# Girl, 10, soon to give birth

CHICAGO (UPI) — A 10-year old girl is expected to give birth in St. Bernard's Hospital within two weeks. The expectant mother may be the youngest in Chicago's history.

Aides of the city health commissioner said there have been a number of cases of live births to mothers aged 11 in Chicago, two of them last year.

The American Medical Association said the youngest U. S. mother listed in its files was 10 when she gave birth. The youngest mother on record was a 5-year-old Peruvian who gave birth to a son by Caesarean section in 1939.

Police planned to question a 16-year-old boy whom the girl named as the father. Authorities said the boy was a member of the family with whom the girl had been living. The girl's father placed her in the foster home following the death of her mother, authorities said.

The volume last year was down nearly $2.8 million from 1962, and was $21.5 million below record year 1961.

NAIROBI, Kenya (UPI)—Tanganyikan President Julius Nyerere toured his turbulent capital today and announced the situation there was normal after two days of revolt and riot.

Nyerere's press secretary, George Rockey, said in a telephone interview that the president was cheered during his three and one-half hour tour of Dar-Es-Salaam, and reiterated that Nyerere was "well and in control."
