STONE DESCRIBES EUROPE IN CRISIS

France Faces Critical Situation, Declares YMCA Delegate

Current political conditions in France and England are discussed in a letter received here from H. W. Stone of Portland, a delegate to the YMCA conference to be held in Helsingfors, Finland, next month. Mr. Stone is now in London on his way there.

"We spent a full week in Paris and found that city and France in a most critical condition. The franc was falling each day and every skeaper who came before us emphasized the fact that the nation was facing the greatest crisis since 1914, if not in the history of the nation.

"We have been in London nearly three weeks, and though conditions are very different from those in France, all British speakers acknowledge that England is facing many difficult problems. We spent two hours at 10 Downing street with Mr. and Mrs. Baldwin. We were taken into the cabinet room where the prime minister explained to us how the British cabinet worked and some of the problems they have before them.

"Another day we had tea on the terrace of the house of commons as the guests of J. Ramsey McDonald and a group of leaders of the labor party.

"Colonel Wylie, who is the head of British industries and holds a position somewhat similar to the United States chamber of commerce, stated that every one of the five major industries of England is in serious difficulties—not one of them is making any money and some are actually losing it. The basic industries are suffering from two great difficulties, the class or caste system and the labor philosophy which can not see the need of producing a maximum."

Love of Life in Siberia Holds German War Officers

BERLIN.—More than two-hundred former German army officers and men, taken prisoners by the Russians during the war and excited to Siberia, like the frozen wastes so well that they refuse to come back.

This is revealed in a statement of the German government which denied reports that the Soviet republic was detaining the Germans in Siberia against their will.

Since 1923, the statement continues, the government has offered each exile free transportation back home. In three years only fifty have taken advantage of the offer; while two hundred and sixteen have refused. Some of them have become Russian citizens. All have settled on farms and are earning a good liivng.

Newport—Great hydro-electric power plant promised for Siletz river, and one or more pulp mills will be built on Yaquina bay.

STATE SEAL WILL GRACE NEW SHIP

Sam Kozier Receives Request for copy to Be Placed on "Malolo"

PHILADELPHIA, Aug. 7.—The great seal of the state of Oregon will form one of the decorative features of the S. S. Malolo, soon to assume her destined role of Queen of the Pacific and of the privately owned U. S. merchant marine.

Samuel A. Kozer, Oregon's secretary of state, has already received a request for a copy of the seal. The request was made by the Matson Navigation company, the company that will operate the Malolo on the San Francisco-Honolulu run upon her completion next spring.

Officials of the Matson line announce that the seals of the states of Washington and California, and the seal of the Territory of Hawaii, will also be among the decorative features that will indicate the Malolo's mission as a connecting link between the west coast and the Paradise of the Pacific.

The Malolo is the largest and fastest high-powered passenger steamship ever launched in the United States. She was launched at Cramp's shipyard, Philadelphia, June 26, 1926, in the presence of Secretary of Commerce Herbert Hoover and 10,000 spectators.

RAISES SAFFRON

HAVANA. — Pablo Favier, director of the Civil hospital at Guantanamo, has announced successful raising of saffron in the gardens of the hospital in that city. Imported saffron is quoted at around $35 a pound on the market. It is used extensively in Cuban cooking, lending the color to yellow rice, a favorite dish in that country.
