HARNEY VALLEY

Location, Resources, Climate, Soil, and Needed Developments.

As Reported by a Late Visitor Here in the Roseburg Review.

Harney Valley is a beautiful valley in Eastern Oregon in Harney county, between 118 and 120 degrees West Longitude from Greenwich and between 43 and 44 degrees North Latitude, about 3,500 feet above the level of the sea, with an area of about 2500 square miles, containing 1,600,000 acres of land.

This valley is nestled in a broken chain of mountains on the northeast, south and west with the highest peaks of the Blue mountains on the north and the Steen mountains on the south, towering up into the realms of perpetual snow. This valley has

AN ABUNDANCE

of water supplied by the Silvies and Blitzen rivers and their tributaries, and other smaller streams, all of which have their outlets in the Malheur and Harney lakes. The Malheur and Harney lakes have no outlets. These two lakes are connected by an artificial channel and are on a level with each other, to the contrary notwithstanding, as you will observe by the maps giving the geography of this region. These two lakes cover an area of about 150 square miles and are

NEAR THE CENTER

of the valley. Their shores arlow, but they have never been known to overflow. The low shores of these lakes accounts for the shallowness of the wells in this valley, which are from eight to twenty feet deep. Irrigation is

NOT NECESSARY

to raise crops and gardens. The soil here contains all the properties necessary to make a successful grain growing country. Small fruit and shrubbery, and berries of nearly all kinds can be successfully raised here.

VACANT LAND

as level as your floor in bodies of thousands of acres, is here to be taken and is just as good as any that is occupied. Home seekers in Oregon cannot do better elsewhere.

This Eden will not long remain in an unsettled state, but in a few short years this land will be all taken, the golden opportunities now offered will be improved.

The climate is salubrious and will compare favorably with any other part of the "Inland Empire." Burns and Harney are the principal towns and in fact are the only towns in the Harney valley. These towns are about fifteen miles apart in the northern portion of the valley. Both towns have an

IMMENSE TERRITORY

adjacent, adapted to both farming and stock-raising. The town of Burns has two newspapers. The principal stock men of this valley are Mess. Peter French, J. S. Devine and the L. F. Co. These parties are all said to be millionaires and their wealth is variously estimated from one to fifty millions.

The L. F. Company have lately consolidated their stock and land interests here with Mr. Jno. Devine, and are partners as "Lux, Miller, Mason & Devine" and are known on this coast as the Pacific Live Stock Association, which is perhaps the strongest on this coast if not the strongest in the world. Their dominions extend from Grant county, Or., to the southern confines of California. They can travel hundreds of miles from here in a southerly direction and camp every night on their free-holds. Peter French Esq. is administrator to the Dr. Glenn estate of California, Mr. French's wife being heiress of that estate.

Two established surveys

FOR RAILROADS

have been made through Harney valley by the Oregon Pacific R. R. Co. and the N. P. R. R. Co.

With the advent of railroad facilities this year to Harney valley and with the advent of the electric telegraph to our midst, we will ask for no more, for these are the requisites for modern civilization and the "evolution theory" of development will naturally follow. I have received letters of inquiry regarding this region and having lately travelled over a good portion of it, I send you the above as the best means of imparting the information desired through the columns of your valuable paper. AND TO RENEW EXPIRING SUBSCRIPTIONS.

THE HERALD

Will be the representative, at all times, of the Interests of the People. At all times advocating measures that look to the "greatest good to the greatest number," in accordance with the principles of Democracy

AS A LOCAL NEWSPAPER,

THE HERALD acknowledges no superior in Eastern Oregon. It points with pride to its well-filled columns the past year, and to its evident progressive influence upon the prosperity of the great Harney valley. As in the past so in the future it will strive to make prominent note of every enterprise calculated to benefit the people; to record every advance made in showing up the resources of the Valley; to advocate Law and Order under all circumstances; to frown upon all attempts to foment discord among the people in the interest of any individual, clique or faction; to give the NEWS of the day impartially and as fully as industrious effort and the aid of friends may enable us to obtain it; to give all the Local and Personal gossip of our section, suitable for publication, with all else of interest in this department;

IT WILL BE AN EPITOMIZED HISTORY OF THE VALLEY

All Rustlers,

Who know that in the rapid growth and wide proclamation of the advantages of Harney Valley lies their own best road to prosperity

Should Subscribe for the Herald, Themselves

AND SEND EXTRA COPIES TO EASTERN FRIENDS.

The East Oregon Herald

Has successfully maintained itself through an ordeal of local opposition, vindictive and unscrupulous to a degree seldom equalled in country journalism; has advocated unflinchingly the rights of ALL the people of East Oregon generally and Harney Valley especially against the machinations of all organized petty cliques that sought by fraudulent misrepresentation to advance the private interests of a few at the expense of the many. Believing that "The sober second thought of the people is always right and always effective," and that "Truth is mighty and will prevail," THE HERALD has steadfastly followed THE RIGHT, and the people have given it a moral and material support that renders its permanency beyond question. As it has worked indefatigably and unselfishly in the interest of the people, it now asks for patronage that will yield something more than a bare existence. It has become valuable to all as a general newspaper, and

Is Now a fixed Institution of the Valley.

THE EAST OREGON HERALD

Has, from the initial number to the present, persistently and impressively maintained that the Harney country was one of the finest agricultural regions in the Union, needing only the presence of industrious farmers to develop its wonderful resources. To prove the truth of the strong language in its columns, the proprietor gave up a part of his office room to the exhibition of the products of the Valley, and urgently asked for specimens of actual growth and for everyt dy to call and inspect them. Attached to each specimen was the name of the producer, often with the mode of cultivation. This was a tangible, practical presentation of the matter, which any one could verify. How successful this movement has been, hundreds can testify. All THE HERALD asks in return for its efforts to serve the people, is an increase of public patronage—a modest request when it is considered that it returns to each patron more than his money's worth. If each resident of the Harney country will subscribe or renew for himself and take one or more copies to send abroad, it will so extend THE HERALD'S sphere of usefulness as to enable all to claim that it

Is a true Advocate of the Harney Country.

MEDIUM OF ADVERTISING,

THE HERALD presents unusual advantages. It is centrally located in a new and rapidly growing country, where manufactures of all kinds are needed. We will soon have direct railroad communication with Portland and the East. Live business men of both sections should use THE HERALD'S columns to secure this great and growing trade. Its rates, proportioned to its circulation, are reasonable.
