LOCAL BREVITIES.

Mayor Mays returned from Portland yesterday.

Dr. H. Logan returned from Portland on the noon train today.

New timothy hay is selling in Prineville at eight dollars a ton.

W. S. Vanderpool of the S. B. Manufacturing Co., is in the city.

Senator Mitchell expects to visit the Cascade Locks tomorrow in company with Major Handbury.

M. Cavanaugh, "Envoy Extraordinary of Queen Victoria," Calcutta, India is registered at the Umatilla house.

It is unlawful to kill or have in one's possession game of any kind, in this state, during the present month.

Mrs. Simon Mason of Wamic came into town last Saturday to obtain medical advice and was the guest of Mrs. A. M. Walker.

Up to the hour of going to press today, twenty-one new names were entered on the subscription list of the daily and weekly CHRONICLE.

The portage railway commission consisting of Governor Pennoyer, Secretary of State McBride and State Treasurer Metcham paid a visit of inspection to the Cascade Locks last week.

Severel cases of diphtheria are reported in Crook county. Two children of John Savage, who lives two miles from Prineville, have died, and another was dangerously ill, at last accounts.

Mr. W. H. McAtee, son of Mr. Ben C. McAtee who has been at South Bend, Wash., since the first of May, passed through the city today on the way to his home in Tygh Valley. He has come back to stay.

The Milton *Eagle* says that there is no word in the English language to rhyme with music. The *Eagle* is away off. We have a man in this county whose name is Busic. And for anything we know he's fond of music. How is that for a starter?

The Walla Walla *Journal* lately said of a visiting base ball nine that they played like Chinamen," and some of the papers up that way are real mad about it, and yet we presume not a man of them except the *Journal* man, ever saw a Chinaman play base ball.

Dealers in cigars would do well to remember that according to a law passed by the last congress any person who sells cigars to a customer, in any other way than from a properly stamped box, leaves himself liable to a fine of $100. Handing cigars to a customer in a glass or on a plate or tray or laying a handful before him, from which to make his selection, is a breach of section 2602 of the revised statutes of the United States.

Nineteen persons were arrested in Milton last Monday charged with criminal trespass, alleged to have been committed on the property of J. B. Mahana. In 1889 the plaintiff constructed a dam in the Walla Walla river which the defendants, a short time ago destroyed, claiming that they had a prior right to the water and that they were damaged by the obstruction which turned an overplus of water away from the main channel of the stream.

Mrs. Frank Menefee returned from a four week's visit to Portland, Saturday.

Mr. J. J. Filbin, late of the Sunday *Bystander*, Butte, Mont., has taken charge of the CHRONICLE office, as foreman.

Mr. and Mrs. H. W. Wells of Sherar's Bridge, who have been in the city for the past week, left for home this afternoon.

Two hobos and one drunk were the fruit of the labors of Con Howe last night. The drunk alone paid his fine and was discharged.

Mr. C. L. Phillips has the thanks of the editor of the CHRONICLE, for a nice mess of trout which he brought with him from Hood River.

A carload of beef cattle belonging to E. J. Cooper, of Union was fed today at the stock yards. They will be shipped this evening to Portland.

Mr. and Mrs. C. L. Phillips and Mr. Geo. Joles and Mrs. Frank Taylor returned from the Joles Camp, Hood River, Saturday. They report having had a fine enjoyable time.

A friendly trial of speed was made last Saturday, on the race track, between the horses of Messrs. Schenck, Thompson, Webster, Savage, Garretson, Tom Ward and F. B. Wyers. These are some of the fastest horses in Eastern Oregon. Thompson's Anita has a record of 2:37, Tom Ward's pacer can go like—Sam Hill, Garretson's can trot in less than three minutes; yet Boney Wyers came in second best. That is Boney says so, but the story lacks a whole lot of confirmation.

The Fossil *Journal* says that it learns from good authority that the U. P. company has put a force of men to work digging for coal on Butter Creek and that every available man in the vicinity is being hired and sent to the mines. The company has long had an eye on Butter Creek to which place it will not cost much to build a road from Heppner. It has already spent a tidy sum of money in searching for coal at that place and the *Journal* fears that the new movement may delay the development of the Fossil mines.

Mrs. Slusher of Dufur is in the city.

Deputy Sheriff J. H. Phirman returned yesterday from a seven day's trip to Harney county. He brought with him a young fellow about sixteen years of age well known in the Tygh country, named William Jordan, son of Jim Jordan, formerly a rancher on Jordan Creek. Young Jordan is charged with having stolen a horse from William Floyd and another from Gabriel Deckert. He was arrested within thirty-five miles of Burns just as he was saddling a horse to go further south. He was to have an examination before Justice Schutz this afternoon.

Last week Ed. Mills, the gentlemanly bookkeeper of Filloon Bros., packed his valise for a trip to Collin's Landing and left it in the office, ready to take it with him on the boat next morning. During Mr. Mills' absence from the office, Jno. Filloon and A. C. Sanford managed to crowd into it a lot of old greasy castings, two old tobacco pipes without stems, a pair of superannuated shoes, a few cigar stubs, a dried out plug of tobacco that had been kicked around the office for the past two years, a lot of last year's almanacs, and a miscellaneous assortment of advertising cards, dodgers etc., the whole weighing about fifty pounds extra. Ed. innocently carried the valise to the boat and at the end of the trip packed it about a mile to the camp and never discovered the joke till he opened his valise in the presence of Geo. Filloon.

Senator Watkins is making a record for himself, as a hunter, at the Joles Camp, Hood River. A few days ago, as he wandered through the surrounding woods he saw a wild cat about 75 yards ahead of him. Hesitating a little, as a careful hunter will, he saw it move and presently blink one of its eyes, as if to say "come on George." The senator drew a careful bead and blazed away. When the smoke had cleared off the cat was still there and the senator supposing it was dead walked toward it as he drew his clasp knife with the intention of skinning it. What was his surprise to find that the cat was nothing but the stump of a pine tree and the eye that blinked so wickedly was simply a hole that a woodpecker had made in it.

An attempt was made last night to blow open the safe of Mr. J. T. Peters. By some means the would-be safe cracker got the outer door of the safe open, and filling the key hole with powder attempted to destroy the lock. in this however he signally failed as the lock remains uninjured. An attempt was also made to drive a punch through the steel plate of the inner door, but no harm was done beyond a few shallow indentations. The whole work bears evidence of having been clumsily done and the contents of the safe remain uninjured beyond the fact that the edges of some papers were slightly scorched with powder. It was a fruitless attempt anyhow, as there was no money in the safe beyond a little change. Mr. Peters desires the CHRONICLE to announce, for the benefit of future safe crackers, that he never keeps any money in the safe. He deposits his money in The Dalles National Bank and when any comes into his hands after banking hours he puts it in the Umatilla house safe. To these two places safe crackers are politely referred.

Engineer Jack Rochford, of the run between Ashland and Dunsmuir, on the Oregon and California railroad, lost his life last Wednesday in a rather unusual manner. When about two-thirds through the 1200-foot tunnel, near the summit of the Siskiyou mountains, the train, a double header, broke in two. A temporary coupling was made of chains which broke almost immediately. Rochford was on the first engine. There was very little draught in the tunnel and what wind there was blew the thick smoke of a fresh green fir wood fire into Rochford's cab. The result was that both he and his fireman were completely asphyxiated. They were not missed off the engine till the train backed out of the tunnel. It was fifteen or twenty minutes before they were found and by that time Rochford was dead. One of his arms had been severed from his body and he had bled to death. The fireman was dragged out unconscious but has since recovered.

Joe Sylvester, familiarly known as Buckskin Joe, on old-time acquaintance of the people of The Dalles arrived in town yesterday from California, coming by the way of the Siskiyou pass and the Barlow road. Joe is representing the San Francisco firm of Coburn, Tevis & Co., manufacturers' agents and commission merchants. Joe travels in royal style, sure enough. He has a light wagon painted a wine color and striped with gold. On the side of the wagon is painted in shaded gold letters the name of the firm with the words "Sapolio, C. & S. and Peerless Axle Grease and Alfred Wright's Fine Perfumery." He drives three handsome horses, two greys and a bay. The bay is a magnificent Kentucky horse named Barney which Joe delights to ride without saddle or bridle and which he has several times refused $1000 for. He is a fine intelligent animal and performs a number of amusing tricks. Each horse is clothed with a blue cashmere blanket on each side of which is wrought in white wool letters the legend "Sapolio." The harness is silver mounted, each saddle surmounted with three silver bells, and each horse besides carrys a set of sleigh bells. A red plume waves from each horse's head and the whole is as tasteful and imposing an outfit as one could well find. Joe went, today, over to Goldendale, to remain till Wednesday, when he will return and parade the streets of the city.

Pap Chandler on a Bicycle.

Bicycle riding is still the rage, and Pap Chandler has got the craze in its worst form. Regretting that he had no opportunity for taking lessons from Mr. Fee and Joe Fitzgerald he has placed himself under the tutelage of John Filloon and A. C. Sanford and this morning he made his first mount in the warehouse of Filloon Brothers. To say that it was a success is to put it mildly. The bicycle—a safety—was leaned up against a post in the warehouse, and a step ladder placed by the side of it. Pap managed to "roll on" as his instructors put it, when relating the circumstance to a CHRONICLE reporter. Then Pap shut his eyes and ground his teeth while his tutors held the machine firm against the post and then Pap "rolled off" and thus ended his first lesson.

Buck skin Joe the king of the cow boys has arrived in this city and will be out on the streets with his three horse tandem-educated team next Wednesday. He represents Coburn, Tevis & Co., of San Francisco, Enoch Morgan Son's Sapolio and the celebrated C & S Axle grease and various other lines of goods which have taken the lead everywhere he has been. He will give all his old-time friends a call. Joe is well known in these parts. Be on the look out for him.

The complete development of Oregon as a stace demands three things above all others. First, the fullest establishment of irrigation systems wherever possible. Second, the opening of the Columbia river; and third the opening up of the interior by the completion of the Oregon Pacific and the construction of a railway diagonally across the state from Pendleton to the California line. When these are attained full measure of prosperity will come to this land so rich in soil and so favored in climate and not before.—*Pendleton Tribune.*

The little 3-year-old son of T. C. Shaw, of Corvallis, built a little fire in his father's barn. As the flames went leaping up the haymow the little fellow unconcernedly walked out and explained that he didn't intend to build such a large fire. Although somewhat expensive to Mr. Shaw, the child will probably never forget the truth of the old familiar maxim that "Great oaks from little acorns grow."

Teachers will bear in mind that the time for holding the quarterly examinations has been changed from the last Wednesday to the second Wednesday in each quarter. The examination, therefore, for this quarter will begin August 12th.

Prof. E. L. Shuey,
Dayton, Ohio.

LAGONDA HEIGHTS, SPRINGFIELD, O., June 15, 1891.

DEAR SIR:—Replying to your request for a statement of the facts concerning my experience with the Equitable Life Assurance Society of New York in their late settlement with me, I would state that in the early part of 1881, my age being 56 years, I took out a Ten-Payment Life Policy in the Equitable upon their Ten-Year Tontine Plan, for $40,000. My premiums during the period amounted to $37,512.00. The Tontine period expired early in January of the present year, and the Company then offered me the following terms of settlement;

FIRST—A paid up policy for	$40,000 00
And cash	9,751 60
SECOND—A paid up policy for	54,600 00
THIRD—Surrender my policy, and receive in cash	36,496 80

I was so little satisfied with the results of my investment that I chose the third, cash, proposition, but when I so decided, the company, through several of its representatives, labored to induce me to take one of the other forms of settlement, but finding that I was determined to surrender the policy and take the cash, they finally instructed me from the home office to send policy and receipt for the amount, $36,496.80, to their State manager in Cleveland, and he would remit me the amount. I followed their instructions and sent the policy and receipt through my bank in Springfield to our correspondent in Cleveland, only to have it returned from the Cleveland Bank with the information that the State manager of the Equitable states that he "had not sufficient funds to meet it." This forced me to return it to the New York office, and compelled me to wait some twenty days after maturity before receiving final settlement.

I have given no statement endorsing the Equitable, or expressing my satisfaction with their settlement with me. On the other hand I have positively refused to do so. The fact that my returns were $1,015.20 less than my total investment renders further comment unnecessary.

During the time I carried the Equitable policy and up to the day when they submitted the above proposition to me, I was kept in total ignorance of the condition of my investment.

In marked contrast with this has been my experience with the Northwestern, in which in 1882, I took a Ten-Year Endowment Policy, Ten-Year Tontine, for $10,000, that company having from time to time furnished me with a memorandum of the surplus on my policy over the signature of their actuary; so that while my policy has not yet matured, and will not until next year, I have the satisfaction of knowing that at maturity it will net me from $4,000 to $5,000 more than the face of the policy calls for.

Very truly yours,
ROSS MITCHELL.
