When Whipping Cream.

To prevent splashing and waste when beating eggs or whipping cream with an egg beater, cut a piece of clean white cloth or brown paper across at right angles in the middle so there will be four small flaps. Pull the paper down over the handle of the egg beater and let the outer part of the paper cover the edge of the bowl.

For crushed finger thoroughly apply Hanford's Balsam. Adv.

Temporary Condition.

"I saw you out in your new car yesterday."

"Did I look like a motorist?"

"Well, no. You had an air of responsibility that gave you away, but that will disappear in time."—Birmingham Age-Herald.

Dr. Pierce's Pellets are best for liver, bowels and stomach. One little Pellet for a laxative—three for a cathartic.

The Substitute.

"Does heap big Indian ever smoke the pipe of peace any more?"

"Not these days," said the Carlisle graduate. "Have a cigaret?"—Louisville Courier-Journal.

THOUSANDS MARCH FOR PREPAREDNESS

Chicago Has 130,214 People in the Parade in Behalf of Defense.

PORTLAND HAS BIG SHOWING

Other Cities Also Indulge in Monster Celebrations to Give Emphasis to National Welfare Call.

Chicago—The greatest parade ever held in Chicago ended Saturday night after 130,214 persons, one-sixth of whom were women, had filed through the streets in the preparedness demonstration. The parade was 11½ hours in passing. More than 1,000,000 persons are estimated to have witnessed it. The night division was made up largely of militia organizations, which included all branches of the army and navy service.

The parade began at 9 o'clock in the morning and did not conclude until nearly midnight.

All day long and far into the night the marchers, massed from curb to curb, rolled like a tide through the streets. It was as if the great skyscrapers were the banks of a river and the marching thousands, each person with an American flag, the water moving between them.

Major General T. H. Barry, commander of the Central department, U. S. A., who sat in the reviewing stand, declared it to be the greatest and most inspiring spectacle he had ever witnessed.

The demonstration impressed by its bulk, and by the absence, to a large extent, of the hilarity accompanying most parades. There were no floats, no comic costumes and little of the holiday spirit apparent. The airs played by the bands either were patriotic or military.

Portland Has 15,000 in Line.

Portland—Prepare! This was the unquestioned sentiment of what is variously estimated at between 15,000 and 20,000 citizens who marched through Portland's streets Saturday night, their shoulders squared, their heads up, alert and ready, facing the duties of today with confidence and courage.

It was one of the biggest parades ever held in Portland. It required one hour and five minutes to pass a given point.

On this basis it is estimated that the number in line was approximately 15,000. This was the figure of Judge C. U. Gantenbein, chairman of the committee on arrangements, who saw the entire lines pass in review.

Other unofficial estimates placed the number at as high as 20,000.

The marching column called attention to a world on fire, and drew all eyes to the lamentable fact that America is living in a house immeasurably far from being fire-proof.

The flags that fluttered everywhere waved the messaged to prepare, to guard the country from every possible ill, and they roused in the watching thousands the spirit of the occasion.

School Girls Form Living Flag.

Providence, R. I.—Rhode Island men and women 52,522 strong marched here Saturday in a preparedness parade. The procession was nearly seven hours in passing the reviewing stand. A feature was a living flag, composed of 1560 schoolgirls.

17,000 Parade in Rain.

Hartford, Conn.—Men and women, estimated in number at fully 17,000, marched here Saturday afternoon in a "preparedness parade." Rain fell at frequent intervals, but the 16 divisions swung steadily along, taking nearly two and a half hours to pass a given point.

50,000 in St. Louis Demonstration.

St. Louis—More than 50,000 St. Louisians marched through the streets here Saturday to demonstrate the city's overwhelming favor toward National preparedness.

10,000 March at Salt Lake.

Salt Lake City—The "preparedness" parade here Saturday afternoon brought out a body of marchers estimated at more than 10,000.

6000 Parade at Lima.

Lima, O.—Six thousand preparedness advocates marched in a parade here Saturday. Every marcher carried a flag.

5000 in Parade at Springfield, O.

Springfield, O.—City and county officials led a preparedness parade in which 5000 persons participated here Saturday.

Mail Rifled of $4000.

Roundup, Mont.—A pouch containing registered mail was cut open and rifled of between $4000 and $5000 in currency in the Milwaukee depot in Roundup Thursday night, according to information given out by postal authorities. The cache is said to have consisted of bank remittances and postal funds from Klein to the depositary at Helena. The registered packages were inclosed in an ordinary first-class mail pouch. The robbery was not discovered until the clerk on the train opened the pouch to sort its contents.

5th Floor Title & Trust Bldg., Portland, Ore.

A Kansas Editorial

It warmed our hearts the other day to see a top buggy, new and glistening, claim a place among the motor cars and farm wagons in the rank around Centerville's court house square. When we found out who owned that buggy we couldn't help but chuckle. Hodge's boy has the right idea; gasoline can burn up the roads, but a trusty old nag with a buggy will find the shortest way to Sarah's heart. Ride your time, Jim! The good old country buggy is still the king of siege guns in Centerville's affairs of affection. Two or three nights a week young Shaw takes Sarah for a spin in his flivver. Well, let him—and as often as he wants! More speed can't win a girl like Sarah. Give Shaw his choice moonlight nights and he you content with the dark ones. His eyes are always on the road. His hands are busy with the steering wheel. His voice is drowned in chugs and whirs and sputters. Here lies your incomparable advantage, Jim; you can lay down the reins! A long road and a shadowy one. Something to say and an eternity to say it.—Colliers.

Onion Seed Poor.

The average germination percentage of onions in Oregon is low this year, only 61.90% germinating, as compared with 75.13% for last year. The germination of over 34% of the onion samples was below 25%.

Onions make up over ten per cent of all germination tests made in the Oregon Branch Seed Testing Laboratory this year.

Practical Prohibition.

"I understand you are now one of the officials of Crimson Gulch."

"Yep," replied Bronco Bob. "I come in on the prohibition ticket."

"And how is prohibition working out?"

"Fine. We've got it fixed now so that nobody but the particular friends of us authorities can buy or sell a drop."—Wichita Eagle.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:—

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. James Conley, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice,—it will be confidential.

Sheep — Yearlings, $8@9; wethers, $7@7.50; ewes, $5.50@6.50; lambs, $8@9.25.

Idaho Crops Have Suffered.

The monthly bulletin of the Caldwell Commercial Bank, just issued, says:

Crops have suffered quite severely since our last letter, due to cold weather. On May 9, 10 and 11 a cold wave extending over this entire section of Idaho, and with a low temperature of 20 degrees above zero reported, killed practically all of the fruit and damaged the grain and hay crop to some extent, nipped the less hardy garden truck, damaged the roses and will mean quite a heavy financial loss to the country. The strawberry crop seems to have survived the best of any of the fruits. Since May 18 the rainfall has been considerable and of much benefit. The temperature for the month has been below average.

The usual anticipated rise in the price of wheat at this season has failed this year. In fact an uncertain market with a downward tendency has ruled recently. The Caldwell Milling Elevator company report paying $1.35 per cwt. for wheat, $1.15 for oats and $1.25 for barley.

Heavy shipments of hay were made during the past month and practically all of the 1915 crop is cleaned up. The first crop of alfalfa will not be up to average, due to the cold weather, and will be somewhat late.

Cantaloupes on Market.

Spokane — In spite of the wet and chilly weather the stores have managed to make a brave show of spring fruit and vegetables, although the local products have been retarded. The two novelties to be found are cantaloupes at 15 to 25 cents each and apricots at 25 cents a pound or 75 cents a box. Cherries from California are fairly plentiful at 25 cents a pound alike for the light and dark varieties. The supply of asparagus has been lessened by climatic conditions and the local crop has scarcely been touched. Warmer weather will bring it in more abundantly.

Copper Mine Reopened.

Baker, Or.—Once abandoned as an unprofitable venture, the old Paymaster mine, a copper property in the Eagle Mountains, is being reopened, since the traces of the rare ore, molybdenite, with a market value of $8000 a ton, have been found. W. A. Gilliam, Isaac and Griswold Miller and Bradley Brot., owners of the property, also believe that a considerable income may be netted from the main copper ore bodies. Assays just made of some of the ore samples give 64.8 per cent values, meaning, at the present quotations, from $800 to $400 a ton.

Strawberries Are More Plentiful.

Portland—Receipts of Oregon strawberries were larger the first of the week and prices were lower than last week, with sales at $2.25@2.50. Kennewicks sold at $2.25. California loganberries were offered at $1.25@1.50 a tray and were slow sale. California currants were quoted at $1.25 a crate. A half car of cantaloupes arrived and sold fairly well at $4.50 and $5. The last car of Florida tomatoes of the season was received. They sold at $5 a crate. New green corn from the South was put on sale at $1 a dozen.

Save Money on Your Stump Blasting—

The explosives that get stumps out cleanest and cheapest are those that have a heaving and lifting effect, shattering the stumps just enough to break them up. Then you can handle them easily.

"The farmer," says an Experiment Station, "should use an explosive that stands all ordinary shocks of handling and does not easily freeze. He does not need the expensive nitroglycerine explosives." Thousands use

GIANT FARM POWDERS

STUMPING — AGRICULTURAL

and save money because they go further than others. They are made especially to suit *Western* farm conditions.

Giant Farm Powders—the product of the oldest manufacturer of high explosives in the United States—are the only genuine "giant powders" for agricultural use. They are made in two brands—Giant Stumping Powder, ideal for blasting in wet ground; and Eureka Stumping Powder, the money-saving, low-freezing explosive for blasting stumps in dry soil.

Ask your dealer for Giant Powders and blasting supplies. If he does not have them we shall see that you are supplied.

Sleep Impossible.

"Porter, this berth has been slept in!"

"No, sah; I assuah you, sah. Merely occupied. It's the one over the wheels, sah."—Puck.

URIC ACID--GOING--GONE

"Anuric" Will Not Fail to Stop Your Backache.

People are realizing more and more every day that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Under this continual and perpetual action they are apt to congest, and then trouble starts. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances. Doctor Pierce of Buffalo, New York, advocates that every one should drink plenty of pure water between meals. Every day should exercise in the outdoor air sufficiently to sweat profusely, and from time to time stimulate the kidney action by means of "Anuric." This preparation has been thoroughly tried out at his Sanitarium, in the same way as his "Favorite Prescription" for weak women and "Golden Medical Discovery," the standard herbal system tonic (both of which now come in tablet form for convenience of carrying and taking). "Anuric" is now being introduced here, and many local people are daily testifying to its perfectness.

When you have backache, dizzy spells or rheumatism, heed nature's warning. It means that you are a victim to uric acid poisoning. Then ask your druggist for "Anuric" and you will very soon become one of hundreds who daily give their thankful indorsement to this powerful enemy to uric acid.

If you have that tired, worn-out feeling, backache, rheumatism, neuralgia, or if your sleep is disturbed by too frequent urination, get Dr. Pierce's Anuric Tablets at drug store, fifty treatment $1.00, or send 10c for trial package to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.
