. S.)—Billy Sunday's business corporation, the concern that looks after the financial end of evangelization, was haled before the state accident commission Tuesday in a claim for compensation laid by E. J. Brunt. Sunday's company is called "Sunday Evangelist Compaign, Inc." Brunt, who helped fit up the Sunday tabernacle in Los Angeles, was injured June 9 while at work.

Picks Up Live Wire After Blast; Is Dead

Astoria, Or., Aug. 22.—Henry Niemi, 35 years old, was electrocuted Tuesday when an electric wire fell and Neimi picked it up. He was foreman on a job of laying water mains for a new distribution system in the eastern end of town and was blasting a large stump. When the blast went off a chunk of wood hit a wire overhead and it fell down. Niemi picked it up and was shocked to death.

AMUSEMENTS

COLUMBIA—Sixth between Washington and Stark. Photoplay. Louise Glaum, in "Golden Rule Kate." 11 a. m. to 11 p. m.

ART MUSEUM—Fifth and Taylor. Hours 3 to 5 weekdays; 2 to 5 Sundays. Free afternoons of Tuesday, Thursday, Friday, Saturday and Sunday.

LYRIC—Captain Kleinschmidt's war pictures.

Musical Novelty at Strand

"Five melodious maids and a man" are in the Longfeather Etude Sextette, whose musical novelty was one of the principal acts in the vaudeville half of the bill opening this afternoon at the Strand theatre. Sweet singing is mingled with instrumental selections and the ensemble of piano selections runs from classical to the latest and "punchiest" jazz music on the market. Graham and Norton are a duo of entertainers who offer a comedy singing and impersonation. "Songs and Patter" sounds like a time-worn offering in vaudeville, but with Clarence Wurding, it proves to be something very entertaining. Frances Heric, vocalist, closed the bill in vaudeville with a high class presentation of songs.

Ella Hall, dainty as a fairy and beloved by photodrama fans, appears in the leading role in "The Charmer," an appealing story. The orphan child of a missionary is cast ashore in New England, after the boat in which her parents were bringing her home was torpedoed. Raffled off by a war relief society, she finds herself in the course of developments, the innocent corespondent in a strange divorce case.

Cuticura Heals Intense Itching

Pimples On Knee. Could Not Sleep. Inflamed, Swollen and Very Red. Cuticura Soap and Ointment Healed in Two Weeks.

"My husband fell, scraping the flesh below his knee. His knee broke out in fine pimples in a half a dozen places with intense itching, and he could not sleep at night. His knee was inflamed and swollen and very red, and his clothing irritated it so that he had to keep it bandaged. The trouble lasted about six weeks.

"Then he tried a free sample of Cuticura Soap and Ointment, and it helped so much that he bought more and in less than two weeks he was healed." (Signed) Mrs. C. A. West, Outlook, Montana, Jan. 5, 1917.

Clear the pores of impurities by daily use of Cuticura Soap and occasional touches of Cuticura Ointment.

For Free Sample Each by Return Mail address post-card: **"Cuticura, Dept. H, Boston."** Sold everywhere. Soap 25c. Ointment 25 and 50c.

AMUSEMENTS

OAKS AMUSEMENT PARK

CHAT NO. 77

"The Water Nymph," the musical extravaganza at the Oaks this week, is positively the best show the Willis G. West Co. has put on this season. The Ginger Girls are better than ever, and sing, dance and put-over comedy that is absolutely good! The audiences that have attended each day this week have been fairly convulsed with laughter and have applauded most enthusiastically. This show is free to Oaks patrons, and is well worth seeing.

Picnic parties are taking advantage of these fine days to come out and romp in this delightful playground. There is everything to amuse old and young from the swimming tank to the swings and teeters under the trees for the little tots. You, too, will enjoy it.

JOHN F. CORDRAY.
