Harper's Weekly

ILLUSTRATED.

Harper's Weekly is acknowledged as standing first among illustrated weekly periodicals in America. It occupies a place between that of the journal daily paper and that of the less timely monthly magazine, combining both literature and news, and presents with equal force and felicity the real essence of current history and the imaginative themes of fiction. In consequence of the very complete series of illustrations of the World's Fair, it will be not only the best article to the great Exposition, but also its best apologetic. Every paragraph of general interest will usually illustrated in its pages. Its contributions being from the best writers and artists in this country, it will continue to excel in literature, news, and illustrations, all other publications of its class.
