Camel CIGARETTES

CAMELS supply cigarette contentment beyond anything you ever experienced! You never tasted such full-bodied mellow-mildness; such refreshing, appetizing flavor and coolness. The more Camels you smoke the greater becomes your delight—*Camels are such a cigarette revelation!*

Everything about Camels you find so fascinating is due to their quality—to the expert blend of choice Turkish and choice Domestic tobaccos.

You'll say Camels are in a class by themselves—they seem *made to meet your own personal taste* in so many ways!

Freedom from any unpleasant cigaretty after-taste or unpleasant cigaretty odor makes Camels particularly desirable to the most fastidious smokers. And, you smoke Camels as liberally as meets your own wishes, for they never tire your taste! You are always keen for the cigarette satisfaction that makes Camels so attractive. Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

18c. a package

Compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

EGG LOSSES ARE HEAVY

GREATER CARE OF EGGS NECESSARY ON THE AVERAGE FARM —STORING FACILITIES ARE NEEDED.

Stastics show that from one-fourth to one-half the eggs produced in Misouri during the summer months are a partial or total loss, says H. H. Kempster of the University of Missouri college of Agriculture. Heat is directly or indirectly responsible for enormous losses. Before the war it was estimated that $2,500,000 worth of eggs annually were lost, due to their becoming unfit for food. Heat causes germ growth, embryo and mold development, increases evaporation and causes eggs to become bad in a very short time.

Nearly all the losses due to heat can be avoided by the ordinary conveniences that the average farm provides. This is especially true provided the farmer keeps roosterless flocks. If the farmers would take the same care of eggs as they do of butter and cream before and during the time it is taken to market, there would be little loss because of heat. Any temperature above 70 degrees causes eggs to start deteriorating. Even under the best of conditions eggs should be marketed at least once a week.

Eggs should be collected daily and should be cooled as quickly as possible. A sweet fresh basement which is cool makes a satisfactory place to store eggs. They may also be kept cool by placing them in a bucket and lowering into a well. Avoid storing in a musty basement, keep away from flies and remember that the above suggested condition are better than a room in the house. A hen produces a good egg. It is your fault if it does not keep well and shows up bad when taken to market.

BEND WOMAN HEARS PRESIDENT SPEAK

"President Wilson just talks to you, and he's in dead earnest, too." That was the way the president's address in Portland on the league of nations impressed Mrs. C. B. Allen, of Bend, who with Mr. Allen, has just returned from the Willamette Valley. "We were a little bit disappointed though," she admitted, "for he looked just like an ordinary citizen."

In spite of the long journey, and the many times he had spoken in his campaign to carry the league covenant and the peace treaty, the president appeared absolutely untired, and was "fresh as a daisy," Mrs. Allen declared. "There was no wasted energy in his speech, and although he seldom raised his voice above an ordinary conversation tone, we didn't miss a word," she said, and added that the president made a "wonderful appeal."

A number of cases Mrs. Allen told of were as high as $25 was offered to ticket holders for their places, but she knew of no offers of the kind that were accepted.

Getting Children Ready For School.
Common colds are infectious and it is wrong to send a snuffing, sneezing, coughing child to school to spread disease germs among other little ones. Foley's Honey and Tar relieves coughs and colds, loosens phlegm and mucus, and coats raw, irritated membranes with a healing, soothing medicine. Contains no opiates. Sold Everywhere—adv.

Put it in The Bulletin.

ROOSTER OFTEN CAUSE LOSSES

MALES OF FLOCK SHOULD BE ELIMINATED FREQUENTLY AS FERTILE EGGS SPOIL MORE QUICKLY THAN UNFERTILE.

According to the department of agriculture, roosters allowed to run with the hens are a source of enormous loss every year to the farmers and poultry raisers. The annual loss resulting from the production of fertile eggs is placed at $15,000,000.

The reason for this is that fertile eggs spoil or become unfit for market much more quickly in hot weather than infertile eggs do.

Recently United States government experts conducted an experiment in Kansas to ascertain the comparative loss of fertile and infertile eggs.

Ten thousand eggs were collected from different farms. Half were fertile and half infertile, but all were absolutely fresh.

The eggs were kept on the farm under ordinary conditions. Some were stored in parlors, some in kitchens, some in cellars and some in pantries. Some eggs were put in nests, some under laying hens, some under setting hens. In every instance an equal number of fertile and infertile eggs were subjected to the same conditions.

A week later the eggs were collected and sold to a local grocery store, where they were candled. They were then shipped to St. Louis and again candled.

While on the farm 29 per cent. of the fertile eggs were spoiled for food, as compared with only 16 per cent. of the infertile eggs. On the way to market 14 per cent. of the fertile and only 9 per cent. of the infertile eggs were spoiled. This made a total of 43 per cent. of the fertile eggs spoiled as compared with 25 per cent. of the infertile ones. In other words, there were 150 dozen more of the fertile eggs lost than of the infertile. Figure this loss yourself at prevailing prices.

The way to prevent this loss is to get rid of the rooster as soon as the breeding season is over. Hens lay as well, or better, when there is no male bird in the flock.

It may be well for the farmers of Deschutes county next year to set aside a day to be known as "swat the rooster day," similar to one in Missouri this year when more than one million roosters were marketed in one week. Dealers encouraged the anti-rooster campaign by paying a 2-cent premium on all males marketed during "swat the rooster week."

Charles James Fox.
Charles James Fox was one of the progressives of English politics, as well as one of the most brilliant orators and statesmen in the history of England. Like most thinking people of his day, he favored freedom of the American colonies and was constantly in opposition to the German king, George III, who was then sitting on the English throne.

Don't Neglect Yourself.
Lame back, shooting pains, torturing rheumatic aches, swollen joints, sore muscles, puffiness under eyes, floating specks, and an "always tired" feeling are indications that the kidneys and bladder are not working properly. Foley Kidney Pills soothe and strengthen weak and disordered kidneys and bladder. Sold Everywhere—adv.

NOTICE.
In the matter of the Organization of Snow Creek Irrigation District.

Notice is hereby given that the following petition praying for the organization of Snow Creek Irrigation district will be presented to the County Court, of Deschutes County, Oregon, at the Court Room in Bend, Oregon, on the 1st day of October, 1919.

PETITION.
To the Honorable County Court of Deschutes County, Oregon.

Under and pursuant to Chapter 357 of the General Laws of Oregon for 1917, the undersigned propose the organization of an Irrigation District to be known as Snow Creek Irrigation District, and particularly bounded and described as follows:

Beginning at the NW corner of Sec. 10, Tn. 16 S. R. 11 E. W. M. Deschutes County, Oregon; thence N to the NW corner of the SW¼ Sec. 3; said township and range; thence W to the center of Sec. 6, T 16 S. R. 11 E. W. M.; thence N to the center of Sec. 31, T. 15 S. R. 11 E. W. M.; thence W to the NW corner of the W Q. of Sec. 31, said T. and R.; thence S. to the NW corner of the SW Q. of Sec. 6, T 16 S. R. 11 E. W. M.; thence W to the NW corner of the NE Q. of the SE Q. of Sec. 2, T 16, S. R. 10 E. W. M.; thence S to the NW corner of the SE Q. of the SE Q. of Sec. 11, T. 16, S. R. 10 E. W. M.; thence W to the NW corner of SW Q. or the SW Q. of Sec. 11, said T. and R. thence S to the SW corner of the NW¼ NW¼ Sec. 14, said township and range; thence E to the center of the NW¼ Sec. 14, said township and range; thence S to the SE corner of the SW¼ NW¼ Sec. 14, said township and range; thence E to the NE corner of the SE¼ Sec. 14, said township and range; thence S to the SW corner of the NW¼ SW¼ Sec. 13, said township and range; thence W to the center of the SE¼ Sec. 14, said township and range; thence S to the SW corner of the SE¼ SE¼ Sec. 14, said township and range; thence E to the SE corner of the SE¼ SW¼ Sec. 13, said township and range; thence S to the center of Sec. 24, said township and range; thence E to the SE corner of the NE¼ Sec. 24, said township and range; thence N to the NE corner of Sec. 24 said township and range; thence E to the NE corner of the NW¼ NW¼ Sec. 19, township 16 S. Range 11 E. W. M.; thence S to the NW corner of the NE ¼ NW¼ Sec. 30, said township and range; thence E to the NE corner of the NE¼ NW¼ Sec. 30, said township and range; thence S to the SW corner of the SE¼ of Sec. 30, said township and range; thence E to the SE corner of Sec. 30, said township and range; thence N to the NE corner of Sec. 19, said township and range; thence E to the NW corner of the NE¼ Sec. 20, said township and range; thence S to the center of Sec. 20, said township and range; thence E. to the NE corner of the NW¼ SW¼ Sec. 20, said township and range; thence N to the center of the NE¼ Sec. 20, said township and range; thence E. to the SE corner of the NE¼ NE¼ Sec. 20, said township and range; thence N to the SE corner of the NE¼ NE¼ Section 8, said township and range; thence E to the NE corner of the SW¼ NE¼ Sec. 9, said township and range; thence S to the SE corner of the SW¼ SE¼ Sec. 9, said township and range; thence E to the NE corner of the NW¼ NW¼ Sec. 15, said township and range; thence N to the NE corner of the NW¼ NW¼ Sec. 10, said township and range; thence W to the point of beginning.

Excepting therefrom the following described tracts:

The N½ of the NW¼, and the NW¼ NE¼ Sec. 9, Tn. 16, S. R. 11 E. W. M. The SE¼ and the W½ SW¼ Sec. 8, said township and range; the NW¼ NE¼, and the NE¼ NW¼ Sec. 17, said township and range; also the SE¼ and the E½ SW¼, and the E½ NW¼, SW¼ NE¼, SW¼ NW¼ Sec. 18, said township and range; also 56 acres out of the southeasterly portion of the SE¼ Sec. 30, Tn. 16, S. R. 11 E. W. M. belonging to the State of Oregon. Also Sec. 7 W½ of Sec. 6 SE Q. of Sec. 6 S½ of Sec. 5 N WQ. of the NE Q. of Sec. 8 NE Q. of the NE Q. of Sec. 8 W½ of the NW Q. of Sec. 8 and the W½ of the SW Q. of Sec. 8, T. 16 S. R. 11 E. W. M.; NW Q. of the NW Q. of Sec. 17 said T. and R. the SE Q. of Sec. 1 and E½ of Sec. 1 the N½ of Sec. 12 the N½ of the SW Q. of Sec. 12 the NW Q. of the SE Q. of Sec. 12 the E½ of the NE Q. of Sec. 11 the NE Q. of the SW Q. of Sec. 11, all in T. 16 S. R. 10 E. W. M. in Deschutes County Oregon.

And your petitioners respectfully represent.

I.

That they are each and all owners of land within said proposed irrigation District, which said land is irrigated or susceptible of irrigation, and that the undersigned are a majority of the owners of land within said District.

II.

That it is the purpose of your petitioners to organize an irrigation District within said boundaries under said Chapter 357 of the General Laws of Oregon for 1917.

III.

That your petitioners desire, by means of said irrigation district, to provide for the construction of works, ditches and canals for the proper irrigation or the irrigable land within said district, and for the reconstruction, betterment, improvement, extension, purchase, operation and maintenance of any and all works already constructed for the irrigation of said lands, and any other lands within said proposed irrigation District through the storage, diversion and use of the waters of Three Creek, Snow Creek, Big and Little Lakes and the tributaries of said streams and lakes, situated in Deschutes County, Oregon, and to do any and all things necessary to be done to fully reclaim all the irrigable lands within said district, and to perform any other act or things permitted under said Chapter 357, General Laws of Oregon for 1917, and your petitioners pray that said irrigation district, as proposed, be organized under and pursuant to said law, and that an election be called, had and held for that purpose.

H. T. Hartley, Tumalo, Ore.; Paul A. Scoggin, Tumalo, Ore.; Lou Pulliam, Tumalo, Ore.; Mattie A. and George Crawford, 260 Wygant street, Portland, Ore.; (by Lucy Crawford, Smith agent), Tumalo, Ore.; Frank Colfelt, Tumalo, Ore.; H. A. Scoggin, Tumalo, Ore.; I. M. McKinney, Tumalo, Ore.; Clara Isabel McKinney, Tumalo, Ore.; Mortgage Company for America, J. Armfeld, managing agent 22 Ainsworth building, Portland, Oregon.
