Submarine Warfare Takes Back Seat While Interest Centers on Marne

NEW YORK, June 4.—Evidently the exploits of enemy submarines along the Atlantic seaboard did not enter seriously into Wall street's calculations today. Far more interest was manifested in war bulletins telling of the assistance rendered by the American troops in checking the German drive at the Marne.

All divisions of the stock market opened at material gains, these being considerably enhanced during the active forenoon. Shippings, including shares of coastwise companies, participated in the advance.

Reactions occurred on the reduced dealings of the mid-season, partly as a result of the French official report.

Reversals were moderate, however and affected only a few speculative favorites, specialties attaining to higher levels than before.

United States Steel's early rise of 2½ points was a material favor in the strength of affiliated issues. Baldwin Locomotive was foremost among equipments at an extreme advance of four points. Sales were 750,000 shares.

Except the tax exempt 3½s, all the liberty issues made further concessions to new low records. The first and second 4s fell to 93 and the 4¼s to 95.32. The general bond list was irregular. Total sales, par value, aggregated $7,250,000.

United States bonds were unchanged on call.

In spite of the fact that Secretary McAdoo has forbidden the printing of any more fancy railroad folders, the hegira to California will continue. Everybody has the habit. —Los Angeles Times. Good to be optimistic any way.
