That Tickling in the Throat.

One minute after taking One Minute Cough Cure that tickling in the throat is gone. It acts in the throat—not the stomach. Harmless—good for children. A L Spofford, postmaster at Chester, Mich. says: "Our little girl was unconscious from strangulation during a sudden attack of croup. Three doses of One Minute Cough Cure half an hour apart speedily cured her. I cannot praise One Minute Cough Cure too much for what it has done in our family." It always gives relief. Sold by Burns druggists.

THE NEW YORK WORLD

The tickets are now made up and the most interesting Presidential campaign the United States has ever known since 1860 has begun. And it is the most important, too.

Which will it be, Parker and Davis or Roosevelt and Fairbanks? Nobody knows yet, but The Thrice-a-Week World will tell you promptly, fully and truthfully every movement of a hot and thrilling campaign. The real newspaper now prints facts rather than hopes, and it has always been the effort of The Thrice-a-Week World to tell the thing that has happened exactly as it happened. Thus you can judge for yourself and form your opinion.

There is also a great war going on in the East, where The World has a brilliant staff of correspondents in the field, and their reports are found regularly in the columns of The Thrice-a-Week World.

The Thrice-a-Week World's regular subscription price is only $1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Times-Herald together one year for $2.50.

The regular subscription price of the two papers is $3.

[illegible] are two very finely prepared skeletons of big snakes in the National museum in Washington, and in making them ready for exhibition the utmost pains were taken to preserve the cartilaginous extremities of the ribs, which with ordinary treatment are lost. Without these little pieces of cartilage the serpent's skeleton can hardly be said to be complete, inasmuch as they are the feet upon which the reptile walks, as it were. In fact, a snake walks on the ends of its ribs and in that manner achieves locomotion.
