PACIFIC FLY REPELLANT
Drives away Flies, Mosquitoes and Gnats. It protects horses and cattle from attacks of insects, enabling them to feed and sleep in peace. It prevents loss of weight and strength from worry caused by attacks of insects, and from the irritation of their bites and stings. There is a satisfaction in the relief it affords domestic animals from the scourge of maddening parasites and flies, besides the profit in returns. Horses do more work on less feed and cows yield more and better milk when relieved from the frenzy incited by constantly fighting a swarm of voracious, insatiable insects.

Its Painful End.

The last of the Labrador ducks was about to die.

"It isn't the thing of dying, in itself," gasped the duck, "that grinds me! It's the fact that while my race hereby becomes extinct, the gaunt, ungainly worthless shitepoke will live on!"

Uncheered even by the reflection that the carrion crow survived the dodo, the hapless bird breathed its last.

Caught.

The lawyer for the defense found it necessary to weaken the testimony of the principal witness for the prosecution.

"Mr. Skybo," he said proceeding to cross-examine him, "did you ever live on the seacoast?"

"Yes, sir," responded the witness; "I have lived half my life in a seacoast town."

"You are familiar, then, with salt water fish?"

"Yes, sir."

"Well, just as a matter of information, will you please tell me how a flounder swims—whether horizontally or vertically?"

"Why—er——"

"That is all, Mr. Skybo; you may stand aside."—Chicago Tribune.

GERMANY'S JEAN VALJEAN.

Millionaire Philanthropist Who 40 Years Ago Was a Bandit.

Herr Charles May, of Berlin, may be termed the Jean Valjean of Germany. Millionaire whose time and money were spent in doing good, author of religious books and altogether a splendid figure of Christian manhood. May was just a few days ago branded by a jury as the perpetrator of many violent crimes in southern Saxon mountains forty long years ago, where he led a band of desperate brigands. May, who is 70 years old, collapsed and was put under guard to prevent his committing suicide. The charges were made by Wilhelm Lebius, a trade union leader. May sued for libel. The jury decided that Lebius had proven the allegations in a court at Charlottenburg, a suburb of Berlin. Not only was it proven that Herr May had been a notorious bandit, but there is no doubt but what he is the author of a long series of cheap novels written many years ago in which he describes the deeds he had committed. Herr May is a splendid linguist, speaking even Chinese and Choctaw.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Invention is totally independent of the will.—B. R. Haydon.

How swift the shuttle flies that weaves thy shroud!—Young.

No man knows so well where the shoe pinches as he who wears it.—Lincoln.

Where there is a mother in the house matters speed well.—A. Bronson Alcott.

Slim Chance for Her.

A missionary who was making his way through a backwoods region came upon an old woman sitting outside a cabin. He entered upon a religious talk and finally asked her if she didn't know there was a day of judgment coming.

"Why, no," said the old lady; "I hadn't heerd o' that. Won't there be more than one day?"

"No, my friend; only one day," was replied.

"Well, then," she mused, "I don't reckon I can get to go for we've only got one mule, and John always has to go everywhere first."—New York Sun.

The Origin of It.

"Senator," said the interviewer, "it is rumored that you intend to retire from politics."

"Well, well," replied the senator, "it's queer how rumors start. I suppose this one grew out of the fact that I attended church with my wife last Sunday." — Catholic Standard and Times.

Curious Remedies.

In some parts of England one of the best cures for a swollen neck is to draw a snake nine times across the throat of the suffering one, after which the snake is killed and its skin sewed in a silken bag and tightly sewed around the neck. Another way, almost as good, is to put the live snake in a bottle, which is tightly corked and buried near the roots of a rosebush, and as the helpless snake decays the swelling in the neck of the patient will disappear.

ATCHISON GLOBE SIGHTS.

The hardest job on earth is apologizing.

The greatest tragedy in the life of a boy is rain on circus day.

Every man engaged in a lawsuit claims he was forced into it.

Occasionally you find an old widower who doesn't like the marrying joke.

A good way to fight the saloon is to make the home more agreeable for men.

The men have enough other foolish notions without caring much for cut glass dishes.

As we become older, we are about convinced that it is possible to catch anyone in a lie.

The women say that unless you are very careful, it is easy to get an ugly carpet on your floor.

There is one thing an agreeable man's enemies can always say about him: "He is politic."

Now comes an original sort of Reformer, and says that prices are high because of trading stamps!

The stepmother never lived who was misrepresented and abused as much as that word "entertain."

What has become of the old-fashioned man who attended a wedding and insisted on kissing the bride?

The women say nothing makes them quite so tired as for a man to tell them what a Devil he has been.

Would a bride rather have a half dozen heavy silver spoons as a wedding present than a dozen light silver spoons?

An editor in a Kansas town sold out because he never received "sympathy" and "encouragement." He never deserved either.

As soon as a man's hat is taken from him at a reception, he whispers to his wife: "How soon can we get out of here?"

FASHION HINTS

Our sketch shows a somewhat extreme but popular type of gown just at present. Soft silks or sheer materials are best for this style. The hat is one of the Oriental turban affairs, the sole trimming being a butterfly bow of velvet at the side-back.

TELL TALE EYES.

Black (dark brown) are the sign of a passionate ardor in love.

Light brown or yellow denotes inconstancy; green, deceit or coquetry.

Dark blue, or violet, denote great affection and purity, but not very much intellectuality.

Clear, light blue, with calm, steadfast glance, denote cheerfulness, good temper, constancy.

Pale blue, or steel colored, with shifting motion of the eyelid and pupils, denote deceitfulness and selfishness.

Russet brown eyes, without yellow, denote an affectionate disposition, sweet and gentle. The darker the brown the more ardent the passion.

Blue, with greenish tints, are not so strongly indicative of these traits, but a slight propensity to greenish tints in the eyes of any color is a sign of wisdom and courage.

Gray, or greenish gray, with orange and blue shades and ever-varying tints, are the most intellectual, and are indicative of the impulsive, impressionable temperament — the mixture of the sanguine and bilious, which produces poetical and artistic natures.

Eyes of no particular color (only some feeble shades of blue or gray, dull, expressionless, dead looking), belong to the lymphatic temperament, and denote a listless, feeble disposition, and a cold, selfish nature.

Practical Charity.

"See the poor stray cat."

"Why not toss him some meat?"

"No; I believe in teaching others to help themselves. I will throw out some crumbs to attract the birds and maybe the cat can catch one."—Louisville Courier-Journal.

The Turkish Drum.

The darabouka, or Turkish drum, resembles a long vase, the bottom covered with parchment.

Mute Astonishment.

"Why don't you ladies thank a man who gives up his seat in a street car?" asked the censorious person.

"As a rule, we can't," replied Miss Cayenne. "We're so surprised that it takes our breath away."—Washington Star.

Unexpected.

"That's a fine umbrella you are carrying."

"Th-thank you."

"For what?"

"For n-not claiming it."—Cleveland Plain Dealer.

HEAT KILLING MANY

Lake Michigan Becomes Too Hot to Afford Relief.

Buildings Are Heated Through and Through—Wheat Damaged 30 to 50 Per Cent,

Chicago—With the mercury up to 90 and no air stirring, Chicago became a great bakeoven. Five persons were killed by the heat Saturday and a score prostrated. Dogs were driven mad in the streets and bit a number of persons.

There is no prospect for cooler weather for two days. Fire escapes and roofs are crowded with sufferers seeking a breath of air. The parks, bathing beaches and every open spot contain sweltering humanity. Residences have now become so thoroughly heated through by the long siege that no relief is to be obtained inside the houses.

A woman, while being taken to a hospital suffering from sunstroke died in an Illinois trainshed while awaiting a train. Her body was taken to the undertaker's instead of the hospital.

A man was stricken by the sun while working on a roof. He fell to the ground and died shortly after reaching a hospital.

Another man was stricken by the heat and fell down an elevator shaft three stories.

Of the many prostrated fully one-half will die after illness of more or less lingering degree.

For the first time the water in the lake was too warm for comfort to bathers. This is the surf water, extending about 600 feet out. This strip of hot water nullifies the faint breezes off the lake.

The continued hot weather is parching the grain crops of the Middle West and the most conservative experts in the fields admit that all grain is damaged between 30 and 50 per cent. Every day without rain will increase this ratio at a much faster rate. Wheat is being forced to ripen on stalks no more than a foot high and the grain is badly shriveled at that.

SOUTHERN PACIFIC FINED.

Eighteen Cases of Rebating Cost $18,000 on Pleas of Guilty.

San Francisco—Pleas of guilty were entered by the Southern Pacific Railroad company to 18 counts of the indictments charging rebating and discrimination in rates found by the Federal grand jury on information gathered by the Interstate Commerce commission, and fines aggregating $18,000 were imposed by United States Circuit Judge Van Fleet.

The defendants were fined $9,000 for rebating on shipments of matting from Kobe, Japan, to points in the United States through this city, in connection with the Pacific Mail Steamship company. On the charge of having given rebates to the California Pine Box & Lumber company on shipments from Verdi, Nev., to Sacramento valley poinst, a fine of $8,000 was imposed, and for concessions made in the shipment of wool by Miller & Lux, the fine was $1,000.

The settlement of these cases was agreed to by the government through Assistant Attorney General Kenyon, who instructed United States Attorney Devlin to consent to a fine of $1,000 on each of the 18 counts, distributed among the various indictments.

T. R. to Help Lodge Later.

Boston—The statement that Colonel Roosevelt will return to Massachusetts in the fall and take part in the Republican state convention is made by Senator Henry Cabot Lodge. The senator said: "There is no doubt that Colonel Roosevelt will talk later and may have something important to say. I expect he will speak here in the campaign. He is interested in my success and in the success of Governor Draper as well. Colonel Roosevelt is a wonderful votegetter and his influence here is sure to be helpful in the campaign."

Cotton Mills Curtail Heavily.

Boston—Many of the cotton mills of the United States are shut down until July 11 for the purpose of curtailing production. The corporations which closed employ about 100,000 operatives, and include the majority of the four-score mills in Fall River, the 18 mills of the Amoskeag corporation of Manchester, N. H., and numerous factories in North Carolina, South Carolina and Georgia. The renewed curtailment agreed upon recently by the cotton interests in this city will affect about 150,000 operatives.

Blow at U. S. Planned.

Caracas, Venezuela — A cable dispatch received from Senor Rojas, Venezuelan minister to the United States, in which he reported that Venezuela's delegates to the Pan-American conference, which will begin at Buenos Ayres July 9, had advocated in Chile a Latin-American alliance against the United States, has caused great excitement here. Foreign Minister Matos has sent a cable message to the delegates admonishing them for their action.

Ontario Forests Swept.

Winnipeg, Manitoba—Bush fires have invaded the towns of Devlin and Lavallee, in the Rainy river district of Ontario, although hundreds of settlers and railway men tried to fight them off.

At Devlin the Canadian Northern railroad station, the Ontario hotel, Cook's sawmill, stores and houses were destroyed.

Unless rain comes, the timber in the entire district will be burned.

Strikers Become Violent.

Greensburg, Pa.—The Westmoreland coal district, which is in the throes of a miners' strike, was the scene of more violence at Export, when the homes of two foreign miners were dynamited. Marching strikers fired into the barracks of deputy sheriffs guarding the property of the Fort Palmer mines. No one was injured.

Texas Now Greatest Mule State.

Time was when Missouri claimed to have more mules than any other State or country in the world. But now Missouri has been forced by Texas into second place. Of the 7,500,000 mules in the world almost one-tenth are in Texas, the Lone Star State having 702,000, valued at $99 each. The total value of the State's mules was $69,498,000. Apparently the mule is specially adapted to the southern climate, for most of the four-footed kickers are to be found south of the Ohio river. The Missouri mule is worth more than his Texas brother, $20 more. The 344,000 mules in Missouri are valued at $119 each, or $40,936,000 for all of them. Georgia, which has $38,936,000 worth of mules, is third on the list. Tennessee is fourth, with $35,670,000; Alabama is sixth, with $30,866,000 worth; North Carolina is seventh, with $24,797,000, but is closely pressed by Kentucky, which has mules valued at $24,426,000. Arkansas is ninth, with $23,435,000; South Carolina is tenth, with $22,752,000, and Louisiana is eleventh, with $20,648,000.

Constipation
"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water once every 24 hours before I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered untold misery with internal piles. Thanks to you, I am free from all that this morning. You can use this in behalf of suffering humanity. B. F. Fisher, Roanoke, Ill.

A Fire Drill.

"What kept you so late at the factory?"

"We were having a fire drill."

"Isn't that something new?"

"Nope; the boss was trying to drill it into the heads of the men that if they didn't improve the class of work they were turning out they would be fired."—Houston Post.

Jimmy Dolan's Sister.

A Buffalo youngster told the teacher that his sister had the measles. The teacher sent him home and told him to stay there until his sister got well. After he had skipped joyfully away another boy held up his hand and said: "Teacher, Jimmy Dolan's sister what's got the measles lives in Omaha."

Not in His Judgment.

"The next thing in order," said the master of ceremonies, referring to the slip of paper in his hand, "is music."

"No, sir!" savagely whispered the leader of the band. "Not music! The next thing is 'Hail Columbia!'"

Taking his station, he scowled, waved his baton, and the noise of the brasses burst forth.—Chicago Tribune.

Where the Blame Lies.

"What makes that parrot so profane?"

"Well, mum," answered the sailor man, "I s'pose it's my fault. Every time I hear him speak a bad word it makes me so wild that he gets a chance to learn a lot of new ones."—Exchange.

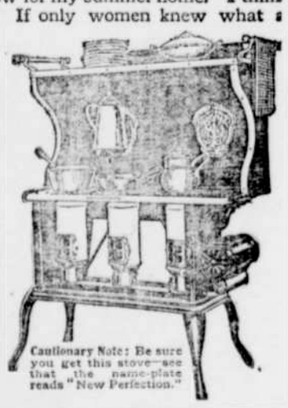
WHEN writing to advertisers please mention this paper.

A Storekeeper Says:
"A lady came into my store lately and said:
"'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was smell and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost.'"
The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.
Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired out that you can't eat. Just light a Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no smoke, no smell, no outside heat, no drudgery in the kitchen where one of these stoves is used.


Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."
