STRAWBERRIES AT A CUT IN PRICE

Strawberries continue the leading fruit in the retail markets and prices are slowly dropping. California continues to supply the greater bulk of requirements here, but there is a slowly increasing stock of Oregon and Washington berries. These are far superior to anything California has to offer. They cost a fraction more but they taste like real berries, not like straw.

Home grown asparagus supplies have been greatly curtailed by the cold weather and with an increasig demand wholesale prices have been generally advanced. Retail prices are still unchanged in the downtown districts, although there is practically no money in handling supplies just now. Quality excellent.

Walla Walla asparagus is quite freely offered at this time. It is of the usual quality that has made that section so well known in the vegetable markets.

Small supplies of California cherries continue to come to market here, but quality is not very good and price is rather high.

Cabbage is still very high priced in the markets with quality only fair.

Chickens are about 1c to 2c a pound lower again with retailers cutting the price because of the fact that the previous figures were so high that the public refused to purchase.

Retail prices generally show:
Eggs—25@27c dozen.
Butter—Fresh creamery, 40@44c.
Fish—Salmon, 30c; halibut, 20@25c; perch, 10c; smelt, 5c lb.
Flour—Best local patent, $1.90@2.25 per 49-pound sack.
Potatoes—Burbanks, $1.50 per sack.
Onions—10@15c lb.
Yamhill street prices:
Vegetables—Carrots, 2c per lb.; dry onions, 10c per lb.; turnips, 5c per lb.; asparagus, 20c per lb.
Honey—Comb, 23c; quart, 65c; pint, 35c.
Poultry—Heavy hens, 30@32c; light hens, 28c; turkeys, private market, 50c lb.
Eggs—Public market, 25@27c; private stores, 23@28c per dozen.
