The public school at Cornelius closed yesterday on account of measles and a case of scarlet fever. Parties becoming frightened that the diseases might spread were taking their children out of school and it was thought advisable by the school board to close down until Feb. 10.

ASKS US TO PRINT It.

Tells How to Prepare a Simple Mixture to Overcome Dread Disease.

To relieve the worst forms of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

These harmless ingredients can be obtained from our home druggists, and are easily mixed by shaking them well in a bottle. Relief is generally felt from the first few doses.

This prescription states a well-known authority in a Cleveland morning paper, forces the clogged-up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple recipe will no doubt be greatly valued by many sufferers here at home, who should at once prepare the mixture to get this relief.

It is said that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious Kidney or Urinary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions which really relieve are scarce, indeed, and when you need it, you want it badly. Our druggists here say they will either supply these ingredients or make the mixture ready to take, if any of our readers prefer.
